THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad

No 636B T., dated Darjeeling, the 13th June 1905

From—H F SAMMAN, Esq, Offg Secretary to the Board of Revenue, L P,

To—The Secretary to the Government of Bengal, Financial Department.

I AM directed to submit, for the information of Government, the report prepared by the Collector of Customs, Calcutta, on the maritime trade of Bengal for the year 1904-1905. Under the orders contained in letter from the Government of India in the Finance and Commerce Department, No. 3317S.R., dated the 30th May 1904, copy received with Government order No. 820T—F., dated the 14th June 1904, the report on the working of the Merchandise Marks Act has, for the first time, been dealt with in the Customs report.

THE HON'BLE MR K G GUPTA, I C S

2 Mr Morshead made over charge of the office of the Collector of Customs, Calcutta, on the 30th April 1904 to Mr. Bonnaud, the then 1st Assistant Collector, from whom Mr. Foley took over charge on the 5th May 1904 and remained in office till the end of the year.

3 The Board's acknowledgements are due to Mr. Foley for the vigour and success with which he has administered the Department.

GENERAL SUMMARY.

THE following statement shows in tabular form the general details of the sea-borne trade of the Province of Bengal, both foreign and coasting, for the three years 1902 1903, 1903-1904, and 1904-1905 It embraces the trade not only of the chief port, Calcutta, but also of the subordinate ports of Bengal, viz, Chittagong, Balasore, Cuttack, Puri and Narayanganj —

Transactions on account of Government are included in the statements in paragraphs 1 and 3, but excluded from all others in this report, being dealt with separately in paragraphs 48 and 56.

There was a rise of 9·2 per cent in the value of the aggregate sea-borne trade of Bengal, which was the highest recorded in any previous year In the foreign trade the rise in value was 9 6 per cent and in the coasting trade 6·5 per cent. Only in the exports of precious metals was the foreign trade smaller, all other

headings showing an increase in value. The coasting trade shows some fluctuations there was a decrease in the imports of *gold* and *silver*, and in the exports of foreign merchandise, but this scarcely affects the general rise manifested. Calcutta accounts for 97 2 per cent of the foreign trade, Chittagong for 2·5 per cent., and the remaining ports for 3 per cent. In the coasting trade 90·4 per cent. of the aggregate value was appropriated by Calcutta, and 6 per cent. by Chittagong Taking the foreign and the coasting trade together, Calcutta represents 96·35 per cent., Chittagong 3 02, Balasore 39, Cuttack ·17, Puri ·04, and Narayanganj ·03.

* In this and all other statements in this review showing rupees, the value is stated in lakhs only followed by two places of decimals (which is equivalent to omitting "000")

The year was a remarkably prosperous one, the aggregate trade being the highest recorded for any previous year The increase, which in value amounted to 9 3 per cent, was shared by both the foreign and the coasting trade In the above table treasure is shown separately, and the result of the past year's transactions (both in the foreign and in the coasting trade) is a net importation of nearly 10 crores, or an advance on the previous year of 34 per cent. The net imports of treasure in the foreign trade were 12¼ crores against 9½ crores in 1903-1904, more *gold* and considerably more *silver* was received, while the quantity exported was less by 25¼ lakhs. In the coasting trade there was a net export of 2¼ crores of treasure, a rise of 6 per cent, large shipments of both *gold* and *silver* being made to Burma to meet the requirements of the rice crop there As regards merchandise, exports in the foreign trade exceeded imports by 20⅛ crores in value, the aggregate of imports and exports being over 102 crores, an increase in value of 7¾ crores, or 8 3 per cent Details will be found in the statements that follow Imports of merchandise into Calcutta from foreign countries were highest in August, September, and October, and lowest during April, May, and February Exports of Indian produce were greatest during October, November, and December, and smallest in April, May, and July

4 The imports of merchandise in the coasting trade rose by 60 lakhs, or by 11 9 per cent, and the exports by 56 lakhs, or by 8 per cent. The aggregate trade advanced in value by 9 6 per cent In imports there were larger receipts of *grey cotton piece-goods*, *sugar*, *wood teak*), *kerosine oil*, *stick lac*, *salt* and *rice* There was an increase in the exports of *jute manufactures*, *coal*, *mineral oils*, *tobacco leaf*, and *tea*, and a decrease in the exports of *arms and ammunition* (Government stores), *apparel*, *cotton twist and yarn*, and *grain and pulse*

Comparing the year's figures with the previous one, there was an increase of 4 5 per cent. The price has fallen under imports in six items out of ten, an increase being noticeable in the remainder, viz., *cotton twist and yarn*, *grey cotton piece goods*, *iron sheets* (*not galvanised*), and *refined sugar* In exports, nine articles give a higher average value, and six a smaller one, the six being *indigo*, *rice*, *wheat*, *linseed*, *rape seed*, and *tea* If the aggregate quantity be taken at the average value ruling in the previous year, it will be found that the aggregate for the year's trade has risen by 3 4 per cent. imports advanced by 3·2 per cent., and exports by 3 6 per cent

In imports an advance is shown in every group except VI, the fall in which is due chiefly to diminished receipts of *unset precious stones* and *pearls* Group I consists almost entirely of *horses* from Australia. The large increase in Group II was in *sugar*, *spices* and *salt*, and that in III (B) in *galvanized iron sheets and plates* *Machinery* "*other sorts*" is responsible for the advance in III (C), and "*other*" *materials for railway construction* for that in III (D) There was a general improvement under Group IV, and in VII (A) a marked increase under *cotton manufactures* *Tea chests* and *glassware* are the principal items in the advance under VII (C)

7 Exports show an advance in all groups except I, III (A) and (D), and VII (B), where there is a small decrease Larger shipments of *grain and pulse* account entirely for the marked advance in Group II, and *opium* for that in Group IV *Hides and skins*, combined with *raw cotton* and *coal* contributed chiefly to the improvement in Group VI *Jute manufactures* are the cause of the advance in VII (A) and *lac* for that in VII (C)

Regarding the distribution of trade with the different countries, it is to be noted that the figures throughout this report refer only to the port of destination or exportation as shown in shipping bills and bills-of-entry, and are not to be taken to indicate either the country of production or of final destination

The more important items are dealt with separately, but the following may be noticed

In 1903-1904 *precious stones and pearls* rose in value by 35 lakhs, in the year under review the value contracted by 59 lakhs, or by 62·8 per cent. A fall, however, from the unusual demand of the year before was to be expected A considerable increase in *glassware, carriages and carts, toys, clocks and watches, toilet requisites, cabinet-ware and furniture* may be attributed to the general prosperity of the year. There were 128 *motor-cars* and *motor bicycles* registered in the year in Calcutta alone. *Instruments and appliances* and also *books* show an increase.

The demand for *tea chests* was great, the value rising by 49·6 per cent; *wooden chests* rose in value to 13¼ lakhs, or by 64 9 per cent, but the value of *metal chests* was only 1¾ lakhs, or a fall of 12 5 per cent Of the wooden chests 84 per cent came from the United Kingdom, Hong-Kong and Germany sending the next largest supplies, while from coast ports the value supplied did not reach one lakh.

The principal products are separately dealt with Of the others the exports of *fodder, bran, etc.*, are noticeable, as these have steadily risen in importance for some years back, and during the year the increase was as much as 29 1 per cent *Oil cake* rose in value from 6 to 8½ lakhs, the oil-seed crops being good and prices cheap during the year. *Raw wool* and *woollen manufactures* both receded by 57 3 and 18 5 per cent. respectively, the former in consequence of the Thibetan Expedition, the latter probably in consequence of a reaction from the heavy shipments of the previous year. *Animal bones* having shown a decrease, *manures* fell off in value by 14·8 per cent. a smaller quantity of *wood* also was exported to the United States. The quantity of *myrabolams* rose from 140,227 to 180,462 cwt., which explains the increase in exports under *dyeing materials*.

Fluctuations in specific articles have been described it remains to examine the fluctuations in trade with specific countries and groups of countries

The value of the trade of Calcutta passing through the Suez Canal was nearly 79½ crores against 72 crores in 1903 1904, and the proportion of the total trade using this route increased from 71 7 to 72 01 per cent

United Kingdom —The proportion of the trade of Calcutta with the United Kingdom declined by 1 28 per cent Imports into Calcutta increased by 329 06 lakhs, but shipments decreased by 38 87 lakhs A marked increase in *cotton goods* from 1,505 52 to 1,778 17 lakhs, chiefly accounts for the large expansion under imports, but there were advances in every heading except *liquors*, which shows a small decrease of 5 99 lakhs The most noticeable decrease in exports is to be found under *tea*, which fell from 562 35 to 479 39 lakhs, a difference of 82 96 lakhs, and under *raw jute* which fell by 21 56 lakhs. There was an increase, however, in the exports of *grain and pulse* and of *seeds*

Continent of Europe —The total value advanced from 1,703 23 to 1,984 21 lakhs, or by 16 4 per cent, the expansion being shared by all countries except Russia and France, which show a decrease of 18 31 and 16 72 lakhs respectively This was due to a decline of 33 96 lakhs in the amount of *kerosine oil* sent from the former and in the amount of *raw silk* and *jewellery* exported to and imported from the latter country Imports improved by 76 42 and exports by 204 56 lakhs Receipts from Germany, which were larger by 44 78 lakhs, and from Austria Hungary, which were larger by 40 38 lakhs, chiefly account for the increase under imports, *woollen goods* from the former country having advanced by 20 18 lakhs and *sugar* from the latter by 24 13 lakhs Germany and Belgium account for the marked increase under exports There was a stronger demand for *raw jute, grain and pulse, hides and skins*

in Germany, while shipments of *grain and pulse* to Belgium largely improved. An increase is also noticeable in the exports of *raw jute* and *hides and skins* to Austria-Hungary, and of *hides and skins* to Italy.

Mauritius, Cape Colony and Natal.—The trade with these countries receded by 36 32 lakhs, imports falling by 21·76 and exports by 14 56 lakhs. The decrease is found in *sugar* received from Mauritius, and in treasure received from Natal, but *gold* from Cape Colony advanced by 7 50 lakhs There was a fall in the exports of *silver* to Mauritius, and a general fall in the exports to Cape Colony.

Egypt—Imports improved by 1 78 lakhs owing to larger receipts of treasure, while *sugar* and *salt* combined decreased by 2 48 lakhs The expansion in exports by 8 lakhs was chiefly in *jute manufactures*, but shipments of *indigo* and *apparel* also advanced by over 1½ lakhs each.

Rest of Africa.—The total trade advanced by 1 61 lakhs and is not of importance.

United States of America.—The total value increased by 73·07 lakhs, imports by 9·76 and exports by 63 31 lakhs Under imports *metals* and *drugs and medicines* rose in value, while shipments of *hides and skins* and *lac* showed improvements of 44 64 and 18 lakhs, respectively

South America.—The advance of 39 27 lakhs in exports was almost entirely in *jute manufactures*, shipments of *rice* also increased by 4 32 lakhs

Rest of America—Imports have almost disappeared since no *timber* was received from Canada, but exports improved by 11 15 lakhs, which was mainly due to a better demand for *tea* in Canada

Eastern Asia—Imports improved by 95·17 lakhs and exports by 74·46 lakhs. *Sugar* from Java increased by 39 18 lakhs, *treasure* from China by 23 61 lakhs and *spices* from the Straits by 10 88 lakhs Increased shipments of *opium* to China by 91 77 lakhs is the chief reason for the expansion under exports, *tea* to China and *opium* to Cochin-China having declined by 20 17 and 20·39 lakhs, respectively.

Western Asia—Imports advanced by 6 02 and exports by 12 03 lakhs. The former was chiefly in *salt* from Arabia, the latter was due to a greater demand for *rice* from Arabia

Ceylon—This trade is shown separately, as a considerable part of it consists of transhipments Imports advanced in value by 10·54 and exports by 43·48 lakhs. *Treasure* from Australia, transhipped at Colombo, is the main cause of the increase under imports, while *rice* and *coal* improved the exports by 41 64 and 9 lakhs, respectively There were no shipments of *gold* to Ceylon during the year.

Australasia—The total trade expanded in value by 57 38 lakhs, or by 6 7 per cent Imports rose by 76 lakhs, which was mainly due to treasure, *copper* and *horses* Exports receded by 18·62 lakhs, chiefly in consequence of smaller shipments of *jute manufactures*

SHIPPING.

FOREIGN TRADE.

49. The number of vessels engaged in the foreign trade increased from 1,157 to 1,281, and the total tonnage from 3,033,244 to 3,411,091 tons. The average size of vessels remained practically the same, viz, 2,664 tons, or an increase of only 85 tons The number of vessels which entered the port was 666 of 1,752,120 tons as against 599 vessels of 1,572,661 tons in the previous year. The advance was mainly due to 315 vessels having arrived with ballast from Ceylon, the African Ports, the Straits, and Japan to meet the demand for freight that prevailed, since only 258 vessels entered in ballast in the previous year The number of vessels that cleared rose from 558 to 615, and in tonnage from 1,460,583 to 1,658,971. The total of vessels flying the British flag rose from 972 to 1,123 and the tonnage from 2,589,135 to 3,024,958. Vessels flying the German colours fell from 97 to 88, the Norwegians coming next with 23 vessels Forty-six steamers and one sailing vessel left the port with cargoes of *jute*, 105 vessels with cargoes of *coal.*

A new line of steamers was established during the year to the ports of Australia and New Zealand. Owing to increased shipments of *jute manufactures* to the Argentine, a direct monthly service of steamers, *viâ* the Cape to the River Plate will run during the export season of 1905.

50. Rates of freight in the first quarter of the year were firm generally owing to the early arrivals of large consignments of country produce, and remained fairly steady till increased exports at the end of August caused a gradual advance from 22*s.* 6*d.* to 28*s.* 9*d.* per ton. An average rate of 26*s* 3*d* was maintained from October to December, after which it declined till it fell as low as 17*s.* 6*d.* per ton at the end of the year. The large crops from India and the Argentine kept up the freight market.

CUSTOMS REVENUE.

FOREIGN TRADE.

51. On 22nd March 1905 the tax on *salt*, which on 18th March 1903 had been reduced from Rs 2-8 to Rs 2 per maund, was still further reduced to Re. 1-8 per maund The new rate came into force at once, and 6,46,640 maunds of salt, which had been held back in anticipation of the reduction, were cleared at the lower rate during the few remaining days of the year The reduction in duty thus caused a loss of Rs 3,23,320. In consequence of the abolition of the countervailing and special duties on *sugar* from those countries that had joined the Brussels' Convention, only Rs 7,309 was received from these duties during the year The rate of collection under the *Tea* Cess Act (IX of 1903) remained the same, the net collections amounting to Rs 2,08,651.

From Customs duties the gross revenue collected during the year was Rs 3,92,90,891, an increase of 8 4 per cent Adding to this the revenue collected on salt imported into Calcutta but paid into district treasuries for clearance of salt from inland bonded warehouses, which amounted to Rs 25,89,028, the gross Customs revenue was Rs 4,18,79,919, an advance of 7·7 per cent After the usual deductions on account of refunds and drawbacks, the net revenue is Rs. 4,13,58,425, an increase of 8 2 per cent

Taking the grand total of import duty (Rs 3,74,24,203) it will be observed that only in the year 1902-1903 has this amount been exceeded in that year, however, the high figures were due to the revenue derived from salt, when the tax was higher Eliminating salt, the year under review shows an increase of 7 6 per cent. over 1902-1903 There has been a very marked advance in the collections on imports With the exception of a fall of nearly one lakh under *copper*, which was due to the high prices of the past year, a decrease of Rs 4,573 in *dyeing and tanning materials*, a decrease of Rs 410 under "*other articles of food and drink*," and a decrease in the collections from the special and countervailing sugar duties, the revenue has increased in a most satisfactory manner during the year General prosperity, and consequently larger importations were no doubt the chief cause. Owing to the lower price of the raw material, *cotton goods* contributed 19 2 per cent more revenue there was an unexpected improvement of 14 4 per cent under *mineral oil*, and an increase of 43 1 per cent from *spices* There was a further rise in the excise duty on local *cotton manufactures* from Rs 10,908 to Rs 11,929, or by 9 3 per cent. The total payments on account of refunds and drawbacks amounted to Rs. 5,21,494, but there was a rise in drawbacks taken alone from Rs 29,775 to Rs. 64,792 owing to considerable re-exports of *sugar*, *metals* (*silver* and *copper*), and *cotton piece goods* Refunds on *salt* were Rs. 1,61,569, a decrease of only Rs 1,711 on the previous year refunds on *arms* increased to Rs 1,62,288, but refunds on *sugar* totalled only Rs. 15,482 as compared with Rs 2,24,960 in the previous year. The refunds on *arms* and *salt* represented 85 6 per cent. of the total import refunds made Owing to better crops and larger shipments to foreign countries, the duty on *rice and paddy* rose in the year by 22 7 per cent.

ADMINISTRATION.

68 *Working of the Merchandise Marks Act.*—Hitherto it has been the custom to submit a separate report on this subject, but orders were received during the year to incorporate it in the general report

Cases under the Merchandise Marks Act rose to 493 against 325 in the previous year and 251 in the year before that The increase may, I think, safely be attributed to the increased activity and vigilance of the Custom House Officers, and was not due to greater laxity in the observance of the provisions of the Act

The cases may be distributed as follows —

		1903-1904	1904-1905
Section 18 of the Sea Customs Act as amended by section 10 of the Indian Merchandise Marks Act.	clause (*d*)	115 cases	234 cases
	„ (*e*)	78 „	75 „
	„ (*f*)	173 „	184 „

In the cases under clause (*d*) there were three cases of counterfeit trade marks One was in connection with some shirtings, and orders were passed that the offending consignment should be reshipped. A second was concerned with a brand of matches, the consignment was detained, but released after the matter had been temporarily settled in Court. In the

third a brand of cement was the cause of action being taken, but the parties subsequently setttled the case amicably Amongst the false trade descriptions the following may be noticed :—

(1) There were five cases connected with medicinal preparations In one case some bottles were marked "Bon-bon or Worm Tablets," which, on examination were found not to be a medicine for worms A penalty was imposed and the goods reshipped. In another case similar bottles were imported, which were probably meant to be sold as medicine for worms but which were marked "Bon-bon Coronation Mixture," and said to be a medicine for malaria The consignment was stopped and penalized as it was found not to be a medicine for malaria In a third instance, a consignment, the bottles of which were marked "Santonine preparation" were found to contain no santonine, it was reshipped on penalty In two instances preparations marked "B P" were found to be deficient in the proportion of spirit they contained

(2) In one case German-made biscuits were got up in imitation of Huntley and Palmer's biscuits Released after being stamped under penalty

(3) In 60 cases glass chimneys for lamps, of Belgian origin, were found marked distinctly with the English word "fireproof" but indistinctly, and evidently purposely so, with the words "made in Belgium" Small penalties were imposed.

(4) In 26 instances foreign goods bore portraits of the English Royal family. Released with small penalty.

(5) In six instances packets were found with a label denoting a larger quantity than the packets contained Penalties were imposed

(6) In four cases a false country of origin was indicated for tobacco, cigars and cigarettes Penalties were imposed

(7) The country of origin for liquors was falsely given in two instances In the first the correct country (Germany) was stamped on a consignment of liquors, and the goods passed on penalty In the second the importer declined to pay the fine imposed on some German brandy which was got up as French, and the consignment was in consequence confiscated.

(8) Paints and red leads continue to be imported, exhibiting a false trade description as to the percentage of reduction in each. Five such cases were detected and passed on penalties, after being correctly stamped.

(9) One consignment marked "Icy Essence of Peppermint" was found to contain no peppermint.

(10) In ten instances importations of fraudulent yarns were detected They aggregated 259 bales and were penalized to the extent of Rs. 3,935. In four instances the bales were reshipped, in the remaining six they were passed after the bundles had been broken up In three cases the goods were found to have been short-reeled and in seven cases short weight was proved

Of the 75 cases under clause (*e*), 55 were of articles shipped from the Continent, 16 from Japan and 4 from America Penalties were imposed in 73 of these cases, in 71 of which the country of origin was ordered to be stamped on the goods, in the remaining two stamping was done without penalty.

Of the 184 cases under clause (*f*), in 120 there were no lengths marked, in 39 the lengths were not properly marked, and in the remainder the marking did not comply with the law There were 84 cases of cotton goods, 87 of woollen goods and 13 cases of mixed piece goods. Penalties were imposed in 180 cases. The results of the year are as follows, combining the cases under clauses (*d*), (*e*) and (*f*) —

(1) Re-shipped with penalty	7
(2) Ordered to be reshipped without penalty	1
(3) Penalized and passed	462
(4) Released after compliance with the law	21
(5) Released after temporary settlement in Court	1
(6) Confiscated	1
Total	493

All the cases were disposed of by the Collector. There were two appeals made during the year, both of which were rejected by the Board of Revenue The total amount of penalties was Rs. 10,348, of which Rs. 3,935 were imposed in cases of the fraudulent reeling

of yarn. All the cases except the cases of counterfeit trade marks were detected by the Appraising staff

69 *Merits of Officers*—An additional Assistant Collector was appointed to the Custom House, Mr. C B. Bayley acting in that capacity from 18th April till 12th May 1904, when a member of the Civil Service, Mr A J Chotzner, was appointed Mr. Bonnaud retired in July 1904, when Mr Wolferstan occupied the position of Third Assistant Collector. The Second Assistant Collector, Mr Burrup, was on leave for three months and Mr Newton officiated. My acknowledgments are due to the above-mentioned officers Mr. Chotzner made a careful inspection of the office Mr. Burrup continued to show the energy and ability that have distinguished him in former years, and his services in the management of the Appraisers' Department were especially valuable.

Of the Appraisers, besides Mr. Newton, I would especially mention Mr Battye, Mr Moore and Mr. Rice, though several of the others did good work. Mr McKenna, Mr Nelson and Mr Joseph in the Import Department, Mr L. Mendieta in the Export Department, and Munshi Lutful Khabir in charge of the Record-room are the other officers whose names should, I think, find a place in this report. Mr McKenna also performed with efficiency from time to time the duties of an Assistant Collector. Mr L F Morshead was on furlough from 30th April till January 1905, when he was placed on deputation with the Government of India I acted for him from 5th May 1904

Mr A. S. Judge, the Superintendent of the Preventive Service, was on furlough from 30th April till the end of the year Mr J A Stevens, who acted for him was, I think, particularly successful in his management of the department, and he received great assistance from the Chief Inspector, Mr Maflin. The Preventive Officers who the Superintendent considers deserve mention for their work during the year are Mr West, Mr. Snell, and Mr. C M. McGuire.

ADMINISTRATION REPORT OF THE METEOROLOGICAL REPORTER TO THE GOVERNMENT OF BENGAL FOR THE YEAR 1904 1905

The 29th June 1905 —The following is published for general information.

R W CARLYLE,
Offg Chief Secy. to the Govt of Bengal.

I HAVE been in charge of the Bengal Meteorological Department during the past year

2 On the representation of the Bengal Chamber of Commerce 19 fourth class observatories in Bengal and Assam, recording one set of observations daily at 8 A M., were, with the approval of the Government of India, sanctioned by the Government of Bengal. Arrangements were at once made for the establishment of these observatories The stations selected were either tea-gardens in Darjeeling, the Duars and in Assam or the jute centres in East Bengal. Of the 19 observatories sanctioned by Government, 18 commenced work before the end of the past official year I have not yet been able to arrange for the work at the remaining station (Chandkhira in Assam).

3 The second-class observatory at Darbhanga was closed on the 27th July 1904, and the third-class observatory at Laheria Serai was retained on a permanent footing from that date The reason of the closing of the Darbhanga observatory and the retention of Laheria Serai has been given in paragraph 2 of my Administration Report for the year 1903-1904

4 Under orders of the Meteorological Reporter to the Government of India and Director-General of Indian Observatories, the third class observatory at Pamban was transferred from my control to that of the Meteorological Reporter to the Government of Madras from the 1st April 1904

5. There were thus five second-class observatories, 39 third-class observatories, 18 fourth class observatories and one voluntary observatory under the control of the Bengal Meteorological Department on the 31st March 1905.

6 The following table gives the names and distributions of these 63 observatories —

Second-class Observatories (5).

Chittagong	False Point
Darjeeling	Hazaribagh.
Saugor Island.	

Third-class Observatories (39)

Arrah	Daltonganj	Muzaffarpur
Balasore	Dehri	Mymensingh
Bankura	Dinajpur.	Narayanganj
Barisal	Faridpur	Naya Dumka.
Berhampore	Gaya	Noakhali
Bhagalpur	Jalpaiguri	Patna
Bogra	Jessore	Puri
Burdwan	Krishnagar	Purnea
Buxar	Laheria Serai (Darbhanga)	Purulia
Chaibassa.	Malda	Rampur Boalia
Chapra.	Midnapore	Ranchi.
Comilla	Motihari	Raniganj
Cuttack		Rangpur

	Tippera	Brahmanberia	

Voluntary Observatory (1)

Cooch Behar

7 The observatories at Angul and Monghyr sanctioned by Government have not yet been started.

8 Observations of the following instruments are recorded at the fourth-class observatories —

Dry bulb hygrometer	Maximum thermometer
Wet ditto	Minimum ditto

Rain-gauge

Weekly weather telegrams giving the means of the readings of the thermometers of the past week and the total rainfall of the week are sent on every Tuesday, and are printed in a tabular form which is distributed to all subscribers to the Bengal Daily Weather Report the next morning without any additional charge being made for it

9 Automatic instruments recording pressure and temperature are in use at the following observatories —

Chittagong	Puri
Burdwan	Cuttack
Saugor Island	Balasore

10 At Burdwan the barograph only is in use, as the thermograph observations were discontinued from 7th January 1903

11 At Saugor Island a weekly barograph had been in use This was withdrawn and a daily barograph and thermograph were supplied. The observations of these instruments were commenced from 9th June 1904. A self-recording anemometer is also in use at this station

INSPECTION OF OBSERVATORIES

12 The Meteorological Reporter to the Government of India and Director-General of Indian Observatories having expressed a wish that the inspection of observatories in Bengal should form part of a complete system

for the whole of India, the following observatories in Bengal were inspected during the year in accordance with his suggestions —

No	Station	Date of inspection	By whom inspected
1	Puri	11th January	Meteorological Reporter to the Government of Bengal
2	Cuttack	15th "	
3	Balasore	16th "	
4	Jalpaiguri	3rd and 4th December	Head Clerk, Meteorological Office, Bengal section
5	Dinajpur	5th and 6th "	
6	Purnea	7th "	
7	Cooch Behar	9th and 10th "	
8	Rangpur	11th "	
9	Chittagong	9th to 11th March	
10	Comilla	13th "	
11	Saugor Island	6th to 11th June	Sub-Inspector of Observatories
12	Burdwan	28th "	
13	Raniganj	2nd to 5th July	
14	Bankura	7th to 9th "	
15	Midnapore	11th and 12th "	
16	Motihari	26th to 29th August	

RESULTS OF INSPECTION AND WORK AT OBSERVATORIES

13 *Second-class observatories* —Only two second-class observatories were visited during the past year viz, Saugor Island and Chittagong, and were found to be in good condition at the time of inspection The observations from Chittagong had been unsatisfactory until January 1905 when on my representation to the Superintendent of Telegraphs, Arakan Division, the observer was changed and the present Telegraph Master, Mr Iyer, directed to take charge of the observatory from 1st February 1905 The observations have since improved The observatory at Saugor Island in charge of Mr. T W. DeSouza, the Telegraph Master, maintained its reputation as one of the best observatories in Bengal

14 *Third-class observatories* —Thirteen third-class observatories were inspected during the past year The observatories on the whole were found to be in good condition at the time of inspection with the exception of the Rangpur Observatory, which was found to be in a badly neglected condition

15 Judging from the observations submitted, the work done at the Bengal observatories was generally satisfactory with the exception of Rangpur, where the observer (the postmaster) was careless in his work At Barisal and Malda also the observers (postal employees) were careless

16. Sir John Eliot, who visited Bogra in February 1903, suggested the removal of the thermometer shed from the circuit-house compound to a site near the jail. Arrangements were accordingly made to remove the observatory to the site selected by Sir John Eliot, and the removal was effected on the 22nd May 1904 The rain-gauge of the observatory, which also was in the circuit-house compound, has been removed to a site near the thermometer shed

17 Owing to the erection of a new dâk bungalow at Ranchi, it was thought advisable to remove the wind instruments from the roof of the old dâk bungalow (which was utilized for other purposes) to the roof of the new building. The removal was effected on the 7th August 1904.

18. *Award for special observations.*—The observers at Burdwan and Saugor Island were granted special awards by the Meteorological Reporter to the Government of India and Director-General of Indian Observatories for storm observations, etc., taken by them during the past year.

19. ***Work at, and inspection of, rain-gauge stations.***—**The number of rain-gauge stations on the 31st March 1905 was 396, i.e, 16 more than on the corresponding date last year.**

20. The names of the stations started during the year are given in the following table —

Station	District	Sanctioned in Government order—
Bhaonathpur Patan Monatu Lesliganj Kerh Garu	Palamau	No 1030, dated 20th February 1904
Manbazar	Manbhum	No 1335T —R , dated 15th June 1904
Jagannathpur	Singhbhum	No 1063, dated 20th February 1904
Bagodar	Hazaribagh	No 4034, dated 11th November 1904
Banuth	Balasore	No 108T —R , dated 21st April 1903
Gomastapur Nababganj	Malda	No 280CT —R , dated 30th October 1903
Shikarpur Kosoria Dhanaha	Champaran	No 2060, dated 31st March 1904
Nabinagar	Gaya	No 2996T —R , dated 1st November 1904

21 The rainfall work at Dumkel, which was in abeyance for some time, was resumed in May 1904, the rain gauge being placed in charge of the Sub-Registrar of the station by order of the Collector of Murshidabad

22 The rain-gauges at Ramchandrapur, Daudkandi, Kasba and Nasirnagar, in the district of Tippera, have been placed in charge of the local Civil Hospital Assistants, and there has been a marked improvement in the rainfall returns received from these stations.

23 The rain-registering officers at Rejauli (in Gaya district) and Mohania (in Shahabad district) have been very irregular in the submission of the rainfall returns

24 The total number of rain gauges inspected during the past year was 244 against 230 in 1903-04, 232 in 1902-03 and 177 in 1901 02. Altogether 396 visits were made during the past year The work of rain-gauge inspection by District Officers, Subdivisional Officers and Civil Surgeons has been satisfactorily done

25 The following table shows the distribution of the 396 rainfall stations in the various districts in Bengal, as it stood on 31st March 1905, and the number of stations inspected in each district during the past year —

District	Number of rain gauge stations	Number of rain gauge stations inspected	District	Number of rain gauge stations	Number of rain gauge stations inspected

26. Under the existing arrangement of supplying rain-gauges and measure-glasses to the rain-registering officers in Bengal from the Meteorological Office, Bengal, 34 measure-glasses, 18 rain-gauges and 6 glass bottles (for use with rain-gauge) were issued during the past year from the stock kept in this office

27. *Departmental Reports*—The report on the meteorology of Bengal for the monsoon season of 1904 was prepared and submitted to the Government of Bengal on the 21st January. The usual number of rainfall maps illustrating the distribution of rainfall over the Province, the district variation from the normal and the percentage variation from the normal for the monsoon period of 1903 were also prepared and submitted to Government with the monsoon summary

28. The monthly rainfall table for Bengal and the meteorological table for Bengal and Assam with a summary of the chief features of the weather of the month, were published in the *Calcutta Gazette* about the middle of every month.

29 The following annual rainfall tables were prepared and published in the *Calcutta Gazette*. They were for the period January to December

Table I—Showing the monthly and annual rainfall at 396 stations in Bengal for 1904

Table II.—Showing the monthly and annual average rainfall at 318 rainfall stations in Bengal.

Table III.—Comparison table of the rainfall of 1904 at 318 rainfall stations in Bengal with averages of previous years.

Addenda to the rainfall table of the Province of Bengal for the year 1904.

30. Charts showing the distribution of actual rainfall, the variation from the normal and the percentage variation were prepared and submitted monthly to the Government of Bengal during the period May to October 1904, and copies were sent to the Sanitary Commissioner

31 The representation of the Chamber of Commerce, referred to in paragraph 2 of this report, included the following suggestions —

(1) that the Bengal Weather Report should be printed in the same form throughout the year and not in two different forms as was the case before, and that it should include the information received from inland observatories as was the case during the six months from May to October,

(2) that the meteorological observations recorded at certain stations (ten in number) in the Central Provinces, the United Provinces of Agra and Oudh and Assam should be included in the weather report for the purpose of indicating cold-weather storms, etc , and

(3) that the rainfall statistics should be quoted in the weather report with effect from the beginning of the year, *i e*, from the 1st January instead of from the 1st May

32. These suggestions were accepted by Mr. Little, and the scheme drawn up by him for the improvement of the daily weather report was sanctioned in its entirety by Government with effect from 1st June 1904 The observatories which have been added to the list of reporting stations are—

In Assam	In the Central Provinces	In the United Provinces of Agra and Oudh
Gauhati.	Sambalpur	Allahabad
Shillong	Raipur	Bahraich
Cherra Punji	Jubbulpur	Lucknow
		Sutna

33. The daily flag-signal message to Saugor Island and Elephant Point (Rangoon) and the daily weather telegram to the following officers were continued throughout the year —

Port Officer, Akyab
Ditto, Moulmein
Ditto, Rangoon
Ditto, Gopalpur

Port Officer, Negapatam.
Ditto, Coconada.
Secretary, Port Commissioners, Rangoon.
Deputy Port Conservator, Madras.
Port Conservator, Cuddalore
Ditto, Porto Novo.

34. The daily weather telegram was sent to the Port Officer, Chittagong, from 16th May to 16th November (inclusive). The telegram was also sent to the Port Conservator, Calingapatam, regularly on Fridays, Saturdays and Sundays.

35. Warnings of expected storms and heavy rainfall were sent to—

The Superintending Engineer, Orissa Circle.
Ditto, Sone Circle
Ditto, South-Western Circle.
The Executive Engineer, Cossye Division.
Ditto, Balasore do.
Ditto, Arrah do.
Ditto, Buxar do.
Ditto, Eastern Sone Division.
The Sub-Engineer, Dehri Workshops subdivision
The Proof Officer, Balasore
The Superintendent of Telegraphs, Bengal Division.
Ditto, Madras do.
Ditto, East Coast do
Ditto, Madras Office
The Chief Engineer for Irrigation, Madras.
The Assistant Superintendent of Telegraphs, Madras subdivision, Madras.
The Traffic Superintendent, East Coast Railway
The Engineer-in-Chief, ditto.

36 Information of the occurrence of rainfall above one inch at Daltonganj was sent to the Sub-Engineer, Dehri Workshops

37 There was no addition or alteration in the Code of Storm Signals

38 The dates of the principal storms and barometric depressions occurring during the past year are given in the first of the two following tables, and the action taken in the matter of issuing storm-warnings and hoisting storm-signals is indicated in the second of these tables —

Table giving a brief statement of the storms which affected the Bay of Bengal coasts during the year 1904-1905.

Number of storm	Period of depression or storm	Character of storm	Coast affected
1	1st to 3rd June	On the 1st and 2nd there were indications of unsettled weather in the centre of the Bay The disturbed state of the weather developed into a small cyclonic storm on the morning of the 3rd, somewhat to the south west of Diamond Island, and the storm crossed the Burma Coast early on the same day near Diamond Island	Burma Coast
2	15th to 17th June	A depression appeared off the Orissa Coast on the morning of the 15th, which intensified on the 16th and developing slowly into a storm crossed the coast near Saugor Island on the 17th	Bengal Coast
3	30th June and 1st July	A disturbance was noticed at the head of the Bay on the 24th shifting its position from day to day It may almost be said to have described a circular path, moving from the head of the Bay inland to the vicinity of Burdwan on the 25th, then slightly northward on the 26th, then to the west on the 27th, to the south on the 28th, and finally emerging at the head of the Bay on the 30th June It developed into a storm of considerable strength on the 1st July and passed rapidly inland on the same day to the south of Balasore	Orissa Coast

Number of storm	Period of depression or storm	Character of storm	Coast affected
4	11th to 14th August	A small depression appeared at the head of the Bay on the 11th and developed during the next two days into a storm of considerable severity, crossing the coast near Saugor Island on the morning of the 14th	Bengal Coast
5	19th to 21st August	A small depression was shown to the south of Saugor Island on the 19th It developed slowly into a storm during the 19th and 20th, and on the afternoon of the 21st crossed the mouth of the Hooghly	Ditto
6	27th to 29th "	A shallow depression formed at the head of the Bay on the 27th, moving slowly northwards on the 28th and passed inland on the 29th without having developed into a storm	Ditto
7	5th to 7th September	A depression appeared at the head of the Bay on the 5th It developed slowly into a cyclonic storm, and finally crossed the Orissa Coast on the morning of the 7th	Orissa Coast
8	9th to 12th " "	A depression appeared in the north of the Bay on the 9th It developed slowly during the next two days, and finally crossed the coast near Gopalpur on the morning of the 12th	Ganjam Coast
9	18th to 22nd "	Weather was disturbed for some days in North Burma On the 18th the disturbance moved into East Bengal It then shifted eastward with its centre to the south west of Chittagong on the 19th It affected the weather at the head of the Bay on the 20th, but the depression was more marked on the 21st when it was lying over South West Bengal It then moved northwards, and its centre on the morning of the 22nd was near Barisal	Bengal Coast
10	8th to 10th October	A shallow depression formed in the south-west of the Bay on the 8th, but probably owing to the high pressure conditions generally prevailing during the earlier part of the month failed to develop into a cyclonic storm, the disturbed conditions passing away on the 10th	Coromandel Coast
11	12th to 15th "	Weather was suspicious on the 12th and 13th On the 14th a depression was shown approaching the coast between Masulipatam and Nellore It developed into a storm of considerable severity off the Madras Coast on the 15th with the centre to the south east of Cocanada and crossed the coast the same night between Masulipatam and Cocanada	Circars Coast
12	4th and 5th November	On the 4th a cyclonic storm formed in the Gulf of Martaban and crossed the coast to the east of Diamond Island either the same night or early the next morning, its centre following a path parallel to the Arakan Coast, but slightly inland	Burma Coast
13	22nd and 23rd "	A depression was shown on the 21st to the south of the Bay area It developed with considerable rapidity and advanced on the morning of the 22nd into the centre of the Bay along a north north-westerly path, and on the forenoon of the 23rd crossed the Arakan Coast immediately to the south of Chittagong	Arakan Coast
14	18th to 21st December	Weather was disturbed in the extreme south west of the Bay on the 18th The depression remained stationary during the next two days and then moved further away from the coast in a north-north easterly direction on the 21st, finally disappearing on the 22nd	Coromandel Coast

RESOLUTION ON TRIENNIAL REPORT ON CHARITABLE DISPENSARIES IN BENGAL AND MEDICAL INSTITUTIONS IN CALCUTTA FOR 1902, 1903 AND 1904

MUNICIPAL DEPARTMENT—MEDICAL

Darjeeling, the 1st July 1905

RESOLUTION—No 1423T—M

READ—

The Triennial Report on the working of the Charitable Dispensaries in Bengal and the Calcutta Medical Institutions for the years 1902, 1903, and 1904

Read also—

The Triennial Report for the years 1899, 1900, and 1901, the Annual Returns for the years 1902 and 1903, and the Resolutions recorded upon them

The Inspector-General's Report, which was due to Government by the 1st May, was received on the 26th idem. The delay is accounted for by the recent change in the classification of dispensaries and the alterations in the forms of the Statistical Returns introduced by the Resolution of the Government of India, No 678-86, dated 16th July 1904 The labour of compilation in the central office has been increased, and as the new forms were not always understood by the local Medical Officers, the returns had in some cases to be sent back for revision

2 In his opening paragraphs the Inspector-General mentions certain administrative reforms which have been carried out during the three years under review One of the most important is the greater financial independence which has been given to the Managing Committees of Municipal Dispensaries In former years, when the subscriptions to dispensaries were merged in the Municipal Fund, private liberality was discouraged by the apprehension that increased contributions would merely result in a diminution of the municipal expenditure The accounts of the Dispensary Committees have therefore been separated, as far as possible, from those of the Municipalities Improved arrangements have been made for training the Police in ambulance work and first aid to the injured, and the system promises to give satisfactory results. The rules governing the examinations of Hospital Assistants have been revised The pay of compounders has been increased in certain cases The civil drug stores have been abolished and money grants are now given in lieu of medicines for Government servants. Short courses of lectures on tuberculosis and malaria have been introduced in all the colleges and in many of the more advanced schools.

3 *Calcutta Hospitals and Dispensaries.*—Since the last triennial report was written much has been done to modernize the leading medical institutions in Calcutta. The reconstruction and renovation of the Presidency General Hospital has been practically completed, with the exception of a ward for paying patients and an administrative block which will shortly be constructed. Proposals for the establishment at Puri of a Convalescent Home in connection with this hospital are under consideration. At the Medical College Hospital important additions are being made, including a new surgical wing and quarters for the nursing staff. The reconstruction of the antiquated Campbell Hospital has been commenced, and a large scheme for the remodelling and improvement of the Howrah General Hospital has been sanctioned. At the same time, as stated by the Inspector-General, the standard of efficiency in the principal hospitals has been substantially raised, and this improvement has been largely due to the energy and zeal of the Medical Officers who have been in charge.

4. The aggregate number of beds provided in the Calcutta hospitals is 1,778 On the average only three-quarters of the total number were occupied in 1904, but the margin must have been very small during the unhealthy months. The total number of indoor patients fell from 29,063 in the first, to 26,554 in the last, year of the triennial period. The first of these years was very unhealthy, but the Lieutenant-Governor notices that for a long time past, in spite of the rapid growth of the population of Calcutta, the number of indoor patients has shown no tendency to expand. There has been

a rise in the number of women and children admitted to hospital, but that of men was actually less in 1904 than it was twelve years earlier. The outdoor attendance, however, shows a steady increase, and the average yearly number of out-patients during the triennium was 267,776 against 241,576 during the previous three years Here also the improvement is most marked in the case of females; the number of women treated has risen by 59 per cent. since 1892, while in the case of men the increase is 16 per cent. only. This is attributed by the Inspector General to the measures which have been taken in recent years to secure greater privacy for female patients. Of the various institutions the greatest progress is shown by the Sambhu Nath Pandit Hospital, where the number of in-patients has risen from 3,191 in the previous triennium to 4,209 in the three years under review, and the number of out-patients from 53,734 to 62,581 The total number of patients treated there is two and a half times as great as it was fifteen years ago

5. The income of the Calcutta hospitals in 1904 was Rs. 13,67,400, of which about three quarters was contributed by Government This figure includes capital expenditure on buildings, which has been unusually large for several years past The receipts from paying patients (Rs 92,877) were the highest on record. Private subscriptions amounted to Rs. 48,689 in 1904 as compared with Rs. 15,773 in 1903, but the former sum includes two large legacies aggregating Rs 34,101. The amount contributed by private liberality towards the ordinary expenditure of the hospitals is deplorably small, and the receipts under this head in 1903 were actually less than they were twenty years previously.

6 *Charitable Dispensaries outside Calcutta* —Owing to the changes made in the classification of dispensaries it is difficult to compare in detail the figures of 1904 with those of previous years Some interesting general results may however be noted. Between 1883 and 1903, the number of hospitals under State supervision (excluding Private, Railway, Police and Female Hospitals) rose from 223 to 581, and the number of beds from 2,059 to 3,714 During the same period of twenty years the number of indoor patients rose from 22,468 to 49,166, and that of outdoor patients from 915,753 to 4,295,859 The number of operations performed increased nearly fourfold On the financial side the results are equally satisfactory The income of the dispensaries from all sources has risen from Rs 4,51,751 to Rs 16,03,354, and the amount raised by private subscriptions from Rs 1,33,758 to Rs 5,03,115.

7. In spite of the progress that has been made, much remains to be done, and the Bengal dispensaries still serve a larger population than is the case in some of the other Provinces. There is however in this Province a large number of private practitioners, who are to be found in all important villages, and these, to some extent at least, compensate for the comparatively small number of public institutions The net increase in the number of dispensaries during the last three years is only 66, or the same as in the previous triennium. The District Boards have hitherto been hampered by want of funds, but now that their resources have been increased by a grant equivalent to 25 per cent. of their income from the road cess, this difficulty will no longer be felt, and it is expected that they will considerably augment their expenditure on medical relief The question of laying down rules as to the amount of local support which should be required before new dispensaries are opened is under the consideration of Government. Efforts have been made in some districts to supplement the medical relief afforded by the dispensaries by the supply of medicine chests to village headmen, the deputation of Medical Officers to visit outlying market centres, and (in Faridpur) by the institution of a floating dispensary. The first of these measures has not been attended with much success, but the system of visiting markets is favourably reported on and should be more largely resorted to.

8. The number of beds available for indoor patients has risen from 4,882 in 1902 to 5,502 in 1904, and the total number of indoor patients from 66,810 to 69,283. Owing to instructions issued by the Inspector-General, the proportion of patients paying for their diet in the public hospitals rose from 8 7 per cent. in 1903 to 13·9 per cent. in 1904 The Lieutenant-Governor entirely agrees with Colonel Browne that hospitals should not be made to discharge the functions of poor-houses, and that they lose in popularity by so doing The

rate of mortality amongst indoor patients fell from 10 5 per cent. in 1902 to 8·5 per cent in 1904, the heaviest mortality is recorded in the hospitals situated on the main lines of pilgrim traffic The number of out-door patients is growing rapidly, the average number for the triennium being 4,970,999 against 3,650,152 in the previous three years This is due partly to the opening of new dispensaries, but also, to a large extent, to the increased efficiency and popularity of the existing institutions. As in the case of the Calcutta hospitals, a satisfactory feature of the returns is the rapid increase in the number of female patients, which in 1904 considerably exceeded a million This is due largely to the provision in the majority of the hospitals of separate female examination and waiting rooms

9 During the last two years 5¾ lakhs have been spent on buildings and repairs, and many improvements have been effected, but a large number of the existing buildings are still unsatisfactory and require almost complete renovation. Instructions have been issued to District Boards to devote to this purpose a part of the funds recently placed at their disposal. The surgical equipment of the hospitals has of late received much attention, and the Lieutenant Governor is glad to hear that the Government grant of Rs 25,000, which was made for this purpose in 1904, has been supplemented by considerable sums raised locally. The supply of medicines is still in many cases very inadequate, but the Lieutenant-Governor observes with satisfaction that much more quinine is being used than was the case a few years ago

10 Malarial fever was as usual the most frequent cause of attendance, and accounted for one-fifth of the total number of cases treated Although the vital statistics show a diminution in the number of deaths from this cause in 1904, there was an increase in the number of cases treated both in the public dispensaries and in police hospitals. In connection with the latter the Inspector-General draws attention to the good results produced by the regular administration of prophylactic doses of quinine to prisoners and lunatics, and suggests that this practice should be followed in the case of the police The attention of the Inspector-General of Police will be drawn to his remarks on this subject. The surgical record of the year was an excellent one, and in all 209,043 operations were performed. There were no less than 2,600 operations for cataract in the year 1904, or more than the aggregate number performed in the decade ending in 1891, in five cases out of six the operation was successful

11 The financial results of the year were, on the whole, satisfactory There was a large increase in private subscriptions, which furnished a quarter of the total receipts, and a smaller one in the contributions by District Boards. On the other hand the expenditure of Municipalities on medical relief in 1904 was less than it had been for several years past. In the Resolution on the Annual Returns for 1902 special attention was drawn to the decrease which occurred in that year, and the Lieutenant-Governor regrets that the remarks which were then made have had no effect. This matter will be dealt with separately. The Inspector-General of Civil Hospitals has given a list of the more important instances of private liberality, and the Lieutenant-Governor desires to express his acknowledgments to the donors. Of these the most munificent was Her Highness the Maharani of Hutwa, who contributed Rs 21,500 towards the construction of a female ward and operation-room at the Chapra Hospital and Rs. 7,646 towards the new hospital building at Bankipore, a sum of Rs 12,220 was given by the Gurjat Chiefs towards improvements in the Cuttack Hospital, and the Raja of Lalgola made a donation of Rs. 12,000 for additions to the Berhampore Hospital.

12. The thanks of the Lieutenant-Governor are due to Colonel Browne for his interesting report and for his able and successful administration of the Department during the year There are certain questions raised in the report, which it will be better to refer separately for the orders of Government. They do not affect the work of the year.

By order of the Lieutenant Governor of Bengal,

E. A. GAIT,

Offg. Secy. to the Govt. of Bengal.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground Rainfall reported on any day is for 24 hours preceding 8 A M. of that day

o, overcast; g, gloomy; d, drizzling rain, t, thunder, <, lightning, p, passing temporary showers; ↗, strong wind.

IRRIGATION DEPARTMENT

The 6th June 1905.

No 16—*Notification*—It is hereby notified for general information that the Lieutenant-Governor of Bengal proposes, under the provisions of sections VI and XI of Act V (B C) of 1864, to make the following addendum to the schedule of tolls in force on the Calcutta Canals and Tolly's Nala and published in Notification No 144, dated the 23rd May 1893

W A INGLIS,
Secy to the Govt of Bengal

13—During neap-tides, when there is not sufficient water in the Tolly's Nala near Russa for the navigation of boats laden with firewood, they will be allowed to proceed to or from the river Biddiadharee through the Circular Canal on payment of a rate of eight annas per 100 maunds of measured maundage for passage through that canal in addition to the rate ordinarily payable for entering or plying in Tolly's Nala

For purposes of reckoning demurrage charges under item No 11 of the schedule, two extra days will be allowed over and above those provided for vessels plying on the Tolly's Nala

Boats plying under this concession will not be allowed either to load or to unload along the Circular Canal or river Hooghly Infringement of this rule will render the boats liable to the ordinary tolls in force for the Circular Canal

EXPLOSIVES

Simla, the 27th June, 1905

No 3019-*G*—The following draft rules which it is proposed to make in exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act, 1884 (IV of 1884), are published (as required by section 18 of the said Act and by the notification of the Government of India, Home Department, No. 1964, dated 2nd September 1887) for the information of persons likely to be affected thereby, and notice is hereby given that the draft will be taken into consideration by the Governor General in Council on or after the 1st day of September 1905.

II —Any objections or suggestions which may be received from any person with respect to the draft before that date will be considered by the Governor General in Council

DRAFT RULES UNDER THE EXPLOSIVES ACT, 1884, FOR THE MANUFACTURE, POSSESSION AND SALE OF EXPLOSIVES

In exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act, 1884 (IV of 1884), the Governor-General in Council is pleased to make the following rules to regulate the manufacture, possession and sale of explosives in British India

All rules heretofore made by the Governor General in Council or any Local Government under the said Act, for regulating the manufacture, possession or sale of explosives, are hereby cancelled, except rules of the kind referred to in clause (*2*) of rule 1 of the present rules.

Preliminary

General exemptions.

1 These rules shall not apply to—

(*1*) the manufacture, possession or sale of gunpowder in any of the Agency tracts in the Ganjam, Vizagapatam and Godavari Districts of the Madras Presidency, or

(*2*) the possession of any explosive in any port in which special rules made by the Local Government under the Explosives Act, 1884 (IV of 1884), for regulating the possession of explosives, are for the time being in force *

* Further exemptions are made by section 14 of the Indian Explosives Act, 1884, which runs as follows

Saving for manufacture, possession, use, sale, transport or importation by Government

" Nothing in this Act shall apply to the manufacture, possession, use, sale, transport or importation of any explosive—

* *

(*a*) by order of the Government, or

(*b*) by any person employed under the Government in the execution of this Act, or as a keeper of a magazine, artizan, soldier, sailor, policeman or otherwise, or enrolled as a volunteer under the Indian Volunteers Act, 1869, in the course of his employment or duty as such " XX of 1869.

Classification of explosives

2. (1) For the purposes of these rules, explosives shall be classified as follows, namely

Class	1	Gunpowder.
"	2	Nitrate-mixture
"	3	Nitro-compound
"	4	Chlorate mixture.
"	5	Fulminate.
"	6	Ammunition
"	7	Firework.

(2) When any explosive falls within more than one of the said classes, it shall be deemed to belong exclusively to the latest of such classes

Definition of "gunpowder" (class 1)

3 The expression "gunpowder", as used in these rules, means exclusively gunpowder ordinarily so called

Definition of "nitrate mixture" (class 2)

4 The expression "nitrate-mixture", as used in these rules, means any preparation, other than gunpowder, which is formed by the mechanical mixture of a nitrate with any form of carbon or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other non-explosive substance

Nitrate-mixture includes, among other explosives,—

Chilworth special powder,
Fortis explosive,
Ripp-Lene,
Safety blasting powder, and
Westfallite

Definition and sub division of "nitro compound" (class 3)

5 (1) The expression "nitro-compound", as used in these rules, means any chemical compound which is possessed of explosive properties or is capable of combining with metals to form an explosive compound, and is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid), or of a nitrate mixed with sulphuric acid upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not

(2) Nitro-compound shall, for the purposes of these rules, be sub-divided as follows, namely

(a) Division 1, comprising—

(i) such explosives as—

Amberite No 1,
Ballistite,
Blasting gelatine,
Carbonite,
Cordite,
Dynamite,
Gelatine dynamite,
Gelignite,
Lithofracteur,
Nitro-glycerine, and
Stonite, and

(ii) any chemical compound or mechanically mixed preparation which consists, either wholly or partly, of nitro-glycerine or some other liquid nitro-compound, and

(b) Division 2, comprising—

(i) such explosives as—

Amberite No 2,
Ammonite,
Bellite,
Coopal's powder,
Cotton gunpowder,
E C powder,
Gun-cotton ordinarily so-called,
Nitrated-gun-cotton,
Picrates,
Picric powder,
Roburite,
Sawdust and gun-cotton powder,
Schultz's powder, and
Tonite (or cotton powder), and

(ii) any nitro-compound, as hereinbefore defined, which is not comprised in Division 1.

6 (1) The expression " chlorate-mixture ", as used in these rules, means any explosive containing a chlorate.

Definition and sub-division of " chlorate mixture " (class 4)

(2) Chlorate-mixture shall, for the purposes of these rules, be sub-divided as follows, namely

(a) Division 1, comprising—

(i) such explosives as—

Horsley's blasting powder, and

Brain's blasting powder, and

(ii) any chlorate preparation which consists partly of nitro glycerine or of some other liquid nitro-compound, and

(b) Division 2, comprising—

(i) such explosives as—

Horsley's original blasting powder,	Hochstadter's blasting charges,
Erhardt's powder,	Reichen's blasting charges,
Revelcy's powder,	Teutonite, and

Chlorated gun-cotton, and

(ii) any chlorate-mixture, as hereinbefore defined, which is not comprised in Division 1

7 (1) The expression " fulminate ", as used in these rules, means any chemical compound or mechanical mixture, whether included in any of the foregoing definitions or not, which, from its great susceptibility to detonation, is suitable for employment in percussion caps or any other appliance for developing detonation, or which, from its extreme sensibility to explosion and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes), is especially dangerous

Definition and sub division of " fulminate " (class 5)

(2) Fulminate shall, for the purposes of these rules, be sub-divided as follows, namely

(a) Division 1, comprising such compounds as the fulminates of silver and of mercury, and preparations of those substances, such as are used in percussion-caps, and any preparation consisting of a mixture of a chlorate with phosphorus, or certain descriptions of phosphorus compounds, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with sulphuret, with or without carbonaceous matter, and

(b) Division 2, comprising such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazobenzol, and the nitrate of diazobenzol

8 (1) The expression " ammunition ", as used in these rules, means any explosive included in any of the foregoing definitions, when the same is enclosed in any case or contrivance, or is otherwise adapted or prepared, so as to form—

Definition of "ammunition" "percussion cap" "detonator" "safety fuze" and "safety cartridge," and sub division of ammunition (class 6)

(a) a cartridge or charge for small arms, cannon or any other weapon, or for blasting, or

(b) a safety or other fuze for blasting or for shells, or

(c) a tube for firing explosives, or

(d) a percussion-cap, a detonator, a fog-signal, a shell, a torpedo, a war-rocket, or any other contrivance other than a firework

(2) The expression " percussion-cap ", as used in these rules, does not include a detonator

(3) The expression " detonator ", as used in these rules, means a capsule or case which is of such strength and construction, and contains fulminate in such quantity, that the explosion of one capsule or case would communicate the explosion to other like capsules or cases.

(4) The expression "safety fuze", as used in these rules, means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze would not communicate laterally with other like fuzes

(5) The expression "safety cartridge", as used in these rules,—

(i) means a cartridge for small arms, the case of which can be extracted from the small arm after firing, and which is so closed as to prevent any explosion in one cartridge being communicated to other cartridges; and

(ii) includes a rifle-calibre machine-gun cartridge, if it is as described in clause (i), whether it is for use with a machine-gun having chambers identical with those of rifles or with a machine gun having special chambers

Provided that the diameter of the cartridge in either case (i) or case (ii) does not exceed one inch

(6) Ammunition shall, for the purposes of these rules, be sub-divided as follows, namely

(a) Division 1, comprising exclusively—

Safety cartridges,

Safety fuzes for blasting,

Railway fog-signals, and

Percussion-caps, and

(b) Division 2, comprising any ammunition, as hereinbefore defined, which does not contain its own means of ignition and is not included in Division 1, such as—

Cartridges for small-arms, other than safety cartridges,

Cartridges and charges for cannon, shells, mines, blasting or other like purposes,

Shells and torpedoes containing any explosive,

Fuzes for blasting, other than safety fuzes,

Fuzes for shells,

Tubes for firing explosives, and

War-rockets,

which do not contain their own means of ignition, and

(c) Division 3, comprising any ammunition, as hereinbefore defined, which contains its own means of ignition and is not included in Division 1, such as—

Detonators,

Cartridges for small-arms, which are not safety cartridges,

Fuzes for blasting, which are not safety fuzes,

Fuzes for shells, and

Tubes for firing explosives,

containing their own means of ignition.

Explanation—The expression "ammunition containing its own means of ignition" means ammunition having an arrangement, whether attached to or forming part of the ammunition, which is adapted to explode or fire the ammunition by friction or percussion

9 Fireworks shall, for the purposes of these rules, be sub-divided as follows, namely: Sub division of "firework" (class 7

(1) Division 1, comprising firework compositions, that is to say,—

(a) any chemical compound or mechanically mixed preparation of an explosive or inflammable nature, which is used for the purpose of making manufactured fireworks, and is not included in any of the foregoing definitions,

(b) any star, and

(c) (except as declared in the proviso to this rule) any coloured fire composition, and

(2) Division 2, comprising manufactured fireworks, that is to say, any explosive of class 1, 2, 3, 4, 5 or 6 and any firework composition, when such explosive or composition is enclosed in any case or contrivance, or is otherwise manufactured so as to form a squib, cracker, toy cap or amorce, serpent, rocket (other than a war-rocket), maroon, lance, wheel, Chinese fire, Roman candle, or other article specially adapted for the production of pyrotechnic effects or pyrotechnic signals or sound signals

Provided that a substantially constructed and hermetically closed metal case containing not more than one pound of coloured fire composition of such a nature as not to be liable to spontaneous ignition shall be deemed to be a "manufactured firework and not a firework composition"

Licenses when required

10 (1) An explosive shall not be manufactured except under, and in accordance with the conditions of, a license granted under these rules for such manufacture License when required for manufacture

(2) Provided that clause (1) of this rule shall not apply—

(a) to the making of a small quantity of an explosive for the purpose of chemical experiment and not for practical use or for sale, or

(b) to the filling for private use, and not for sale, of any safety cartridges to the amount allowed by these rules to be possessed for private use, or

(c) in the case of any person who holds a license under these rules to possess an explosive, and who, in connection with his magazine or licensed premises, fills with the said explosive, for sale or otherwise, catridges for small-arms, or

(d) in the case of any person who holds a license under these rules to possess an explosive, and who, in connection with his magazine or licensed premises, by filling cartridges, making charges, or drying, sifting, fitting or otherwise, adapts or prepares the said explosive for use exclusively in his mine or quarry or in some excavation or work carried on by him or under his control

11. (1) An explosive shall not be possessed except under and in accordance with the conditions of a license granted under these rules for such possession License when required for possession

(2) Provided that clause (1) of this rule shall not apply to the possession—

(a) of any explosive by a carrier or other person for the purpose of transport, when the same is being kept or transported in accordance with rule made under the Indian Explosives Act, 1884 (IV of 1884), and for the time being in force for regulating the transport of such explosive, or

(b) of any explosive on board any ship in pursuance of the Merchant Shipping Acts for the time being in force, or of any order or regulation for the time being in force thereunder, or

(c) by any person who is lawfully entitled under the Indian Arms Act, 1878 (XI of 1878), or the rules for the time being in force thereunder, to possess any explosive coming under the head of ammunition as defined in that Act, of such explosives in such quantities as may be prescribed by the said Act or rules, or, when no quantities are so prescribed, in reasonable quantities for his own private use, or

(d) by any person, of fireworks in any quantity not exceeding two hundred pounds,—

when the same are obtained and intended for immediate use and not for sale, and are possessed by such person for a period not exceeding fourteen days, and are kept in a substantial receptacle which is exclusively appropriated to the keeping of explosives and is closed and secured so as to prevent unauthorised persons from having access to the explosives, and

(if such fireworks be kept in a municipality in any quantity exceeding fifty pounds) when they are covered by a permit issued by a Magistrate of the first class or a Police-officer not below the rank of Assistant District Superintendent of Police

(3) Provided also that clause (1) of this rule shall not apply to the possession by any person, for his private use and not for sale, of—

(i) gunpowder in any quantity not exceeding thirty pounds, or

(ii) safety cartridges made with gunpowder and containing in all not more than one hundred and fifty pounds of gunpowder, or

(iii) cartridges (non-safety) for small-arms, made with gunpowder and containing in all not more than five pounds of gunpowder, or

(iv) cartridges for cannon or blasting, made with gunpowder and not containing their own means of ignition, and containing in all not more than thirty pounds of gunpowder; or

(v) cartridges for small-arms, made with small-arm nitro-compound and containing in all not more than ten pounds of small-arm nitro compound, or

(vi) small-arm nitro-compound in any quantity not exceeding ten pounds, or

(vii) percussion-caps or safety fuzes for blasting, or

(viii) railway fog-signals, when kept by a Railway company for use on their Railway, or

(ix) any other explosives in any quantity not exceeding ten pounds (whether or not contained in cartridges), or, in the case of detonators, in any quantity not exceeding one hundred in number, provided that the possession of the explosives is covered by a permit issued by a Magistrate of the first class or a Police officer not below the rank of Assistant District Superintendent of Police

(4) The quantity of any kind of explosive kept by any person for his private use under clause (3) without a licence shall be in substitution for the like quantity of any other kind of explosive (whether gunpowder or not) which might otherwise be so kept by him, and the quantity of such other kind of explosive shall be reduced accordingly provided that, if the explosive so kept is in any other form than that of cartridges for small arms, the explosive of which the quantity is so reduced shall be some explosive other than safety cartridges made with gunpowder

(5) Notwithstanding any thing contained in clause (3) or clause (4) of this rule, clause (1) shall apply to the possession for private use of explosives of the 5th (fulminate) class in any quantity.

Saving of notifications under section 6 of the Explosives Act, 1884

12 Nothing in these rules shall be deemed to authorise the manufacture or possession of any explosive in contravention of any prohibition notified under section 6 of the Indian Explosives Act, 1884 (IV of 1884), and for the time being in force.

13 (1) An explosive shall not be sold except under, and in accordance with the conditions of, a license granted under these rules for such sale

License when required for sale

(2) Provided that clause (1) of this rule shall not apply to the sale by any person of an explosive, which he is lawfully entitled to possess for his own private use, to any person who is lawfully entitled to possess the same

Grant of licenses

14 (1) Licenses to manufacture, possess and sell or to possess and sell, or to possess,—

Grant of licenses for manufacture, possession and sale in certain cases.

(a) an explosive of the 1st (gunpowder) class, or
(b) small-arm nitro compound belonging to the 3rd class, or
(c) an explosive of the 1st division of the 6th (ammunition) class, or
(d) an explosive of the 7th (firework) class,

may be granted in a Presidency town or its suburbs by the Commissioner of Police, and elsewhere by the District Magistrate

(2) A license granted under this rule shall not entitle the licensee to possess at the same time more than—

(i) two hundred pounds of gunpowder or small-arm nitro-compound, and five hundred pounds of explosive contained in ammunition of the 1st division of the 6th (ammunition) class, or
(ii) two hundred pounds of fireworks, or
(iii) sixty pounds of explosives (including gunpowder, small-arm nitro-compound, and fireworks), and five hundred pounds of explosives contained in ammunition of 1st division of the 6th (ammunition) class, or
(iv) any such less quantity of any of the said explosives as the licensing officer may think fit to specify in the license

(3) Every such license shall specify the place in which alone the explosives referred to in it may be kept, and such place must be approved by the licensing authority

(4) Notwithstanding anything contained in the foregoing clauses of this rule, any Mamlatdar in the Presidency of Bombay who is specially authorized by the District Magistrate in this behalf may grant licenses entitling *bonâ fide* agriculturists residing within the limits of the taluk under the charge of such Mamlatdar to possess at the same time not more than one hundred pounds of gunpowder and not more than ten safety fuses for use with the same

(5) Every license granted under this rule shall be in Form A, Form B, Form C, Form D, or Form E, in the Schedule hereto annexed, as the case may be, and shall contain the conditions prescribed therein

(6) The expression "small-arm nitro compound", as used in this rule, means a nitro-compound adapted and intended exclusively for use in cartridges for small-arms

15 (1) Licenses to manufacture explosives in cases not provided for by rule 14 may be granted by the Governor General in Council

Grant of licenses for manufacture in cases not provided for by rule 14.

(2) Every such license shall be in such form and shall contain such conditions as may be prescribed by the Governor General in Council

Provided that the conditions so prescribed in the case of the manufacture of any explosive in any quantity shall comprise all the conditions prescribed in these rules and the Forms hereto annexed in the case of the possession of such explosive in such quantity

16 (1) Licenses for the possession, at such places as may be approved by the licensing officer, of explosives other than those specified in rule 14 may, if the explosive is not one of the 5th (fulminate) class, and if the quantity to be possessed at the same time does not exceed sixty pounds, be granted in a Presidency-town or its suburbs by the Commissioner of Police, and elsewhere by the District Magistrate

Grant of licenses for possession in certain cases not provided for by rule 14

(*2*) Every such license shall be in Form F in the Schedule hereto annexed, and shall contain the conditions prescribed therein

Grant of licenses for possession in, and sale from, a magazine in certain other cases.

17 (*1*) Licenses for the possession of explosives in, and the sale of explosives from, a magazine in cases not provided for by rules 14 and 16, may, if the explosive is not one of the 5th (fulminate) class, be granted by the Local Government, or by any officer authorized by the Local Government in this behalf.

(*2*) An applicant for such a license must submit to the District Magistrate, or, in a Presidency-town or any of its suburbs, to the Commissioner of Police, an application in Form G in the Schedule hereto annexed, and shall comply with the conditions embodied therein.

(*3*) Upon receipt of the said application, the District Magistrate or Commissioner of Police, as the case may be, shall forthwith cause notice to be published of the application and fix a day on which will be heard any persons who object to the establishment of a magazine on the proposed site and who have, not less than seven clear days before the day of hearing, sent to the said District Magistrate or Commissioner of Police, and to the applicant, notice of their intention to appear and object with their name, address and calling, and a short statement of the grounds of their objection

(*4*) The day of hearing to be fixed under clause (*3*) shall be a day following soon after the expiration of a period of one month from the publication and service of the notices prescribed by this rule

(*5*) Where the site of the proposed magazine lies within, or within one mile of the limits of the jurisdiction of any Municipal Authority or Port Authority, the applicant shall prepare, for service on such Authority, a notice of the application and of the said day of hearing

(*6*) The notice by the District Magistrate or Commissioner of Police under clause (*3*) shall be published, and the notice under clause (*5*) shall be served, at the cost of the applicant, by the District Magistrate or Commissioner of Police, not less than one month before the said day of hearing

(*7*) On consideration of the application, and on making such inquiry as he may deem necessary, the District Magistrate or Commissioner of Police may dissent altogether from the establishment of the magazine on the proposed site, or may assent thereto, either absolutely, or on any conditions requiring additional restrictions or precautions.

(*8*) On the completion of the inquiry, the District Magistrate or Commissioner of Police shall forward the application and draft license with his recommendation to the Chief Inspector of Explosives, who shall forward to the applicant a statement in Form H in the Schedule hereto annexed, showing the distances which should, in his opinion, be kept clear round the magazine. The table of distances which will ordinarily be followed is that annexed to these rules.

(*9*) The said Form H shall be returned, with the third column duly filled in, by the applicant to the Chief Inspector of Explosives, who shall submit it to the licensing authority constituted by sub clause (*1*) of this rule, with his recommendations, and with the draft license and a statement in Form I showing the distances which, after considering any representation made by the applicant when returning Form H to him, he considers should be kept clear round the magazine

(*10*) The licensing authority may thereupon grant the license as applied for, or with such modifications or restrictions as may be deemed proper, or may reject the application

(*11*) A copy of each license granted shall be forwarded to the Chief Inspector of Explosives, and the original license shall be forwarded to the District Magistrate or to the Commissioner of Police, as the case may be, if the license has not been granted by him.

(*12*) The District Magistrate or Commissioner of Police, when satisfied that the magazine is sufficiently completed according to the license to justify the use thereof shall confirm the license, and unless and until so confirmed the license shall not come into force.

(13) If the District Magistrate or Commissioner of Police decides not to confirm any license, he shall forthwith inform the Chief Inspector of Explosives.

(*14*) Every license granted under this rule shall be in Form J in the Schedule hereto annexed, and shall contain the conditions prescribed therein

18 (*1*) With the previous sanction of the Governor General in Council, the Local Government may, in cases of urgency, and for any period not exceeding six months, grant a license for the possession of explosives under rule 17 in a floating magazine

Grant of licenses for possession in a floating magazine.

(*2*) Notwithstanding anything contained in clause (*14*) of rule 17 such licenses shall be in Form K in the Schedule hereto annexed, and shall contain the conditions and restrictions prescribed therein and such further conditions and restrictions (if any) as the Local Government may in any case direct

19 Licenses for the possession of explosives of the 5th (fulminate) class may be granted by the Governor General in Council in such form, and subject to such conditions, as he may in each case prescribe

Grant of licenses for possession of fulminates

20 (*1*) Licenses for the sale of explosives in cases not provided for by rules 14 and 17 may be granted, in a Presidency-town or its suburbs by the Commissioner of Police, and elsewhere by the District Magistrate, to any person licensed to possess the same

Grant of licenses for sale in cases not provided for by rules 14 and 17

(*2*) Every such license shall be in Form L in the Schedule hereto annexed, and shall contain the conditions prescribed therein

Duration of licenses

21. All licenses granted under any of these rules except rule 18 shall expire on the 31st December of the year for which they are granted

Duration of licenses

Renewal of licenses

22 The Local Government may, from time to time, renew, on the same or on altered conditions, any license granted by the Governor General in Council under rule 15 for the manufacture of explosives

Renewal of licenses granted under rule 15

Provided as follows

(*1*) no such renewal shall admit of the manufacture of any explosive other than that specified in the original license,

(*2*) every such renewal shall first be approved by an Inspector of Explosives, and

(*3*) every such renewal shall be for a period not exceeding one year

23 (*1*) Any licensee who desires the renewal of a license granted under rule 17 must, before the expiration of the license, submit the license to the Chief Inspector of Explosives with a written application stating the quantity and description of explosives for the storage of which he desires the license to be renewed

Renewal of licenses granted under rule 17

(*2*) On receipt of such application the Chief Inspector of Explosives shall send to the applicant a statement in Form H in the Schedule hereto annexed, showing the distances which should, in his opinion, be kept clear round the magazine

(*3*) The procedure prescribed in clauses (*9*) to (*13*) of rule 17 shall then be followed, so far as it is applicable

24 Any license granted under any of these rules other than rule 15 or rule 17 may, unless the circumstances have so changed that the grant of a new license either would not be authorized under the Indian Explosives Act, 1884 (IV of 1884), and these rules, or is deemed objectionable by the licensing authority, be renewed on application made previous to its expiration

Renewal of other licenses

Duplicate licenses

25 When a license granted under these rules is lost or accidentally destroyed, a duplicate may be granted to the licensee

Grant of duplicate licenses

Temporary licenses

Disposal of stock and grant of temporary license on expiration or forfeiture of license

26 (*1*) A person licensed to manufacture, possess or sell any explosives shall, on the expiration or forfeiture of his license, forthwith give notice to the District Magistrate or the Commissioner of Police, as the case may be, of the quantity of such explosives then in his possession, and shall comply with any directions which the said Magistrate or Commissioner may think fit to give in regard to the possession or transport of the same

(*2*) On receiving a notice under clause (*1*) of this rule, the said Magistrate or Commissioner may grant, for a term not exceeding three months, a temporary license for the possession or sale of the actual stock of explosives which is held at the time of the issue of such license

Fees for licenses

Amount of fees

27 The following fees shall be charged for licenses granted under these rules, namely

PART IV.

Bills of the Bengal Council.

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT

THE following Bill was introduced in the Council of the Lieutenant-Governor of Bengal on the 8th July, 1905, and is hereby published for information, together with the Statement of Objects and Reasons —

THE BENGAL DISORDERLY HOUSES BILL, 1905.

A

BILL

To provide for the discontinuance of brothels and disorderly houses in certain localities in Bengal

WHEREAS it is expedient to make provision for the discontinuance of brothels and disorderly houses in certain localities in Bengal, It is hereby enacted as follows —

Short title and extent.

1 (*1*) This Act may be called the Bengal Disorderly Houses Act, 1905,

(*2*) It applies to all Municipalities constituted under the Bengal Municipal Act, 1884, and

Ben Act III of 1884

(*3*) The Lieutenant-Governor may, by notification in the Calcutta Gazette, extend it to any specified local area not being a Municipality

Power to direct discontinuance of use of house as a brothel or by disorderly persons.

[Cf Act XVI of 1903, s 167 Act XX of 1891, s 204]

2 (*1*) When any Magistrate of the first class receives information—

(*a*) that any house in proximity to any educational institution or to any boarding-house connected with an educational institution is used as a brothel, or is used by disorderly persons of any description, or

(*b*) that any house is used as aforesaid to the annoyance of respectable inhabitants of the vicinity, or

(*c*) that any house in the immediate neighbourhood of a cantonment is used as a brothel,

he may summon the owner, tenant, manager or occupier of the house to appear before him, and, if satisfied that the house is used

as described in clause (*a*), clause (*b*) or clause (*c*), as the case may be, may, by written order, direct such owner, tenant, manager or occupier to discontinue such use

Provided that action under this sub-section shall be taken only—

(*i*) with the sanction or by the order of the District Magistrate, or

(*ii*) on the complaint of three or more persons resident in the immediate vicinity of the house to which the complaint refers

(*2*) If any person who is directed, by an order made by a Magistrate under sub-section (*1*), to discontinue the use as aforesaid of any house, fails to obey such direction within a period of five days from the date of the order, the Magistrate may impose on him a fine which may extend to twenty-five rupees for every day after the expiration of that period during which the house is so used

---

STATEMENT OF OBJECTS AND REASONS

THE object of this Bill is to empower Magistrates of the first class to direct the discontinuance of the use of houses (*1*) as brothels, or by disorderly persons, in proximity to any educational institution or to the annoyance of respectable residents, or (*2*) as brothels, in the immediate neighbourhood of a cantonment In order to prevent vexatious prosecutions, it is declared that action may be taken only with the sanction or by the order of the District Magistrate, or on the complaint of three or more residents of the neighbourhood. The Act will apply in the first instance to all provincial municipalities, but power is taken to extend it, as occasion may require, to non-municipal areas The draft follows in the main section 167 of the Central Provinces Municipal Act, 1903 (XVI of 1903), and section 204 of the Punjab Municipal Act, 1891 (XX of 1891)

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad respectively

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books United Provinces of Agra and Oudh, Allahabad

[FEE RUPEES IN STAMPS.]

License to manufacture, possess and sell gunpowder, or small-arm nitro-compound, or an explosive of the 1st Division of the 6th (Ammunition) Class, or (elsewhere than in villages or other rural areas) an explosive of the 7th (Firework) Class

[Granted in a Presidency town or its suburbs by the Commissioner of Police, and elsewhere by the District Magistrate]

Name, etc, of licensee and place of residence	Place of business, factory or shop	Maximum quantity of explosive to be possessed at any one time	Description and quantity of explosive to be manufactured during the year	Description and quantity of explosive to be possessed and sold during the year	Date on which license expires
					The 31st December 190

_____ *Town or District,* } (Seal) (Signature)

_____ *190* } _____ *of* _____

Conditions.

1 This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder

2 The licensee shall keep records and accounts of all explosives manufactured, of all stock in hand, and of all sales, in such form as the Local Government may from time to time direct

3 The licensee shall exhibit his stock and his books and records of manufacture and sales to any Magistrate or to any Police-officer not below the rank of Inspector, whenever such Magistrate or officer may call upon him so to do.

4. (*1*) The explosive shall be manufactured in a tent or lightly constructed building exclusively appropriated for the purpose and separated from any dwelling house, highway, street, public thoroughfare or public place by the distance—

(*a*) in the case of gunpowder or small arm nitro-compound, of one hundred yards, or

(*b*) in the case of an explosive of the 1st division of the 6th (ammunition) class, or of the 7th (firework) class, of fifty yards

(*2*) In the case of filling cartridges for small arms the operation may, if preferred, be carried out in the upper room of a building Provided that no more than five pounds of explosive (except such as may be contained in safety cartridges) shall be in the room where the operation is being carried on.

(*3*) In all other cases the manufacture shall be carried on in a one-storeyed building.

5 The number of persons employed in manufacture in any one building or room shall not exceed six, and only persons actually manufacturing or superintending manufacture shall be allowed inside the place of manufacture.

6 No iron or steel implements shall be used in manufacture Only copper, gun-metal or wooden tools are permissible

7 All explosives, as manufactured, shall be removed without delay to a safe place of storage, and no explosives shall be allowed to accumulate in the place of manufacture

8. Manufacture shall only be carried on between sunrise and sunset.

9 No smoking or lights shall be allowed in or near a room where explosives are being manufactured

10 All sales of explosives under this license must be effected on the premises shown on the face of the license

11 An explosive shall not be sold to any child apparently under the age of fourteen years, nor shall any child under that age be employed in manufacture

12 (1) The explosives possessed by the licensee shall be kept in one or other or both of the following modes

Mode A, that is to say, in a building or excavation, which is detached from any dwelling-house, and is separated by the distances prescribed in condition No 4 from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without, and is exclusively appropriated to keeping explosives, and

(a) such a building must be substantially constructed of brick, stone or concrete, or must be a securely constructed fireproof safe, and

(b) such an excavation must be formed in solid rock, or earth, or in mine refuse not liable to ignition, and must not open into, from or out of any mine, quarry, tunnel or underground place which is in use for the carrying on of any work or for the employment of any person

Mode B, that is to say, in a substantial receptacle (whether or not a fireproof safe) which is closed and secured so as to prevent unauthorised persons from having access thereto, and is exclusively appropriated to the keeping of explosives, and is placed inside a dwelling house, or inside a building which is not itself qualified for the keeping of explosives in Mode A

(2) A fireproof safe shall not be used for the keeping of any explosive other than gunpowder or small-arm nitro compound and cartridges of the 2nd division of the 6th (ammunition) class (not containing their own means of ignition) and made with gunpowder or small-arm nitro compound, such as cartridges or charges for cannon or blasting purposes

13 The maximum quantity of explosives allowed to be kept at the same time shall be the following

(1) if the only explosive kept be one or more of the following, namely

(a) gunpowder,

(b) small-arm nitro-compound, or

(c) ammunition of the 1st division of the 6th class,

the maximum shall be—

	In Mode A lbs	In Mode B lbs
gunpowder and small-arm nitro-compound, in all	Two hundred.	Fifty.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class	Five hundred	Five hundred.

(2) if the only explosive kept be fireworks the maximum shall be—

fire works	Two hundred.	Fifty.

(3) in any other case the maximum shall be—

	In Mode A	In Mode B
	lbs.	lbs
mixed explosives, including gunpowder, small-arm nitro-compound and fireworks, etc., in all . ..	Sixty	Fifteen
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class . .	Five hundred	Five hundred

Provided that in each of the three cases above-mentioned the aggregate quantity kept on the premises in Mode A and Mode B together may not in any case exceed the maximum quantity which may be kept in Mode A

14 With respect to a building or excavation used in Mode A, and a receptacle used in Mode B,—

the interior thereof, and the shelves and fittings therein, shall be so constructed, or so lined and covered, as to prevent the exposure of any iron or steel, or the detaching of any grit, iron or steel or similar substance, in such manner as to come into contact with the explosive,

and such interior, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean,

and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom,

and all articles or substances of an explosive or highly inflammable nature, and all lights, shall be kept at a safe distance from the explosive, and from any room or part of a building, excavation or receptacle containing the same,

and no person entering any such room or part of a building or any such excavation, or any such receptacle, shall have any iron or steel in his possession, or attached to or on his boots or shoes

Provided that this condition, so far as it relates to the exposure of iron or steel or similar substances, shall not be obligatory in the case where no explosive is kept other than ammunition of the 1st division of the 6th (ammunition) class

15 All explosives exceeding five pounds in quantity of the 1st division of the 6th (ammunition) class or of the 2nd division of the 7th (firework) class, and all other explosives exceeding one pound in quantity, shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosives from escaping,

and, when publicly exposed for sale or when sold, the outermost receptacle containing such explosives shall have affixed the name of the explosives in conspicuous characters by means of a brand or securely-attached label or other mark

Provided that two samples of each kind of firework may be exposed for sale without complying with the foregoing clauses of this condition, if such samples be placed in such a position that no light or fire is, or is likely to be, brought near them

16 (1) Each description of explosive which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other

(2) Provided as follows

(a) Gunpowder, small-arm nitro-compound and safety fuzes belonging to the 1st division of class 6 (ammunition) may be kept with each other without any intervening partition or space,

(*b*) the various explosives of the 1st division of class 6 (ammunition) may be kept with each other without any intervening partition or space,

(*c*) the various explosives of class 7 (firework) may be kept with each other without any intervening partition or space

17 *The licensee shall affix to his shop or place of business a signboard as required by rule 11 of the rules framed under the Indian Arms Act (XI of 1878), and shall post up in his shop a copy of section 28 of that Act

18. *The licensee shall at the time of purchase endorse upon the license of every purchaser holding a license under Form VIII or IX of the forms prescribed under the Indian Arms Act (XI of 1878) the following particulars, namely

(*a*) the name and address of the person who takes delivery of the articles sold,

(*b*) the nature and amount of articles sold, and

(*c*) the date of sale,

and shall append his signature to the endorsement

* These conditions are to be added only when the authority granting this license directs, in pursuance of rule 31, by an order written on the license, that this license shall have the effect of a like license granted under the Indian Arms Act, 1878 (XI of 1878)

Conditions

1 This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder

2 The licensee shall keep records and accounts of all explosives in stock and of all sales, in such form as the Local Government may from time to time direct

3 The licensee shall exhibit his stock and his books and records of sales to any Magistrate or to any Police officer not below the rank of Inspector, whenever such Magistrate or officer may call upon him so to do

4 All sales of explosives under this license must be effected upon the premises shown on the face of the license

5. An explosive shall not be sold to any child apparently under the age of fourteen years

6 (1) The explosives possessed by the licensee shall be kept in one or other or both of the following modes —

Mode A, that is to say, in a building or excavation, which is detached from any dwelling-house, and is separated by the prescribed distances,* from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without, and is exclusively appropriated to keeping explosives, and

(*a*) such a building must be substantially constructed of brick, stone or concrete, or must be a securely constructed fireproof safe, and,

(*b*) such an excavation must be formed in solid rock or earth, or in mine refuse not liable to ignition, and must not open into, from or out of any mine, quarry, tunnel or under-ground place which is in use for the carrying on of any work or for the employment of any person

* In the case of gunpowder or small arm nitro-compound, one hundred yards
In the case of an explosive of the 1st division of the 6th (ammunition) class or of the 7th (firework) class, fifty yards.

Mode B, that is to say, in a substantial receptacle (whether or not a fireproof safe) which is closed and secured so as to prevent unauthorised persons from having access thereto, and is exclusively appropriated to the keeping of explosives, and is placed inside a dwelling-house, or inside a building which is not itself qualified for the keeping of explosives in Mode A

(2) A fireproof safe shall not be used for the keeping of any explosive other than gunpowder or small-arm nitro-compound and cartridges of the 2nd division of the 6th (ammunition) class (not containing their own means of ignition) and made with gunpowder or small-arm nitro-compound, such as cartridges or charges for cannon or blasting purposes.

7 The maximum quantity of explosives allowed to be kept at the same time shall be the following

(1) if the only explosive kept be one or more of the following, namely

(a) gunpowder,

(b) small-arm nitro-compound, or

(c) ammunition of the 1st division of the 6th class,

the maximum shall be—

	In Mode A lbs	In Mode B lbs
gunpowder and small-arm nitro-compound in all	Two hundred	Fifty
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class .	Five hundred	Five hundred

(2) if the only explosive kept be fireworks, the maximum shall be—

fire-works . .	Two hundred	Fifty

(3) in any other case the maximum shall be—

mixed explosives, including gunpowder, small-arm nitro compound and fireworks, etc, in all	Sixty	Fifteen
and, in addition, of explosives, contained in ammunition of the 1st division of the 6th class	Five hundred	Five hundred

Provided that in each of the three cases above-mentioned the aggregate quantity kept on the premises in Mode A and Mode B together may not in any case exceed the maximum quantity which may be kept in Mode A

8 With respect to a building or excavation used in Mode A, and a receptacle used in Mode B,

the interior thereof, and the shelves and fittings therein, shall be so constructed or so lined and covered as to prevent the exposure of any iron or steel, or the detaching of any grit, iron or steel or similar substance, in such manner as to come into contact with the explosive,

and such interior, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean,

and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom,

and all articles or substances of an explosive or highly inflammable nature, and all lights shall be kept at a safe distance from the explosive, and from any room or part of a building, excavation, or receptacle containing the same,

and no person entering any such room or part of a building, or any such excavation, or any such receptacle, shall have any iron or steel in his possession, or attached to or on his boots or shoes

Provided that this condition, so far as it relates to the exposure of iron or steel or similar substances, shall not be obligatory in the case where no explosive is kept other than ammunition of the 1st division of the 6th class

9. All explosives exceeding five pounds in quantity of the 1st division of the 6th (ammunition) class or of the 2nd division of the 7th (firework) class and all other explosives exceeding one pound in quantity shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosives from escaping,

and, when publicly exposed for sale or sold, the outermost receptacle containing such explosives shall have affixed the name of the explosives in conspicuous characters by means of a brand or securely-attached label or other mark

Provided that two samples of each kind of fire-work may be exposed for sale without complying with the foregoing clauses of this Condition, if such samples be placed in such a position that no light or fire is, or is likely to be, brought near them.

10 (1) Each description of explosive which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other ·

(2) Provided as follows

(a) Gunpowder, small-arm nitro-compound and safety fuzes belonging to the 1st division of class 6 (ammunition), may be kept with each other without any intervening partition or space,

(b) the various explosives of the 1st division of class 6 (ammunition) may be kept with each other without any intervening partition or space,

(c) the various explosives of class 7 (firework) may be kept with each other without any intervening partition or space

11 *The licensee shall affix to his shop or place of business a signboard as required by rule 11 of the rules framed under the Indian Arms Act (XI of 1878) and shall post up in his shop a copy of section 28 of that Act

12. *The licensee shall at the time of purchase endorse upon the license of every purchaser holding a license under Form VIII or IX of the forms prescribed under the Indian Arms Act (XI of 1878) the following particulars

(a) the name and address of the person who takes delivery of the articles sold,

(b) the nature and amount of the articles sold; and

(c) the date of sale,

and shall append his signature to the endorsement.

* These conditions are to be added only when the authority granting this license directs, in pursuance of rule 31 by an order written on the license, that this license shall have the effect of a like license granted under the Indian Arms Act, 1878 (XI of 1878)

Conditions

This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder

2 The licensee shall keep records and accounts of all explosives in stock, and of all sales in such form as the Local Government may from time to time direct

3 There shall not be at the same time in the magazine any quantity of explosives exceeding the quantity specified in the license

4. The magazine shall be used only for the keeping of the explosives specified in the license, and of receptacles for, or tools or implements for work connected with, the keeping of such explosives

5 The interior of the magazine, and the benches, shelves and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel, and the detaching of any grit, iron, steel or similar substances in such manner as to come into contact with the explosives, and such interior, benches, shelves and fittings, shall, so far as is reasonably practicable, be kept free from grit and otherwise clean, and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom

Provided that so much of this condition as relates to precautions against the exposure of any iron or steel and the detaching of any grit, iron, steel or similar substances shall not be obligatory in a building in which no explosive other than an explosive of the first division of the 6th (ammunition) class is kept.

6 The magazine shall have attached thereto a sufficient lightning conductor, which shall be tested at least once during the currency of the license

7 Before repairs are done to any room or magazine or part thereof, the same shall, as far as is practicable, be cleaned by the removal of all explosives or mixed ingredients thereof, and the thorough washing out of such room, magazine or

part, and after such cleaning these conditions shall cease to apply to such room, or part of the magazine until any explosive is again taken into it

Provided that this condition shall not be obligatory in a magazine in which no explosive other than an explosive of the first division of the 6th (ammunition) class is kept.

8 Except after such cleaning, all tools and implements used in, or in making any repairs to, any part of the magazine shall be made only of wood, copper or brass or some soft metal or material, or shall be covered with some safe and suitable material

Provided that this condition shall not be obligatory in a magazine in which no explosive other than an explosive of the 1st division of the 6th (ammunition) class is kept.

9 Due provision shall be made, by the use of suitable working clothes without pockets, or of suitable shoes, or by searching or otherwise, or by some such means, for preventing the introduction into the magazine of fire, lucifer matches or any substance or article likely to cause explosion or fire, or of any grit, iron or steel, but this rule shall not prevent the introduction of an artificial light of such construction, position or character as not to cause any danger of fire or explosion

Provided that so much of this condition as applies to the exclusion of grit, iron or steel shall not be obligatory in a building in which no explosive other than an explosive of the first division of the 6th (ammunition) class is kept

10. No person shall smoke in any part of the magazine

11 No person under the age of fourteen years shall be employed in or enter the magazine, except in the presence and under the supervision of some grown-up person and no explosive shall be sold to any such person

12 (*1*) Two or more descriptions of explosives which may lawfully be possessed in a licensed magazine may be possessed in the same magazine if they are separated from each other by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other

(*2*) Provided as follows

(*a*) the various explosives of classes 1 (gunpowder), 2 (nitrate mixture), 3 (nitro compound), and 4 (chlorate-mixture), safety fuzes belonging to the 1st division of class 6 (ammunition) and such of the various explosives of the 2nd division of class 6 (ammunition) as do not contain any exposed iron or steel, may be kept with each other without any intervening partition or space,

(*b*) the various explosives of the 1st division of class 6 (ammunition) may be kept with each other without any intervening partition or space,

(*c*) such of the various explosives of the 2nd division of class 6 (ammunition) as contain any exposed iron or steel may be kept with each other without any intervening partition or space,

(*d*) the various explosives of the 3rd division of class 6 (ammunition) may be kept with each other without any intervening partition or space,

(*e*) the various explosives of class 7 (firework) may be kept with each other without any intervening partition or space,

(*3*) Save as aforesaid, two or more descriptions of explosives shall not be kept in the same magazine

13 The licensee, and every person employed in or about the magazine, shall take all due precaution for the prevention of accidents by fire or explosion in the magazine, and for preventing unauthorized persons from having access to the

magazine or to the explosives therein, and shall abstain from any act whatever which tends to cause fire or explosion and is not reasonably necessary for the purpose of the work in such magazine

14 (*1*) Blasting gelatine or any of its kindred gelatinous nitro-compounds shall not be kept in the magazine after the expiration of three years from the date of its or their importation into British India, except with the special sanction of an Inspector of Explosives.

(*2*) When such sanction has been given, a written certificate, showing the period covered by the sanction, must be obtained from an Inspector of Explosives at each inspection, and must be kept by the licensee at the magazine.

Secretary.

Conditions.

1 This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder

2 The whole vessel, barge or craft in or on board which the explosives are stored shall be deemed to constitute the magazine

3. The magazine shall be used only for the keeping of such explosives as may be specified in the license, and of receptacles for, or tools or implements for work connected with, the keeping of such explosives

4 The interior of the magazine, and the benches, shelves and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel in such manner, and the detaching of any grit, iron, steel or similar substance in such manner, as to come into contact with the explosives in such magazine, and such interior, benches, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean

5. The magazine shall have attached thereto a sufficient lightning conductor, which shall be tested previous to the storage of explosives

6 No charcoal, whether ground or otherwise, oiled cotton, oiled rags or oiled waste, and no article whatever which is liable to spontaneous ignition, shall be taken into the magazine

7. Before repairs are done to or in any part of the magazine, it shall, so far as practicable, be cleaned by the removal of all explosives, and by a thorough washing out After being so cleaned, it shall not be deemed to be a magazine until explosives are again taken into it

8 There shall be constantly kept in the magazine, affixed in such manner as to be easily read, a copy of the license, and of any special rules that may be issued from time to time for the keeping of explosives in a floating magazine.

9. All tools and implements used in any repairs to or in any part of the magazine shall be made only of wood or copper or brass or some soft metal or material, or shall be covered with some safe and suitable material.

10 No fires, lights or lucifer matches, and no substance or article which is likely to cause explosion or fire, shall be permitted to be at any time in the magazine

11 Due provision shall be made, by the use of suitable working clothes without pockets, or of suitable shoes, or by searching or otherwise, or by some such means, for preventing the introduction into the magazine of fire, lucifer matches or any substance or article which is likely to cause explosion or fire, and for preventing the introduction of any grit, iron or steel, into any part of the magazine where it would be likely to come into contact with explosive, and in any part of the magazine in which any explosive is kept which is liable to be dangerously affected by water, due precautions shall be taken to exclude water from such part, but this condition shall not prevent the introduction of an artificial light of such construction, position, or character as not to cause any danger of fire or explosion, and so much of this condition as relates to the exclusion of grit, iron or steel shall not be obligatory in the case of a magazine in which no explosive other than explosives of the 1st division of the 6th (ammunition) class is kept.

12 No person shall smoke in any part of the magazine

13 (1) The licensee shall not employ any vessel, barge or craft to carry an explosive to or from the magazine unless the cabin, hold or other part of the vessel, barge or craft in which the explosive is or is to be carried—

(a) is constructed without any exposed iron or steel in the interior thereof,

(b) contains only explosives, and

(c) is closed or otherwise properly covered over

Provided that clause (a) shall not apply in the case of any vessel, barge or craft which carries no explosive other than explosives of the 1st division of the 6th (ammunition) class or which is specially exempted by an order of the Chief Inspector of Explosives or by an order of the Local Government endorsed on this licence

(2) The licensee shall see that the explosives to be placed on any vessel, barge or craft so employed are loaded, carried and unloaded with all due diligence and with such precautions and in such manner as will sufficiently guard against any accidental ignition

14. The licensee shall see—

(a) that no fire, unprotected light or smoking is allowed while any explosive [other than explosives of the 1st division of 6th (ammunition) class] is being received or delivered, or while the hatches or door of the magazine, or the hatches or coverings of any vessel, barge or craft alongside containing any such explosive, are open, and

(b) that no receipt or delivery of explosive is carried on, and that the hatches or door of the magazine are or is kept closed, when any vessel, barge or craft having on board a fire (other than engine-fires properly banked up) or an unprotected light is alongside a magazine containing an explosive other than explosives of the 1st division of the 6th (ammunition) class, or in its immediate vicinity

15 A person under the age of fourteen years shall not be employed in or enter the magazine, except in the presence and under the supervision of some grown-up person.

16 In the case of the magazine being approachable at low water by carriages, the words " vessel, barge, or craft," in Nos. 13 and 14 of these conditions, shall be taken to include a carriage

17. (1) Two or more descriptions of explosives, which may lawfully be possessed in a licensed magazine, may be possessed in the same magazine, if they are separated from each other by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in one compartment from extending to another compartment

(2) Provided as follows

(a) the various explosives of classes 1 (gunpowder), 2 (nitrate-mixture), 3 (nitro-compound), and 4 (chlorate-mixture), safety fuze belonging to the 1st division of class 6 (ammunition), and such of the various explosives of the 2nd division of class 6 (ammunition), as do not contain any exposed iron or steel, may be kept with each other without any intervening partition or space,

(b) the various explosives of the 1st division of class 6 (ammunition) may be kept with each other without any intervening partition or space,

(c) such of the various explosives of the 2nd division of class 6 (ammunition) as contain any exposed iron or steel, may be kept with each other without any intervening partition or space,

(d) the various explosives of the 3rd division of class 6 (ammunition) may be kept with each other without any intervening partition or space,

(e) the various explosives of class 7 (firework) may be kept with each other without any intervening partition or space

(3) Save as aforesaid, two or more descriptions of explosive shall not be kept in the same magazine

RESOLUTION ON THE ANNUAL REPORT ON THE REFORMATORY SCHOOLS AT ALIPORE AND HAZARIBAGH FOR THE YEAR 1904

GENERAL DEPARTMENT—EDUCATION

Darjeeling, the 30th June 1905

RESOLUTION No.—1178T G

READ—

The Annual Report on the Reformatory Schools at Alipore and Hazaribagh for the year 1904

The number of boys admitted to the Reformatory Schools in 1904 was 101, this being the lowest figure recorded since 1899. It is reported that the lists of admissions were, in accordance with the instructions issued by the Government of Bengal in 1901, examined by the Boards of Management with a view to ascertaining whether any of the inmates might not have been better dealt with under section 31 of the Reformatory Schools Act, 1897, or section 562 of the Code of Criminal Procedure, 1898, which provide for the discharge of youthful offenders after due admonition, or for their being set at liberty on probation or on security for good conduct being furnished by their parents or guardians. The result of this scrutiny was that 17 boys were released, as against 28 in the previous year It is noticed with satisfaction that the provisions cited above are being more freely resorted to,

for, as has been ascertained from the judicial returns for the year under review, 42 youthful offenders were dealt with under section 31 of the Act of 1897 and 365 under section 562 of the Code of 1898, the corresponding figures for 1903 having been 30 and 269, respectively.

2. The health of the boys in the Reformatories was on the whole good. The number of admissions to hospital in the Alipore institution showed a marked decrease, while the total for the two schools was 141 as against 173 in 1903 There was a distinct and satisfactory improvement in discipline, the number of punishments falling from 172 to 158, and the decrease being most marked in respect of cases in which confinement was ordered Due attention has been directed to sports and amusements, and this is especially the case at Alipore, where a bugle class has been formed and sanction was obtained for the creation of a school band.

3 The training of the boys at Alipore is mainly industrial, and that at Hazaribagh agricultural Of 148 boys who were under training in the Alipore school during the year, 138 were taught trades, while at Hazaribagh 82 out of 147 were taught agriculture. There has been during the last three years but little variation in the figures showing the occupations of the boys discharged. A considerable proportion, 69 out of 333, were untraced. Of the others, 70 out of 125, who had been taught agriculture, were found to be engaged in that occupation, in addition to 19 who had not been so trained. Only 52 out of 208 were following the trades which they had been taught, while 46 were engaged in other industries, 32 were unemployed, and 25 relapsed into crime and were reconvicted The results of the training, if tested by the working of the licensing system, are, however, not very satisfactory. There has been a marked falling off in the number of boys licensed out during 1904, as compared with the preceding year, the figures being 75 as against 114. The decrease occurred chiefly in Hazaribagh, where the question has been under consideration, and the conclusion seems to have been arrived at that the conditions are not favourable for an extension of the system An improvement is observed in the conduct of the boys licensed out from Alipore, and it appears that only 8 of these absconded from their employers, as against 19 in 1903. The partial failure of the system is attributed to the small remuneration which the boys can earn, and this again is said to be partly due to the fact that most of the boys are licensed as mill-hands, an occupation for which they have received no previous training. The Government has sanctioned the introduction of a weaving class at Alipore, and when it is opened, an improvement in this connection may be anticipated, but this has had to be postponed, as a scheme for the removal of the school to a new site is under consideration. The Lieutenant-Governor is glad to observe that boys under license are now being assisted with money during their probationary period, and that this has led to a decrease in the number of failures. An offer recently made by Messrs. Cooper, Allen and Company of Cawnpore to receive boys from the schools and train them in the manufacture of leather, or as carpenters, iron-workers, blacksmiths, and mechanics has been welcomed by the Lieutenant Governor as affording an opportunity to the boys to follow occupations which they learn at school, and it is hoped that, by means of a sensible relaxation of the licensing rules, a considerable number of boys may eventually find profitable employment and useful careers in this way

By order of the Lieutenant-Governor of Bengal,

H. W. C CARNDUFF,

Offg. Secretary to the Government of Bengal.

REPORT UNDER SECTION 41 OF BENGAL ACT I OF 1893 ON THE WAREHOUSES IN HOWRAH FOR THE YEAR ENDING 31st MARCH 1905.

No. 1286L S-G.—The 7th July 1905.—The following report is published for general information.

E. A. GAIT,
Offg Secy. to the Govt. of Bengal.

From—H T S. FORREST, Esq., Chairman of the Howrah Municipality,
To—The Magistrate of Howrah

I HAVE the honour to report that 270 warehouses were licensed in 1904-05 out of 300 registered during that year, against 267 out of 325 registered in 1903-04, the details being as follows —

Years		Jute	Cotton	Straw	Wood	Hay	Total
Registered	1903-04	34	36	53	201	1	325
	1904-05	40	39	37	183	1	300
Licensed	1903-04	28	30	36	172	1	267
	1904-05	31	32	35	171	1	270

2. The income from license-fees during the year under report amounted to Rs. 8,920, of which Rs. 219 were arrears for 1903 04, besides Rs. 418-7 actually set off this year, which were collected in 1903-04 in excess, Rs. 67-1-6 being still kept to be set off in 1905 06, against Rs. 10,938 for 1903-04, of which Rs. 534 were arrears for 1902-03. The cause of this decrease is the reductions of rates on jute from 5½ to 5 per cent, on cotton from 4 to 3 per cent., on wood from 4½ to 4 per cent., and on all others from 3¾ to 2½ per cent.

3. The demand, collection, remission and balance for 1904-05 are shown in Appendix A. The details of jute and cotton warehouses registered and of licenses granted during the year are entered in Appendix B Owing to the comparative unimportance of the 207 licenses granted for the storage of straw, wood and hay in 1904-05 against 209 in the previous year, they have not been entered in Appendix B, and it may be noted that such license-fees have only been levied under the Fire-brigade Act since July 1893, prior to which they were levied under section 261 of the Bengal Municipal Act.

4. There were 32 prosecutions in the year under review, which realized in fines Rs. 180-8 as against 44 in the previous year when Rs. 244-8 was realized.

5. The expenditure incurred in assessing and collecting license-fees amounted to Rs 938 as detailed below —

		Rs.
Salary of General Supervisor and Assessor	...	600
Ditto Inspector, including commission		228
Ditto clerk ...		60
Ditto peon	...	48
Contingencies ...	...	2
Total	...	938

6 The Fire-brigade establishment continued under the control of the Commissioner of Police, Calcutta. The Fire-brigade station in Howrah stands in a very central position north of the Municipal market, and from a wooden stage raised above it the whole town is overlooked. There were ten fires during the year, the details of which are given in Appendix C. There were also four other petty fires, at all of which the Fire-brigade attended, while they were extinguished by residents of the localities

7. The Commissioner of Police demanded Rs. 9,991 for the maintenance of the Fire brigade in 1904-05, and this amount was remitted to him during the year.

The average fall of the corresponding period for 24 years, Surveyor-General's Office	24 82

The mean pressure, temperature, etc, are deduced from eye observations

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A M of that day

o, overcast, g, gloomy, d, drizzling rain; p, passing temporary showers; ● continued rain

Proceedings of the Bengal Legislative Council.

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT

Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal assembled under the provisions of the Indian Councils Acts, 1861 and 1892.

The Council met in the Council Chamber on Saturday, the 8th July, 1905, at 11 A M.

Present

The Hon'ble SIR ANDREW FRASER, K.C S I, Lieutenant-Governor of Bengal, *presiding*

The Hon'ble MR. L. HARE, C I.E

The Hon'ble Mr K. G GUPTA

The Hon'ble MR. B L GUPTA

The Hon'ble MR P. O'KINEALY, Advocate General of Bengal

The Hon'ble MR F W. DUKE.

The Hon'ble MR R W. CARLYLE, C I E.

The Hon'ble MR. H W. C. CARNDUFF, C I E

The Hon'ble MR. E. A. GAIT

The Hon'ble BABU BHUPENDRA NATH BASU, M A, B L.

The Hon'ble MR A A APCAR.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR

The Hon'ble BABU NALIN BEHARI SIRCAR, C I E.

The Hon'ble MR. J CHAUDHURI, M.A.

The Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA, of Murshidabad

The Hon'ble RAJA BAN BEHARI KAPUR, C S I.

NEW MEMBERS.

The Hon'ble MESSRS DUKE and GAIT took their seats in Council.

THE LATE HON'BLE BABU SALIGRAM SINGH

The Hon'ble the PRESIDENT said —"Gentlemen,—It was with very great regret that I received the other day the news of the sudden death of our hon'ble colleague, Babu Saligram Singh In the kindly references which were made to the deceased gentleman in the High Court a week ago, testimony was borne by Bench and Bar alike to the high respect in which he was held as a member of the legal profession, and I shall not repeat what was said then

"Our late colleague served in this Council for two years (1897-1899) as the representative of Municipalities in the Patna Division; and he was again nominated a Member of the Council on the 15th December, 1903, as the representative of the Bihar Landholders' Association. He served on Select Committees in connection with some important measures, and took an honourable part in the work of the Council. He never spoke unnecessarily, or without having something to say that was worth hearing and likely to throw light on the subject under discussion He was an able lawyer, helpful in Select Committee work, and invariably courteous, considerate and tactful in the Council I may perhaps be permitted to add that his intimacy with me as a Member of the Council led me to appreciate very highly his broad views and wide sympathies and genial character He was honest and upright and independent, and withal desirous to render assistance to the Government and to advance the interests of the people I have frequently had to consult him in regard to important questions affecting this Province, and I have always felt that I received from him the best advice that he could give, in full view of all the interests (sometimes conflicting) which were involved in the matter under consideration at the time I specially valued the advice and assistance which he rendered—or rather I perhaps ought to say was rendering—to me in regard to legislation affecting the relations between landlords and tenants. He knew the law well, and he understood well the interests of both parties The advice which he was able to give me was therefore of great value, and I shall greatly miss his kindly and cheery fellowship in the discussions to which I am now looking forward in connection with this subject

"I am sure that I shall meet the wishes of this Council when I communicate to his bereaved family an expression of our sympathy and of the deep regret with which we have heard of his untimely death"

QUESTIONS AND ANSWERS

CALCUTTA IMPROVEMENT SCHEME.

The Hon'ble BABU BHUPENDRA NATH BASU asked —

Will the Government be pleased to state what progress has been made with the scheme for the improvement of Calcutta, and, if any legislation is necessary in connection with such scheme, when is the same to be undertaken?

The Hon'ble MR GAIT replied —

"The proposals regarding the structural improvement of Calcutta are still before the Government of India, and the Lieutenant-Governor is not in a position to make any statement regarding them"

SEPTIC TANKS

The Hon'ble BABU BHUPENDRA NATH BASU asked —

(1) Will the Government be pleased to state what action it has taken on the report of the Septic Tanks Committee?

(2) Is it not the opinion of the experts consulted by the Committee that the effluents of these tanks, though clear to the eye, are full of dangerous microbes?

(3) Has the Government taken any steps to stop the flow from the septic tanks into the river above Tolly's Nala, as recommended by the Committee?

(4) Has the Government considered that Tolly's Nala is only about two miles from the pumping station at Mullick Ghat for the supply of unfiltered water to the town, and is in close proximity to the Watgunge Pumping Station and that with the tides the contents of the septic tanks below Tolly's Nal, passing through the unfiltered water system would be dangerous to the town?

(5) Is the Government aware that there has been of late a marked increase in typhoid fever in the Northern Division of the town? Will the Government be pleased to inquire whether this has any connection with the contamination of the water-supply of Calcutta?

The Hon'ble MR GAIT replied —

"The Septic Tank Committee were unable to submit a final report They found that although the effluents of these tanks are clear to the eye and chemically fairly pure, they still contain large numbers of bacteria at the points where they are discharged into the river This contamination, however, rapidly disappears, and it was not noticeable in the immediate neighbourhood of the Pulta intake The Committee were of opinion that the biological defects of the effluents might be got rid of if they were further purified by filtration through sand. Captain Megaw, I M S, was accordingly placed on special duty to conduct experiments with a sand filter His report has just been received. The results obtained by him were not altogether satisfactory, but this was due largely to defects in the particular installation to which his sand filter was attached. The principal Medical Adviser of Government is of opinion that the experiment affords reasonable ground for anticipating that, by improving the installations, it will be possible to make the effluents harmless The great importance of the matter is admitted, and Government is considering the further steps to be taken in order to arrive at a solution of the problem Meanwhile permission will not be given to construct any new installations discharging into the Hooghly. It is not proposed at present to interfere with the existing installations As remarked by the Committee, they are a marked improvement on the old insanitary latrines, and their abolition would probably increase rather than diminish the pollution of the river.

"During the first six months of the present calendar year 37 cases of typhoid fever have been reported from the two northern districts of the city against 19 cases in the corresponding part of last year The figures in both cases are small, and the Health Officer does not connect this disease with the filtered water-supply"

THE MUHAMMADAN METHOD OF EDUCATION

The Hon'ble BABU BHUPENDRA NATH BASU said —

Considering the fact that no reference has been made to the Muhammadan Method of Education in the Senior Teachers' Manual under the new scheme, and the large number of Muhammadan students under vernacular instruction, will the Government be pleased to add a Chapter on the "Muhammadan Method" in Part I under the heading of "Introduction" in the said Manual?

The Hon'ble MR. CARNDUFF replied —

"Hitherto 'Muhammadan Method' has not been dealt with separately, apparently on the principle that the methods of teaching most subjects in the ordinary school course are the same, whether the pupils to be taught are Muhammadans or Hindus. But, in view of the special scheme for establishing model *maktabs* and improving Muhammadan Education generally, which has recently been sanctioned, an additional chapter dealing with such points as may seem to require attention will probably be included in the next edition of the Senior Teachers' Manual."

ESTABLISHMENT OF A SUB DIVISION AT GOPALGUNGE (IN FARIDPUR)

The Hon'ble BABU BHUPENDRA NATH BASU asked —

(a) Will the Government be pleased to state the progress made in establishing a sub-division at Gopalgunge, in the district of Faridpur, as proposed and sanctioned by the late Sir John Woodburn?

(b) In view of the fact that most of the villages within the jurisdiction of Gopalgunge lie very far away from the district head-quarters, and also of the absence of any means of communication between this part of the district and the head-quarter station for the greater part of the year, either by land or by water, and of the consequent prevalence of crime and the hardships and inconveniences to litigants in the villages under that thana, will the Government be pleased to consider the expediency of transferring this tract of land from Faridpur to Khulna, the head-quarters of which district is within very easy reach from the area in question?

The Hon'ble MR CARLYLE replied —

"Reports from the Commissioners of the Dacca and Presidency Divisions have just been received and are under consideration"

SUBORDINATE APPOINTMENTS IN THE BOARD OF REVENUE.

The Hon'ble BABU BHUPENDRA NATH BASU asked —

(1) Is it a fact that the Government has reserved 30 *per cent* of the subordinate appointments in the Board of Revenue for Europeans and Eurasians?

(2) Will the Government be pleased to explain the reasons which have led to the special reservation of appointments for a particular class in the Board of Revenue apart from any question of merit or ability?

(3) Does the Government think such reservation consistent with the terms of the Proclamation of Her late Majesty?

The Hon'ble MR CARLYLE replied —

"(1) Yes

"(2) That it has been held to be important to have a considerable proportion of Europeans or Eurasians in the Board's office in connection with the work of certain departments (*e g.*, Opium and Salt).

"(3) There appears to be nothing inconsistent with the Proclamation of Her Majesty Queen Victoria in reserving a certain number of appointments for a particular class of the community"

APPOINTMENT OF POLICE INSPECTORS

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked —

(a) Has the attention of Government been drawn to certain paragraphs which appeared in the *Bengalee* of the 8th June, 1905 (Dâk Edition), touching the appointment of Police Inspectors under the new scheme? Is it true, as stated in the said paragraphs that out of twenty four appointments made only four have been given to Indian candidates, whose number was no less than 293 and sixteen of whom had been selected and summoned by wire to attend the office of the Inspector General of Police? If only four of the appointments have been given to Indians, who have received, or are intended to receive the remaining twenty? Is it true that they have all been given away to Europeans or Eurasians?

(b) Will the Government be pleased to lay on the table a list of all the twenty four appointments made as noticed above, giving the names of the persons appointed, their race or nationality and their educational qualifications, together with any other recommendation that they may possess?

The Hon'ble MR CARLYLE replied —

"1 The Lieutenant-Governor has perused the paragraphs of the *Bengalee* referred to in the Hon'ble Member's question They are misleading and inaccurate,

"It is not true that out of twenty-four new appointments of Inspectors of Police, four have been given to Natives of India and the rest are reserved for Europeans and Eurasians Out of the increase in the cadre of Inspectors of Civil Police sanctioned on the recommendation of the Police Commission, twenty nine appointments have been made Five have been made direct and twenty-four by the promotion of deserving Sub Inspectors All twenty-nine appointments have been given to Natives of India. The newspaper extract, which forms the basis of the Hon'ble Member's question, omits to mention the twenty four new appointments which have been conferred on Natives of India already in the Police

"For service in the Armed Police, twenty two European Inspectors have been appointed It has been decided that for the Armed Police to perform the duties required of it in the event of a widespread disturbance, the force attached to each district must be officered by a European Inspector. Training the Armed Police in drill and discipline is the main duty of these Inspectors, and they are quite distinct from the Civil or Investigating staff The men appointed are all Europeans, who have been trained in the Army, and they are the only persons who have the necessary qualifications for filling these appointments

"2 The second question of the Hon'ble Member does not require a separate answer after the above explanation"

BIL ROUTE CANAL IN THE DISTRICT OF FARIDPUR

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked —

May I inquire if there is any agreement or understanding between Government and any Company with regard to the *Bil*-route Canal in the district of Faridpur? If so, will the Government be pleased to inform the Council what is the nature of this agreement and what are its terms? And will the Government be further pleased to furnish a statement showing year by year the outlay made, the traffic charged, and the profits received in connection with this canal?

The Hon'ble MR GAIT replied —

"No agreement or understanding exists between Government and any Company with respect to the *Bil*-route Channel

"A statement is laid on the table which shows the state of the capital and revenue accounts of this project for each year"

Statement referred to in the above Answer.

MORTALITY IN THE DISTRICT OF FARIDPUR

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said —

It appears that in 1897 the late Dr. P M Gupta, then Civil Surgeon of Faridpur, reported that the ever-increasing mortality in the district from malarial fever was referable, among other causes, to the objectionable practice of steeping jute in every available pool or stagnant water, and in paragraph 11 of the Government Resolution on the annual report of the Sanitary Commissioner for the same year it was directed that the attention of the Civil Surgeons should be drawn to the remarks made by the Civil Surgeon of Faridpur, and that they should be requested to consider what effect the said practice had on the health of their respective districts. Will the Government be pleased to state what action was taken upon this Resolution? And will the Government be further pleased to publish all the reports and opinions received in connection with this question?

The Hon'ble MR GAIT replied —

"A summary of the opinions of the Medical Officers who were asked to inquire regarding the alleged injurious effects of jute steeping on the public health will be found in paragraph 44 of the Sanitary Commissioner's Report for the year 1898. The Sanitary Commissioner and most of the Civil Surgeons consulted by him were of opinion that the practice, though disagreeable, is not proved to be specially favourable to the development of Malaria The fever mortality is lowest during the season when jute-steeping is carried on The operation is a necessary one and cannot be wholly prohibited, but District Boards and Municipalities have power to set apart public springs and reservoirs for drinking and culinary purposes and to prevent their pollution in this or in any other manner "

THE OFFICE OF DIRECTOR OF PUBLIC INSTRUCTION, BENGAL

The Hon'ble MR CHAUDHURI asked —

(a) Will the Government be pleased to state why it was that no member of the Indian Educational Service was appointed to officiate as Director of Public Instruction in Bengal during the absence of Mr. Alexander Pedler on leave?

(b) Is there any precedent for putting the Assistant Director, who is a very junior member of the Service, in charge of the Director's office during the Director's absence from India?

(c) Is there any foundation for the report which has found currency in the local press that it is the intention of Government to appoint a member of the Indian Civil Service as Director of Public Instruction in Bengal on the retirement of Mr Alexander Pedler?

(d) Was it not laid down by Lord Dufferin in his Minute on the appointment of Mr White, I C S., as the Director of Public Instruction in the North-Western Provinces and Oudh, that, failing a competent member of the Educational Service qualified for the post of Director of Public Instruction in any Province, the Educational Departments of other provinces are to be indented upon before the appointment can be given to a member of the Indian Civil Service, and is the rule laid down in the Minute considered to be in force in Bengal, or has it been supplanted by any special or later instructions from the Government of India, and if so, when and to what effect?

The Hon'ble MR CARNDUFF replied —

"The appointment of an officer to officiate for Mr Pedler during his recent leave was considered unnecessary The leave was short, and the time was not the inspection season. The duties of his office were, therefore, entrusted to his assistant

"As to Mr. Pedler's successor, the discretion of the Government is not limited in the choice of a Director in the manner indicated in the question. The choice depends on all the circumstances and requirements of the case These have been submitted for the consideration of the Government of India."

RE ORGANIZATION OF THE DISTRICT CIVIL SERVICE

The Hon'ble BABU BHUPENDRA NATH BASU asked —

Has the attention of the Government of Bengal been drawn to the scheme of re organization of the District Civil Service in Bengal, put forward in the last number of the new Calcutta monthly, *The Indian World,* and will the Government be pleased to state if it considers the scheme to be feasible, and, if not, what stands in the way of its being put into operation?

The Hon'ble MR. CARLYLE replied —

"The Government does not consider it expedient to enter in Council into the discussion of such Magazine articles."

THE BENGAL DISORDERLY HOUSES BILL, 1905.

The Hon'ble MR. CARNDUFF moved for leave to introduce a Bill to provide for the discontinuance of brothels and disorderly houses in certain localities in Bengal He said —

"Sir, I have to move for leave to introduce a Bill to provide for the discontinuance of brothels and disorderly houses in the vicinity of educational institutions, or in the immediate neighbourhood of cantonments, in Bengal.

"In March, 1903, the Government was asked in this Council whether it was aware of the existence in a number of stations in the mufassal of houses of ill-fame in close proximity to colleges, schools and hostels, and it was suggested that measures should be taken to enforce their removal from such localities The reply then given was to the effect that the Government was aware of the evil referred to and the danger indicated, but that the question raised was one of great difficulty, as it appeared that the removal of houses of ill-fame, as such, could not be enforced The matter was not, however, allowed to drop on the contrary, careful inquiries were at once instituted, and the problem has since been examined from every point of view It appears that a 'disorderly' house may be, and frequently is, kept in a perfectly quiet and orderly manner, and that, when this is so, although its presence is none the less a source of temptation to students attending colleges and schools in the neighbourhood, neither it nor its inmates can be interfered with under the law as it stands Moreover, where interference is possible, it rests with private persons to take the initiative, and there is often a reluctance on the part of respectable men and women to come forward as complainants or witnesses in cases of the kind. The expediency of dealing with the evil can hardly be gainsaid, and the necessity for legislating afresh has, therefore, been faced. A Bill has been drafted on the lines of the provisions in force on the subject in the Punjab and the Central Provinces, the opportunity has been taken to include within its scope brothels in the immediate neighbourhood of military cantonments, and it is proposed that, while power should be taken in wide terms to direct the discontinuance of the use of a house as a brothel or by disorderly persons, that power should be conferred only upon Magistrates of the first class acting either with the sanction of the District Magistrate or on the complaint of three or more residents of the locality concerned. As to the operation of the measure, it is thought that it should extend in the first instance to mufassal municipalities only, but should be capable of extension to other than municipal areas, in which, indeed, the evil may, owing to the absence of any local authority and any public opinion, be even more pronounced than in the larger towns. Such, Sir, is the Bill which I seek leave to introduce to-day"

The Motion was put and agreed to

The Hon'ble MR CARNDUFF then introduced the Bill and moved that it be read in Council.

The Hon'ble BABU BHUPENDRA NATH BASU said —"Sir,—With your permission I wish to make a few observations with regard to this Bill I offer my congratulations to Your Honour's Government for the introduction of this measure into this Council, and I am glad that the Bill has come for discussion under Your Honour's *regime*. This is a piece of legislation for which the people have repeatedly prayed, resolutions requesting the Government to undertake legislation on these lines were passed in two Conferences which met in Bengal, and the Bill has come none too soon There is one omission in the Bill, however, which I wish to bring to the notice of this Council. If any municipal area more than another requires protection from the evil sought to be checked by this measure, it is the town of Calcutta, and the Bill omits Calcutta altogether I had the privilege of taking Your Honour down to visit an educational institution in Chitpur Road, which has been in existence for more than 75 years, and I called Your Honour's attention to the disgraceful and scandalous surroundings of the road through which Your Honour drove down. It is not only the proximity of educational institutions which

requires to be protected, but the great arterial roads through which flow the student population to our educational institutions should also be cleansed and purified. Thanks to the energy of Mr Bignell, Cornwallis Street, about which are located our principal schools and colleges, have been cleared of its unwholesome surroundings, but after a great deal of expense and trouble, because section 43 of the Calcutta Police Act is rather difficult to put into operation it lays down conditions which must exist before these houses can be dealt with—conditions which, as the hon'ble mover has pointed out, may not be found to exist simultaneously I would, therefore, appeal to Your Honour's Government to extend the provisions of this Bill to Calcutta, and I am sure my appeal shall not be in vain

"Sir, before I sit down I may be permitted to say that we have met to-day under very peculiar circumstances, and though I rejoice in the introduction of this measure into this Council, I find it difficult to express myself in the way I should like to Our hearts are too full to-day with the recent intelligence of the calamity that has befallen us,—a calamity unparallelled in the days of the Moghul or the Pathan, a calamity before which the abrogation of the gracious Proclamation of Her late Majesty under the present *regime* sinks into utter insignifiance Our hopes of a United Bengal, of a great Bengali-speaking nationality bound by common ties and prospering under a common Government, are gone From henceforth the cup of bitterness will be our portion, and all our energies and efforts must be directed to counteract the disintegrating influences that threaten to overwhelm us Sir, this is not the time to dwell on this question, but it is so near our hearts that I could not refrain from referring to it altogether

"Though our hearts are heavy and our thoughts directed towards issues far more momentous than the Bill before Your Honour's Council, I venture to offer on behalf of the people our congratulations to Your Honour's Government on the introduction of this Bill into the Council and hope that its operation may be extended to Calcutta"

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said —"Sir, I rise to offer a most cordial welcome to the Bill which has just been introduced. The credit of bestowing State attention to the segregation and control of public houses with a view to safeguard the moral interests of the people belongs entirely to Your Honour's Government Much has been done of late to purge many important parts of this great city from these growing nuisances, and it is a matter for the sincerest congratulation that the Government now proposes to extend its powerful hand to the cleansing of the Augean stables in the mufassal The indiscriminate location of public houses in the heart of respectable localities and the congregation of disorderly and disreputable people in such places have long been a standing disgrace to many a mufassal town These dens are not only the fruitful sources of public disturbances and annoyances, but they are actually making havoc among the students in the mufassal schools and colleges If I remember aright, an attempt was made to deal with these abuses in 1894, when the Bengal Municipal Act was taken up for amendment by the Government of Sir Charles Elliott, but an opposition came from an unexpected quarter, and the feeble attempt was given up I rejoice, therefore, to find that Your Honour's Government intends seriously to grapple with the situation by means of an independent legislation. I may have to offer a few suggestions as regards the simple provisions of this Bill, but this is not the occasion to do so, and I reserve them for a later stage of this short but wholesome measure

"Sir, before Your Honour adjourns the Council for your autumn tour I feel it my painful duty, as a humble representative of East Bengal, to draw attention to a telegram from Reuter, as published in the morning papers of Thursday last, which has fallen like a bombshell among the people. It is said that the Secretary of State has accepted the Government of India's scheme for the partition of Bengal' The people as yet know not what that scheme really is and what a grim mockery of fate that they should be told that it has already received the sanction of the highest authority in the administration In December and January last, attempts were made

both in this as well as in the Supreme Council to obtain information on the subject; but Your Honour's Government could not, while the Government of India would not, vouchsafe any replies. Judging however by the light of this telegram, it would now seem, that while in this state of doubt and uncertainty not a few of us were sleeping in a fool's paradise fondly indulging in the dream that it is impossible for the British Government to condemn a whole people without giving them at least an opportunity to be heard in their defence, everything was being arranged quietly between the Government of India and the India Office to decide the fate of the unfortunate people of this Province. Their repeated prayers for the publication of the new scheme have thus gone entirely unheeded, while even the telegram which they sent to the Secretary of State, upon the vague, unauthorized information of the *Standard* and the *Indian Daily News* for the simple postponement of the final decision pending the receipt of a memorial which they have hastily despatched over the signatures of nearly 70,000 people of East Bengal, has also been disregarded. Sir, even the worst criminal has a right to be furnished with a copy of his indictment before he is condemned, but here the Government have decided the fate of over 30 millions of His Majesty's innocent subjects even without a hearing!

"It is also a melancholy irony of fate that this violent *ukase*, so painfully reminding the people of the utter futility of their opposition, should be issued at a time when they were so jubilant over the coming advent of their Royal Highnesses the Prince and Princess of Wales. Sir, their Royal Highnesses will come and go, but the bleeding hearts of their future subjects that will undoubtedly bless them will also send forth the doleful strains of a mourning nation and mar the harmony of a great rejoicing Sir, the struggle of a helpless people is probably over, and here drops the curtain over one of the saddest tragedies ever enacted on the political stage in this country The map of Bengal may now be rolled up, for it will not be necessary to open it within another hundred years"

The Hon'ble MR. CHAUDHURI said —"I must congratulate the Government on the introduction of the Disorderly Houses Bill in to-day's Council In the interests of the educational institutions and respectable neighbourhoods the want of such a measure has long been keenly felt both in this city and in the many important mufassal towns in Bengal, such as Bhagalpur and Dacca. But it is a matter of profound regret to me that neither this measure nor any measure passed by this Legislature is to have any operation either in Eastern Bengal or in Northern Bengal, which latter I would perhaps be the last man to represent in this Council As for my constituency in particular, I mean the whole of the Rajshahi Division, the action of the Government in severing it from this Legislature and the capital of India is even more arbitrary than is the case with Eastern Bengal The Government proposals for its partition have never been communicated to a single soul in the whole of Northern Bengal and no opportunity given to the people of those parts to express their opinion about the change. I am acquainted with the opinions, ideas and sentiments of the men of light and leading in Northern Bengal, and I know that they will regard this sudden and violent change in its constitution and administration as the greatest calamity that has befallen them under British rule. I can assure you, Sir, that profound grief and dismay have overtaken the whole of our people at the news that the Secretary of State has sanctioned the breaking up of the province and people of Bengal in spite of the protests from the whole of Bengal. The unanimous protest of the entire Bengali-speaking people has been ignored in a manner more becoming the Ministers of the Tsar than of the representatives of the most constitutional Monarch on the face of this earth"

The Hon'ble the PRESIDENT said —"I wish simply to say this though I have not interrupted Hon'ble Members in talking about a subject which is absolutely irrelevant to the subject now under discussion because I have no desire whatsoever either to appear to fail in sympathy with Hon'ble Members who appeal as they do, but also because I think that under the peculiar circumstances of the case it is only natural that they should wish to say a few words, but I think I must ask that Hon'ble Members do not abuse the patience

of the Council, and that they do not use this privilege which is given to them to use language which cannot be approved from this Chair."

The Hon'ble MR. CHAUDHURI continued —"As we consider you, Sir, as not only the representative of our Sovereign, but the representative of our people as well, my humble prayer to you to-day is that you would convey to the Sovereign our unanimous feeling and deliberate opinion that His Majesty's Ministers have been ill advised in adopting the scheme, and that His Majesty may yet be graciously pleased to stay the hands of his Ministers With this prayer I resume my seat."

The Hon'ble MR. CARNDUFF said:—"In reply to the observations made by the Hon'ble Babu Bhupendra Nath Basu, I take the opportunity of explaining that the question of legislating to meet in Calcutta the evils with which the Bill deals for the mufassal has not been overlooked. It is under the consideration of the Government"

The Motion that the Bill be read in Council was then put and agreed to, and the Bill was read accordingly.

The Council was then adjourned to a day to be notified hereafter.

CALCUTTA,
 The 18th July, 1905.

Port Adelaide river—No. 2 Light Beacon removed and Red Light exhibited

No 279 (*first publication*) —With reference to Notice to Mariners No 228, dated 24th June 1905, issued by this office, the President of the Marine Board, Port Adelaide, has given further notice (No 18 of 1905) informing Masters of Vessels, Pilots, and others that Deepening Operations in the vicinity necessitate the removal of No 2 Light Beacon, and that on and after the 1st July next a Red Light in lieu thereof will be exhibited from the Red Pile Beacon south of No 3. This Light on with No 4 will point out when to turn off No 1 lead (two Red lights) and direct the course towards No 3 Light Beacon

Sailing Directions

By night —In approaching the anchorage vessels of deep draught should not bring the White Light on the old structure to bear north of N E by E in order to avoid the four-fathom patch, which bears N W ¾ N from the Light on Wonga Shoal, then get the outer leads [which consist of Two Red Lights vertical seven (7) feet apart and Two White Lights vertical seven (7) feet apart] in line; keep these in line passing between the Occulting Light on the Red Buoy and the Outer Green Light on the north bank, also between the other Green Lights on the north bank and the White Lights on the revetment mound

Steer on the same line until the two Red Lights of No 1 lead are coming on, then steer with them on line until the Red Light south of No 3 Beacon is on with No 4, then direct the course to pass a safe distance off No 3, then steer for a like distance off No. 4, and so on from beacon to beacon round the point until No 9 is reached From a safe distance off No 9 the lights of No 10 lead will be seen, keep them in line until the Red Light is about a quarter of a point open to the right of the White Light of No 11 lead, then gradually alter the course to bring the lights of No 11 lead in line, keep them in line (a sharp lookout being kept for the mooring buoys on the starboard hand) until the lights of No 12 lead are seen coming into line, proceed as before by altering the course before the lights are on with each other The same applies in the change from No 12 to No 13 leads, when the lights on the wharves are seen opening out off Luff Point, alter the course so as to round the point at a safe distance, and then up the centre of the Channel, looking out for the Mooring Buoys on the starboard hand

By day—The directions by day are the same as by night, merely substituting the Beacons for the Lights

In going outwards the directions are just the opposite to those given for coming inwards, but in such case in changing from one lead to another, the course should be gradually altered when abreast of the Low (Red) Beacon of each lead

This affects Admiralty Charts 2389B, 1750, and 1752.

General Instructions

No 257 (second publication)—The following "Directions" are laid down for the guidance of Pilots, Masters of vessels, and others, in supersession of the instructions on pages 215, 216 and 217 of the third edition of the Bay of Bengal Pilot, 1901 —

Pilot steamer and brigs—Cruising station

The pilot steamer is of 1,000 tons, painted white with three masts and yellow funnel The brigs are of about 300 tons, painted black, with white stripes and imitation ports and double top sail yard All pilot vessels by day will fly a large blue flag at the main, when inward bound vessels are sighted, and at night will exhibit the regulation lights and flare up

During the south-west monsoon, pilot vessels will invariably cruise about 8 miles south to south-west of the Eastern Channel light vessel During the north-east monsoon they cruise or anchor 4 to 5 miles west to north north west of the same light-vessel

Pilotage—Is compulsory for all merchant vessels over 100 tons

If a pilot is not taken at the cruising station one cannot be obtained in the river

Approach—Directions—Steam vessels arriving at the Sandheads and finding the pilot steamer on the station should close with her and lie to about 300 yards distant under her stern in such a manner as to make a lee for the pilot boat, when a pilot will be supplied

To avoid delay, approaching steam vessels should, when about half a mile off the pilot vessels, indicate their tonnage by the following steam whistle signals —

Over 3,400	tons gross	One short blast
Between 2,800 and 3,400	,,	Two ,, ,,
,, 1,800 and 2,800	,,	Three ,, ,,
Under 1,800	,,	Four ,, ,,

Sailing vessels should signal net tonnage

Sailing vessels should approach within safe distance of the steam pilot vessel and then heave to on the starboard tack when a pilot will be supplied

Steam vessels on closing with the pilot brig for a pilot should lie under her stern or weather quarter, and after receiving a pilot tow the boat to windward of the brig Sailing vessels should invariably lie to on the same tack as the pilot brig, unless signalled to the contrary

During bad weather when boating is not safe or when there are no pilots in the station, pilot vessels during daylight will not show the blue flag, and at night will not exhibit the regulation lights or flare up light for pilot vessels engaged on the station Masters of inward bound vessels should pay particular attention to any signals made under these circumstances

Sailing vessels should not run for the station at night or in threatening weather Under such circumstances put the vessel under small sail while in deep water and keep to the sea until daylight The lead should be kept going constantly

Vessels arriving at the pilot* station and finding the pilot vessel at anchor must use the utmost caution in closing her on account of the strong tidal streams When easterly winds prevail there is a strong set to the westward, it is then specially incumbent on strangers to take advice given from the pilot vessel In arriving at night do not heave-to to windward of the brig if intending to take a pilot before day light, but close as soon as possible, approaching round the brig's stern, whether at anchor or under way

* Lloyd's Agents at Calcutta have facilities for delivering orders there

In August, September, and October, when sailing vessels are signalled to keep to windward from there being no pilots, or other causes, they should be most careful to keep the light vessels or brigs in sight, for should the wind fall light they are liable to be set out to sea, and particularly in the two latter months may not be able to return for many days

Signals from the brig to prepare for bad weather should not be ignored

The tidal stream should be studied, the first of the flood setting westward, stand eastward, the first of the ebb setting eastward, stand westward and northward

A kedge anchor is useful. Strangers anchoring below or at any distance off the light-vessel, should endeavour to near the brig and not remain at anchor The practice of rounding the brig close-to, in a sea-way, is dangerous both to the brig and to the boat alongside, it almost swamps the boat, and the ship, on being brought to the wind, gets a rapid stern board on to the brig, which has often great difficulty in getting clear

Caution —Should it be necessary when approaching the Hughli river (Sandheads) in heavy weather to anchor from any cause, if possible anchor outside the line joining Eastern Channel and Mutlah light vessels in not less than 15 fathoms, mud, and do not close the pilot brigs until the weather moderates

A vessel will ride easier and bring less strain on her cable if anchored in depths of 15 to 20 fathoms, than in less depths, especially in an estuary In the greater depths, the cable is never quite taut, and therefore is not so liable to part, and also the waves have less force than when they are breaking in the shoaler water

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF JUNE 1905

PECULIAR interest attaches to the weather in June, inasmuch as it is the month which ushers in the monsoon This interest was enhanced in the present year owing to the abnormal character of the weather during the preceding months and the uncertainty as to the effect of this irregularity in the strength and distribution of the monsoon As far as June is concerned, the abnormality continued and showed itself in the difficulty which the monsoon current experienced in extending its influence over the province from the extreme eastern and north eastern districts, where it had been established, though in a weak form, from a comparatively early period

A premature advance of the monsoon current commenced as early as the first week and gave every promise of extending into the province Its influence was, however, confined to the eastern half of the Bay, and was manifested in the rain which, starting on the South Burma coast, gradually travelled northwards, finally reaching East and North Bengal and Assam This first advance may be said to have endured till the 7th, though its influence was felt in Assam and the adjacent districts of Bengal till the 9th

The weather during this period over the remainder of the province was of the ordinary hot weather character The fluctuations of pressure throughout had been unimportant, and the variation from the normal was never large, but the distribution was unfavourable to the advance of the moist winds westwards Temperature, though it had a tendency to rise in the western half of the province after the 5th, did not show any marked deviation from its average value

A weakening of the monsoon in the centre of the Bay became apparent about the 7th or 8th of the month, and the effect of this weakening was soon shown in the province Hot weather conditions gradually reasserted themselves and were completely established over the whole of Bengal on the 10th, the monsoon current being confined to the south of the Bay During this period abnormally hot weather prevailed, a series of most unusual temperature being recorded especially in the western half of the province

Pressure, which on the 9th had been slightly above the normal, began to fall slowly from this date until finally on the 14th it was universally below the normal It was not till the 14th that there was an appearance of a fresh advance of the monsoon in the northern half of the Bay and on the 15th on account of a rapid fall of pressure in the north and a relatively slow fall in the south, the gradient over the Bay was extremely steep

This fresh advance, however, though it gave fair and general rain to Assam and the neighbouring divisions of Bengal and some hopeful monsoon showers to South-West Bengal, failed again to penetrate into the western divisions Its influence ceased in East Bengal on the 17th, but continued to be felt in North-East Bengal and Assam for some days later

Abnormally high temperatures (both day and night) continued to be reported from all but the eastern divisions during this period

It was not till the 19th that the fall of pressure mentioned above was checked, but the rise that thus set in failed to bring the pressure back to the normal before the 22nd The most important feature, however connected with the pressure during the present advance was that the distribution was again unfavourable to the movement of the rain bearing currents westwards, though not to the same extent as during the advance of the first week

The monsoon, which had weakened considerably in the Bay from the 18th, again after a short interval began to recover, and on the 23rd once more showed considerable strength in East and North Bengal as well as Assam The distribution of pressure, however, was still unfavourable to a westward extension and it was not till the end of the month that the formation of a cyclonic storm at the head of the Bay and its subsequent advance westwards across the continent helped to overcome the adverse pressure conditions, and to bring the much needed relief to the province The fluctuations of pressure itself in these closing days of the month were, except during the actual development of the storm, unimportant and the departure from the normal was never more than moderate

In South-West and Central Bengal, the temperature had during this final period been gradually sinking under the influence of the slowly advancing monsoon winds, but in the west it remained exceptionally high until the general burst of the monsoon which was brought about by the cyclonic storm of the last day of the month

Pressure.—The most marked feature of the pressure was the almost continuous fall which took place from the 9th to the 19th

During the first part of the month the variation from the normal was slight, while though the oscillations were more considerable during the closing period, the low pressure at its beginning was approximately balanced by the high pressure at the end Thus, on the whole, mean pressure for the month was below the normal throughout the province, the defect, however, was less than 05 of an inch at practically all stations

Temperature, as might be expected from the above report, was above the normal, over virtually the whole area, and the excess is shown in both maximum and minimum temperatures The only part of the province where temperature was practically normal was the extreme north-east of Lower Bengal The excess over the remainder increases in accordance with the nature of the weather during the month from east to west, being greatest

in Chota Nagpur In this division the mean maximum was 10° and the mean minimum 5½° to 6½° above the normal

Rainfall was deficient for all the divisions The deficiency was naturally least in North Bengal where the monsoon, though weak, established itself early in the month In East Bengal likewise monsoon conditions were more or less in evidence during the whole of the month, though with more frequent intermissions than in the case of North Bengal. South-West Bengal and Orissa, on the other hand, were only feebly affected by the monsoon current till the end of the month, while into Bihar and Chota Nagpur it can hardly be said to have penetrated at all

In South-West Bengal the rainfall was only 31 per cent of the normal, in Bihar 22 per cent and in Chota Nagpur 17 per cent In North Bengal, on the other hand, the defect was only 7 per cent

The following table gives the rainfall of the various Divisions of Bengal in June, and in each of the previous months of the present year as compared with the normal values for the same periods The figures given represent the actual falls expressed as percentages of the normal falls —

The mean pressure, temperature, etc, are deduced from the traces of the Barograph and Thermograph

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground Rainfall reported on any day is for 24 hours preceding 8 A M of that day

NOTIFICATION.

No. 2517A.D.—The 20th July 1905.—The following rule is substituted for Rule 4 in Appendix V of the Departmental Examination Rules of Assistant Magistrates and others, 1895:

Rule 4.—No Native Member of the Executive Branch of the Provincial Civil Service or the Subordinate Civil Service is liable to examination in a language which is his own vernacular.

Officers of the Executive Branch of the Provincial Civil Service and the Subordinate Civil Service.

Subject to the above proviso—

(i) All members of the above Services are required to pass by the Higher and Lower Standards in the vernacular of the district in which they may be serving and also in a second language by the Higher Standard only.

Explanation (a).—In the case of an officer serving in Bengal, Bihar or Chota Nagpur, the two compulsory languages shall be Bengali and Hindustani; (b) in the case of an officer serving in Orissa, the two compulsory languages shall be Uriya and Hindustani; but, if either of these languages be the officer's own vernacular, Bengali shall be substituted for it.

(ii) If, after passing in a second language, a member of the above Service is transferred to a district where there is a third vernacular, he will be required to pass in that language also by the Higher Standard only within two* years of his arrival in the district. During this period he will, if otherwise qualified, be considered as eligible for promotion, but after the expiry of the two years he will, as long as he remains in the district, receive no promotion until he passes in the third language.

Officers passing a third language examination under this rule will be entitled to a reward of Rs. 180.

Note.—These rules apply to officers under 35 years of age on the 1st July 1905—to officers above that age the former rule 4 shall continue to apply.

* In the case of officers serving on the date of this notification, the two years referred to in clause (ii) of the above rule will count from such date.

R. W. CARLYLE,
Offg. Chief Secy. to the Govt. of Bengal.

No. 11A.T.—The 25th July 1905.—In exercise of the power conferred by clause (*d*) of Regulation II of the Regulations made under section 1, sub-section (*4*) of the Indian Councils Act, 1892, for Bengal as amended by Notification No. 2781 (Public), dated the 29th November 1899, the Lieutenant-Governor is pleased to prescribe the Behar Landholders Association as the Association of Landholders on whose recommendation he will make a nomination to a seat in the Bengal Legislative Council.

MUNICIPAL DEARTMENT

THE following letter from the Government of India in the Home Department is published for general information.

E A GAIT,
Offg Secy. to the Govt of Bengal.

No. 93, dated Simla, the 18th July 1905

From—H A STUART, ESQ, C S I., Offg Secy to the Govt of India, Home Dept,
To—The Secretary to the Government of Bengal, Municipal Department

I AM directed to address you on the action to be taken at the present stage of the discussion on the Calcutta Improvement Scheme

2. This project was the outcome of a sanitary survey of the town conducted in 1896 by a number of medical officers under the direction of the local Plague Commission Their enquiries called prominent attention to the overcrowding of the northern portion of the town It was pointed out that in one ward the population amounted to 145,000 per square mile as against 36,000 in the city of London, and it was calculated that, in the northern wards generally, 80 per cent. of the total space available was occupied by solid masonry buildings The Building Commission appointed in 1897 accepted the views of the Sanitary officers, and emphasized the fact that the only remedy lay in extensive structural alterations involving the opening up of new roads and the provision of open spaces Acting upon their report, the Lieutenant-Governor in July 1899 submitted his first proposals for a scheme of urban improvement

3. The question has since been continuously under consideration. The difficulty throughout has been to devise a system of finance which would involve neither an excessive addition to local burdens nor an undue transference of these burdens to the general taxpayer The first suggestion of the Local Government was to find the whole of the net income required, after allowing for recoupment and frontage rates from a tax on consumers of jute The scheme as now formulated includes a tax on jute, but it is only one item in a programme of special taxation designed to reach every section of the urban population A substantial contribution is now promised by the Government of India, who further undertake to guarantee the loans to be raised by the Improvement Trust, and the Corporation is to be called upon to contribute certain definite sums, and also to accept a general responsibility for the solvency of the Trust The extent of the operations contemplated has also been greatly enlarged, the gross capital expenditure being now estimated at nearly $8\frac{1}{4}$ crores of rupees as against 5 crores in 1899 The necessity for this additional outlay arises from the inclusion of expenditure for open spaces as well as for roads, and from the recognition of the fact that if the work of the Trust is to be permanently effective the persons displaced by these operations must be accommodated elsewhere, while provision must also be made for the normal expansion of the town

4 The scheme in its present form is mainly the work of a conference convened by the Lieutenant-Governor in 1904. On this conference the Government of India were represented by the Secretaries in the Home and Finance Departments, both of whom were then Bengal officers, the Local Government by the Lieutenant-Governor, who presided, and by his Financial Secretary, the Corporation by its Chairman, Mr Greer, and three non-official members, one of whom, the Hon'ble Mr. E Cable, was at that time President of the Chamber of Commerce, the others being the Hon'ble Dr Ashutosh Mukhopadhyaya and Mr. Nalin Behari Sircar, C I.E Three of the members had also been members of the Building Commission already mentioned The conference was thus representative of the interests of the different classes of rate-payers and also of commerce, and included the best expert knowledge obtainable on questions of urban improvement and local finance

5 It has been found necessary to suggest alternative forms of taxation in view of the probable abandonment of the scheme of succession duties proposed by the conference, and to provide for the possibility that the railway terminal tax approved by the conference may prove on further examination to be impracticable To this extent its proposals have been modified or supplemented and new elements have been introduced which call for further examination by the Local Government and its advisers, but the main outlines remain unchanged.

The conditions of the case have involved throughout these earlier stages a reticence as to their intentions which both the Government of India and the Local Government would have been glad to avoid And though they have meanwhile obtained such help as was possible from local knowledge and non official advice they are impressed with the importance of submitting the scheme to a wider circle of criticism They think that the time has now come when nothing further can be gained from confidential discussion, and that the whole scheme should be laid before the Corporation, and other representative bodies and the public generally, for examination and opinion To assist the authorities consulted they have caused a detailed abstract of the measures suggested to be prepared in the memorandum which forms an enclosure to this letter They desire to add that the scheme is to be regarded as provisional, and they will welcome any criticism, whether on the administrative or the financial aspect of the proposals, which may be designed to secure increased efficiency or a more satisfactory distribution of the burdens and sacrifices which the scheme involves

6 I am now to request that, with the consent of His Honour the Lieutenant Governor, the various public bodies concerned may be consulted on these proposals and that this letter and its enclosure may be published for general information I am also to ask that the unsettled questions or points of detail mentioned in paragraphs 13, 16 and 19 21 of the memorandum may be further examined in the light of the remarks there made, and that the report of the Lieutenant Governor on these matters, together with his final recommendations, may be communicated to the Government of India after he has had an opportunity of considering the opinions of the representative bodies whom it is proposed to consult.

CALCUTTA IMPROVEMENT SCHEME ANALYSIS OF PROPOSALS

ADMINISTRATION

Agency to be employed

THE improvements will be carried out by a Trust constituted by an Act of the Lieutenant-Governor's Legislative Council

Constitution of Trust

2 The Trust will consist of a President and six Trustees, all appointed by the Government The Chairman of the Corporation will be a Trustee *ex-officio*, two Trustees will be Municipal Commissioners, and one will be a member of the Chamber of Commerce

Operations of Trust

3 The primary functions of the Trust will be —

(1) To construct new roads and improve existing roads
(2) To provide open spaces
(3) To provide accommodation for persons displaced by the foregoing operations, and also for the probable normal growth of population for a generation
(4) To control, by means of building regulations, areas in the neighbourhood of those which have been acquired

[*Note* —(i) For the remodelling of the Calcutta *bastis* the Corporation will remain responsible, and this work will not be undertaken by the Trust except indirectly where it acquires land in a *basti* for the alignment of a new road or the provision of open spaces

(ii) It is contemplated that the Trust should as far as possible limit itself to providing land for sites and not itself undertake the erection of dwelling houses]

4 The Trust will also—

(1) Furnish the areas acquired with municipal conveniences, such as water, lighting and communications
(2) Enforce sanitary conditions by requiring structural alterations of individual houses upon the motion of the General Committee of the Corporation followed by an order from a Magistrate
(3) Acquire surplus lands, with a view to recoupment by their subsequent sale or lease

Duration of Trust

5 The Trust will be wound up and its assets and liabilities transferred to the Corporation as soon as the scheme of work is completed.

Methods and Scope.

6 (1) No detailed scheme will be prepared beforehand, as such a scheme would only be provisional and would facilitate fictitious claims.

(2) The general working plan will be—

(a) as regards roads, to traverse the area selected for operations by a system of roads 60 feet wide, some running north and south and others running east and west, with diagonal connections,

(b) as regards provision of open spaces, to acquire for this purpose areas of which a larger proportion than one-third is covered by buildings, and to remove buildings to such extent as may be necessary to reduce the proportion to not less than one-third The unit to be dealt with will be about 40 acres,

(c) as regards acquisition of land for expansion, to select strips of land in the directions of probable expansion, as far as practicable, within the municipal limits of Calcutta, and otherwise in the adjacent suburban municipalities

(3) The amount of work to be done is indicated by the following provisional and tentative figures —

(a) roads to be constructed—15 miles,

(b) open spaces to be acquired at a probable cost, as mentioned below, of 172 lakhs of rupees,

(c) land to be acquired for expansion—2,000 acres, an area estimated to provide for a surplus population of 200,000 or more.

[*Note* —If inadequacy of funds should necessitate the reduction of this programme, it is contemplated that operations under head (b) would probably be selected for curtailment]

(4) Rate of progress —These operations will take the form of separate schemes, each requiring the sanction of Government, which will be given with due regard to the actual and prospective assets of the Trust as determined by the experience gained up to the time at which each separate scheme is submitted If receipts do not come up to anticipations the programme must be correspondingly curtailed Otherwise it is expected to be completed in 20 years

FINANCE

Capital and loan transactions

7 These are indicated in the following account —

Charges	Rs lakhs.	*Receipts*	Rs lakhs
On roads	500	Recoupment and recoveries from frontage owners	336
On open spaces	172	Government grant	50
On land for expansion	100	Loans ..	436
On improvement of this land	50		
Total	822	Total ...	822

8 *Explanations*—

(i) The estimated expenditure on roads (Rs 33 lakhs per mile) is based on the actual results obtained in the case of Harrison Road

(ii) The sum allotted for open spaces represents the amount which it is hoped may be available after providing for an adequate scheme of road construction, re-housing and expansion, and subject to the limitation of aggregate expenditure to a sum within the resources of the town.

(iii) The estimate for acquisition of land (Rs. 5,000 per acre) was adopted after enquiry as to the value of land in selected areas

(iv) The estimate for improvement includes the provision of municipal conveniences [*vide* paragraph 4 (1) above]

(i) The item of Rs 336 lakhs on the receipt side represents half of the anticipated expenditure on roads and open spaces (Rs 500 + 172 lakhs) It is contemplated that the Trust should either (a) recoup itself by taking up excess land and re selling it at the higher price to be expected for land brought into proximity with a new thoroughfare, or (b) that it should follow the methods of the Prussian Street Alignment Law, which dispenses with the procedure of acquisition and resale of excess land, and authorizes the recovery of a maximum of half the cost incurred in providing a new road directly from the owners of land adjacent to it It is claimed for the latter alternative that it tends to eliminate the speculative element and also enforces the principle that a new street benefits the adjacent owner specially as well as the community generally It is not necessary that the same method should be adopted throughout the city.

[*Note* —As stated in paragraph 4 (8) above, it will be open to the Trust to lease the excess lands instead of reselling them where the latter course is less advantageous But for purposes of calculation it is convenient to treat recoupment operations entirely under capital account]

(ii) The Government grant of Rs 50 lakhs has been approved by the Secretary of State, and takes the place in the Calcutta scheme of the substantial assistance given to the Bombay Improvement Trust by the grant of vacant Government lands and reclamation rights

(iii) The loans will be repayable in 60 years and will be guaranteed by the Government of India This guarantee will be given subject to certain conditions regarding the contributions to be paid by the Corporation and its ultimate financial responsibility for the Trust which are explained in paragraph 11 below

Revenue Account

9 The revenue account broadly indicated in the following statement —

Expenditure	(Omitting 000)	Revenue	(Omitting 000)
	Rs		Rs
Annual charge for interest and sinking fund	20,35	Return from land taken up for housing and expansion	3,00
Cost of management	1,00	Contributions and taxation .	18,35
Total	21,35	Total	21,35

Explanations

10 (i) The estimate for interest and sinking fund is based on the assumptions that the loans are floated at 4 per cent and that the sinking fund is invested at an average rate of 2¾ per cent

(ii) The item "Cost of management" includes *inter alia* the President's salary which the Conference proposed to place at a maximum of Rs 3,000 per mensem, supplemented if the Local Government thinks fit, by a house allowance not exceeding Rs 500 per mensem

(iii) The estimate of "Return from land" is based on an assumed return of 2 per cent on the total cost (Rs 100 + 50 lakhs) of acquiring and improving land for housing and expansion It will be open to the Trust to re-sell the land acquired instead of leasing it (*Cf* the converse case of recoupment by leases instead of re sale)

(iv) The income from "Contributions and taxation" will be made up of (1) Contributions paid by the Corporation, and (2) Special taxation The general principles under which it is proposed to distribute the burdens involved are (a) that an appreciable share of the immediate financial burdens, and complete financial responsibility in the event of default on the part of the Trust, must devolve upon the Corporation, (b) that as the improvement scheme will not to any important extent relieve the Corporation of its ordinary expenditure on the provision of municipal requirements, it must be financed in a large measure by special taxation, and (c) that the burden of taxation should be distributed as evenly as possible among the different classes benefited

Contributions by Corporation

11 The Corporation may contribute to the revenues of the Trust (a) from the normal growth of municipal revenues, (b) by the allocation to the Trust of revenue set free from time to time by the discharge of existing municipal loans, (c) by raising existing municipal taxes, and (d) from new taxation

As regards (a), it is proposed that the Corporation should undertake to contribute 1½ per cent. on the rateable value of lands and buildings (estimated yield Rs 3,60,000)

As regards (b) two alternative proposals have been considered by the Government of India

The first is that the following amounts which become available by the liquidation of loans on the dates mentioned against each should be diverted to the purposes of the Trust The second is that the first item only should be so diverted —

(i)	Rs.	4,64,000	available on	31st December 1908
(ii)	„	45,500	„	1st August 1908
(iii)	„	65,920	„	1st May 1909
(iv)	„	1,26,890	„	1st December 1910
(v)	„	1,60,000	„	1st December 1911
Total	„	8,62,310		

For the reasons indicated under clause (iv) (b) of paragraph 10 the Government of India prefer the second proposal

As regards (c), there has been much discussion The consolidated rate is now assessed at 19½ per cent on rateable value, the present legal maximum is 23 per cent It has been represented that the margin between present and maximum rates must be regarded as hypothecated to drainage and water works schemes already contemplated The Government of India are disposed to agree that the rates should not be made the mainstay of the improvement scheme, and with the possible exception* to be explained below they do not propose to call for any immediate addition to the rates now levied or for any increase in the legal maximum

As regards (d) the Government of India are disposed to question whether the Corporation can meet the first of these demands (the 1½ per cent contribution) as well as set aside so large a sum (Rs 4,64,000) from loan payments unless new sources of revenue are placed at its disposal They think it preferable, however, subject to the exception* already referred to, that the additional resources should be obtained from new taxation rather than from an addition to the consolidated rate They accordingly propose that taxes should be imposed on petroleum† and also upon transfers† of immoveable property The proceeds of these taxes will be credited to the Corporation

The payment of the municipal contribution of 1½ per cent on rateable value will also be secured in the manner provided in section‡ 72 of the City of Bombay Improvement Act, 1898

Further, in the event of default on the part of the Trust in respect of loan instalments or sinking fund investments, the Corporation will be liable for the default in the manner prescribed by sections‡ 80—82 of the Bombay Act, under which the amount in default may be withdrawn from the municipal fund and set aside for the service of the loan, and a special tax may then be imposed to repay the sum withdrawn from the municipal fund

12 The foregoing proposals may be thus summarized —

(i) The Corporation will contribute a fixed amount (Rs 4,64,000) *plus* a fluctuating amount (1½ per cent on rateable value, now calculated to yield Rs 3,60,000), to the revenues of the Trust

(ii) The revenues of the Corporation itself will be supplemented by new taxes on petroleum and on transfers on immoveable property, to enable it to meet the second of these charges

(iii) The contribution of 1½ per cent will be further secured as explained above on the consolidated rates

(iv) The Corporation will be liable for default on the part of the Trust

13. The following information is added regarding the two municipal taxes above proposed —

Transfer duty —A duty on transfers was first suggested as an adjunct to the succession duty (*vide* paragraph 18 below) and to prevent evasion of the latter As a tax standing by itself, it appears to be free from the objections which are held to make a succession duty impracticable Being a tax on immoveable property, it is a suitable alternative to the enhancement of the rates which would otherwise become necessary if the Corporation were at any time unable to maintain its contributions It is proposed to levy the tax at the rate of 1 per cent on sales, gifts and usufructuary mortgages The estimate of yield based on the recorded figures of gifts and sales only is Rs 2,60,000 Separate statistics of usufructuary mortgages are not readily obtainable. The details generally require to be further worked out

The Government of India would be prepared to consider whether the tax should not be levied at 2 per cent, the additional 1 per cent being substituted for the owners' rate suggested in paragraph 17 below But they are inclined to prefer the latter tax, as the yield would be less liable to fluctuations

Petroleum tax —The Conference considered a proposal to impose a tax on petroleum At the rate of 4 annas per 10 gallons it was estimated to yield Rs 1½ lakhs This article is already taxed for Imperial purposes at a high rate (15 to 20 per cent *ad valorem*) Further objections are that the yield would be uncertain, the tax would be somewhat difficult to collect, and it would press with special weight on the poor The Conference rejected it largely on the last ground If it is decided to adopt the railway terminal tax (*vide* paragraph

* See para 17, "Special owners' rate"
† See para 13 below
‡ *Vide* Appendix A to this memorandum

19 below) by which the poor would be effectively reached, the Government of India would prefer not to impose a tax on petroleum, and it would probably be possible also to reduce the contribution to be demanded from the Corporation Otherwise they consider that the pretroleum tax is required Such a tax was approved by the Secretary of State at an earlier stage of the discussion and provision for such taxation already exists in the Calcutta Municipal Act

Proposals for special taxation

14 Under the above scheme the Corporation will provide Rs 8,24,000 out of the total sum (Rs 18,35,000) required from contributions and taxation The remainder (Rs 10,11,000) must be obtained from the proceeds of special taxation on behalf of Trust funds The following suggestions for special taxation have at one time or another been put forward

15 *Jute Tax* —The Conference of February 1904 approved a proposal to levy an export duty of ¼ per cent on the value of jute shipped from Calcutta, coupled with an excise on jute locally purchased (estimated yield Rs 5,00,000). To prevent evasion a similar tax must be imposed on jute shipped from Chittagong, the proceeds of which will go to that port This proposal has been minutely scrutinized It has been criticized as a tax which will be paid by consumers of jute abroad and all over India, and which is therefore more suited for imperial than for local purposes On the other hand it is contended that Calcutta is the financial and administrative head-quarters of the jute trade, both in respect of the raw material and of the manufactured product, that though the jute mills and presses being situated for the most part just outside Calcutta municipal limits escape municipal taxation on the metropolitan scale, the Companies have their head-quarters and are managed and financed in Calcutta itself, that they employ some 97,000 operatives who with their dependents enjoy the municipal conveniences of the town and contribute largely to its congestion, but practically pay no municipal taxes

The tax is too small to injure the trade It can be shown for example that the increase of 45 per cent in the price of raw jute which occurred between 1898 and 1900 did not affect the exports The fibre is in fact a *quasi* monoploy and a small duty is not likely appreciably to accelerate the discovery of a substitute It is also to be noted that of the total export of jute only one twentieth is consumed in India and about one-third only goes to the United Kingdom

The Government of India appreciate the wider issues which the imposition of such a tax opens up, but they are satisfied that its net advantages exceed those of any alternative forms of taxation which could be proposed They have accordingly recommended its adoption to the Secretary of State, and it has been provisionally approved by him

It has been suggested that in imposing the tax the Government should take power to fix tariff values or to convert the *ad valorem* into an appropriate specific duty

16 *Additional income-tax* —Following continental precedents, the Conference recommended the addition for the purposes of the Trust of half a pie per rupee to the existing income tax which is levied at the rate of 4 and 5 pies per rupee of income as the case may be The yield is estimated at Rs 2 lakhs The tax possesses the merit of reaching classes who profit greatly by the business facilities of Calcutta, but are not easily reached by other forms of taxation

The tax has been provisionally approved by the Secretary of State It is not intended to levy it on the interest on Government securities The details remain to be worked out, and certain practical difficulties will require consideration by the Local Government, *e g*, the case of persons residing in Calcutta for a part only of the year, and the case of firms assessed in Calcutta on the income of branches in other places

17 *Special owners' rate* —The Local Government has proposed a special rate of 1 per cent on rateable value to be assessed exclusively on owners The Government of India agree that some share of the special taxation which the scheme involves should be of a kind which falls directly on owners, who will benefit by the improvement of the town On the other hand, it is argued that the tax will be new in form and therefore more unpopular, that its ultimate incidence like that of the consolidated rates (assessed half on owners and half on occupiers) will be really determined by the conditions of supply of and demand for houses in each locality, and that therefore it would be preferable to add 1 per cent to the consolidated rates to which the people are accustomed The Government of India think that, in the probable event of the succession duty being abandoned, one of these alternatives should be adopted The yield in either case should be about Rs 2,40,000

18 *Succession Duty* —The Conference proposed a succession duty on immoveable property in Calcutta on a graduated scale working out to a mean rate of 5 per cent on market value, and took credit in their scheme of finance for a revenue of Rs 6,50,000 from this source and from a duty on transfers The proposal was further examined in February 1905 by an informal Committee of legal experts (the Hon'ble the Advocate General presiding), who reported that the proposal was beset by grave practical difficulties, the chief being those of dealing with the joint-family system and with corporations In view of these objections the Government of India are disposed to think that the special owner's rate referred to in paragraph 17 is preferable

19 *Railway terminal tax* —The Conference recommended the imposition of a terminal tax on railway passengers arriving at or leaving the Calcutta stations, including Howrah They

estimated the number of passengers at over 10,000,000 per annum, and calculated that a tax of one-half anna per head with a substantial reduction for daily passengers would yield Rs 2½ lakhs. The tax would fall to a large extent on the poor whom it is in fact desirable to reach by one or other of the special taxes to be imposed It is argued that the taxation of suburban transportation is opposed to the essential principle of a scheme of city improvement, a main object of which is to encourage the dispersion of the population from the centre to new or existing suburbs On the other hand, there are precedents for such taxation both in India and elsewhere, and in a scheme which at the best must require heavy and conscious sacrifices from the tax payer the advantages of a tax which is easily collected and not severely felt are not lightly to be set aside On the whole, the Government of India are disposed to reserve their opinion till the proposal has been submitted for public criticism and also examined further by the Local Government and by representatives of the railway companies affected For the tax to be admissible at all, it will be essential to prevent unfair competition with other means of transportation by imposing a similar tax on passengers by river steamer, and also to devise some practicable method of restricting its incidence on the daily passenger within moderate limits

20 *License-fee on import of timber and firewood*.—This and the next tax, both of which are in force in Madras, were suggested at a late stage of the discussion, and their probable yield and suitability to the conditions of Calcutta have not yet been examined The timber and firewood tax in Madras, levied at the rate of Rs 5 per ton on timber and 6 annas per ton on firewood, yields about Rs 1½ lakhs net per annum

21 *Tax on animals slaughtered for food*.—In Madras this tax, collected under contract, yields about Rs ½ lakh per annum

22 The following statement indicates the extent to which the taxes proposed will suffice to supply the revenue required —

		Rs
(a) Income required from special taxation		10,11,000
(b) Estimated yield of proposed taxes—	Rs	
Jute tax	5,00,000	
Additional income tax	2,00,000	
Special owners rate, or Addition of 1 per cent to consolidated rate, or Addition of 1 per cent to transfer duty	2,40,000	
Railway terminal tax	2,50,000 *	
Tax on timber and firewood	(Not yet estimated)	
Tax on animals	(Ditto)	

General Summary

23 The scheme involves a capital expenditure of Rs 822 lakhs The persons whose land is improved are expected to repay to the Trust Rs 336 lakhs capital, while those who are served by the housing operations will pay Rs 3 lakhs per annum, *i e*, Rs 2 lakhs per annum (sufficient in 60 years to repay a loan of Rs 42 lakhs) and the cost of management (Rs 1 lakh per annum) The capital outlay may therefore be regarded as thus distributed —

	Rs Lakhs
Persons directly benefited, Rs 336 + 42 lakhs = ...	378
Residents of Calcutta	394
The general taxpayer	50
Total	822

Thus no part of the cost of management and less than half the capital charges fall on the local taxpayer

24 The comparative lightness of the burden in relation to the magnitude of the operations involved is the more noticeable when the scheme of taxation comes to be analysed The repayment of Rs 394 lakhs involves an annual charge of Rs 18,35,000 Of this amount it is contemplated that over Rs 4 lakhs† will be obtained from the Corporation without additional taxation, and Rs 5 lakhs from the tax on jute, by far the greater proportion of which will probably be borne by consumers beyond Calcutta The special additional taxation falling ultimately on Calcutta represents in fact only about one-quarter of the whole cost of the scheme

25 In the event of the estimates of return of capital outlay or of revenue proving to have been materially overstated, the ultimate financial responsibility falls on the Calcutta ratepayer But serious miscalculation can be avoided by proceeding cautiously and experimentally, and restricting the programme of work with reference to the financial results actually obtained

Guarantee for fulfilment of Liabilities

Procedure in event of default being made by the Board in payment of interests or investment of sinking fund charges

80 In the event of any default being made by the Board in any payment of interest due by the Board under sections 52 and 54, or in any payment due by the Board under section 67 to the Secretary of State for India in Council or to the Corporation respectively, or in the event of the Board failing to pay or to set aside and invest any sum as required under section 55, the Accountant General of Bombay, or other officer for the time being performing the duties of the office of the said Accountant-General, shall make such payment or set aside and invest such sum as may be required to be paid or to be set aside and invested as aforesaid, and the Commissioner shall forthwith pay from the Municipal Fund to the said Accountant-General the amount of such payment made or the sum so set aside and invested by the said Accountant-General as aforesaid, and thereupon the Corporation may levy any such special tax as may be approved by Government in this behalf and as may be sufficient to repay to the Municipal Fund the amount withdrawn by the Commissioner as aforesaid

Bombay III of 1888

Such special tax shall be in addition to the taxes from time to time leviable under the Municipal Act

Procedure in event of Commissioner failing to make payment as required by last preceding section

81 (1) If the Commissioner fails to make payment as required in sections 72, 73 or the last preceding section, Government may attach the Municipal fund or any tax leviable by the Corporation, and thereupon the provisions of sub-sections (2) and (3) of section 99 of the Municipal Act shall, with all necessary modifications, be deemed to apply to such attachment, and Government may further require the Corporation to levy a special tax as provided in the last preceding section

Bombay III of 1888

(2) Any moneys paid by the Commissioner under the last preceding section or payable under the said section and levied under this section shall constitute a charge upon the property of the Board prior to any division of profits

Government to have power to attach revenues of the Board in the event of default in payment of liabilities

82 In the event of the Board making any default in payment, or failing to set aside and reinvest as aforesaid as contemplated in section 80, Government may attach the rents and other income of the Board, and thereupon the provisions of sub-sections (2) and (3) of section 99 of the Municipal Act shall, with all necessary modifications, be deemed to apply to such attachment

NOTE—The present rule 10(a) will stand as No 10(b)

No. 1667T—M—The 18th July 1905—It is hereby notified for general information that in exercise of the powers conferred on him by section 138 of the Bengal Local Self-Government Act III of 1885, the Lieutenant-Governor is pleased to make the following amendments in Rule 115 of the rules made under clauses (s) and (t) of that section and published with Notification No 2009T—M, dated the 9th November 1901, at pages 217—273 of Part IB of the *Calcutta Gazette* of the 4th December 1901 —

(1) In clause 2, line 2, the words "permanent pensionable establishment" should be substituted for the words "permanent establishment"

(2) In clause 2 (a), the words "permanent pensionable appointment" should be substituted for the words "permanent appointment."

(3) In clause 2 (c), line 4, the words "the particulars of their previous service and the rules or orders under which their service qualifies for pension should be given" should be substituted for the words "their age and health certificates should be attached to the statement"

2 The amended rule will stand as follows —

"115 The Chairman or Vice-Chairman is primarily responsible that every necessary entry is made, specially in regard to leave or suspension, but it is also the duty of each employe to remind the Chairman, Vice Chairman, or Secretary, when any entry is necessary, and to see that his own service-book is properly written up and attested It should be carefully explained to each employé that, unless he does so, there may be a difficulty hereafter in verifying his service when his claim to pension shall come to be investigated and considered Service-books shall be introduced and kept up, whether rules for the grant of pensions and gratuities have been framed or not

At the time of preparing the pay-bill for March in each year, a detailed statement of the permanent pensionable establishment existing on the 1st April should be prepared in Form XXIIIA and transmitted to the Accountant-General direct not later than the 15th April In preparing the statement the following instructions should be carefully observed —

(a) The name, designation, and pay of every officer, clerk, or menial servant holding a permanent pensionable appointment, whether on duty or absent on leave or deputation, or under suspension, should be distinctly shown

(b) The date of birth, of appointment to present post, and of promotion to present pay of each person should be entered in the appropriate columns of the statement, the date of birth by Christian era should be given, and, if the exact date is not known, the approximate date, or year should be stated

(c) The name of any person acting in an appointment, as well as the acting allowance paid to him, should be shown in the column 'Name of incumbent" beneath the name of the absentee, for whom he is officiating

(d) If the acting incumbent holds a permanent appointment upon another establishment, the fact should be stated

(e) A detailed statement in Form XXIIIB should be given at foot of the original return, Form XXIIIA showing new names of officers which are not found in the return of the previous year, and when these new names include those of persons who have entered the service of the District Board for the first time the particulars of their previous service and the rules or orders under which their service qualifies for pension should be given Columns are also provided in Form XXIIIB for information required in regard to the names of officers which appeared in Form XXIIIA of the previous year, but are now omitted, as also regarding officers who have been on leave, other than privilege leave, or under suspension during the previous year In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension

(f) If any person on the establishment is a Government pensioner, or is not the servant of the District Board solely, the fact should be noted in the statement If he be an officer transferred from the pensionable service of Government for whose pension contribution is paid, a note should be entered against his name to the effect "Contribution paid to Government for pension"

When completed in accordance with the preceding instructions, the statement should be carefully checked with the service-books, as it will be the authority by which hereafter pension claims will be tested by the Accountant-General

No 1696T—M—The 19th July 1905—IT is hereby notified for general information that in exercise of the powers conferred on him by clauses (*i*) and (*l*) of section 138 of the Bengal Local Self-Government Act, III of 1885, the Lieutenant Governor intends to make the following rules in addition to those published under Notification No 2009T—M, dated the 9th November 1901, at pages 217-273, Part IB of the *Calcutta Gazette* of the 4th December 1901

2 The rules will be taken into consideration with a view to their final adoption on the 1st September 1905, when any objection or suggestion which may be made by any person and received before that date will be considered

GENERAL

4 All the accounts and registers of the Joint Committee shall be kept in English All books of accounts and registers shall be substantially bound and paged before being brought into use, and no accounts shall be prepared on loose sheets of paper or in loosely-bound volumes.

5. All corrections and alterations in accounts shall be neatly made in red ink and attested by the initials of the President All corrections and alterations in a voucher shall be attested by the payee *Erasures shall on no account be permitted in registers, statements, vouchers or accounts of any description*

6 After the budget estimates for the year, or supplementary estimates, have been sanctioned, the Joint-Committee, acting in the exercise of the powers conferred on them by section 32 (*e*) of the Act, or the rules made under the said section of the Act, may from time to time, by a general or special Resolution, authorize the President or other executive officer of the Committee to expend any sum, or a part of any sum provided in such estimates, for the purpose to which it has been therein assigned

7 No expenditure shall be incurred for which provision has not been made in the budget estimate for the year, or in a supplementary budget estimate, and which has not been duly

sanctioned by the Joint-Committee, or by the President or other executive officer of the Committee acting in exercise of the powers conferred on him by the rules made under the Act

8 The President shall cause to be kept a register of establishment in Form No X, showing, in respect of all establishment whatsoever employed by the Joint-Committee, the particulars specified in the form A separate page or section shall be allotted to each class of establishment All changes made by competent authority from time to time in the numbers, nomenclature, or salaries of the establishment shall be immediately entered in the register with the number and date of the orders authorizing the change A space should be left under each name for the entry of alterations, and a fresh corrected list should be written up annually or as often as required No entries regarding officiating incumbents, or grant of leave, should be made in this register

9. At the close of every year the President of the Joint-Committee shall submit to the Commissioner of the Division a list of those records of the Joint-Committee's office which may properly be destroyed In giving sanction to the destruction of such records, the Commissioner shall be guided by the general rules issued by Government from time to time on this behalf

LOSS OF MONEY BY EMBEZZLEMENT, THEFT OR OTHERWISE

10 Whenever any loss of money by embezzlement, theft or otherwise is discovered, the fact shall be promptly reported by the President of the Joint-Committee to the Accountant-General, Bengal, and to the Commissioner of the Division through the District Magistrate When the matter has been fully enquired into, he shall submit a further and complete report showing the total sum of money lost, the manner in which the money was lost and the steps taken to recover the amount and punish the offenders, if any No money lost by defalcation, theft or otherwise shall be written off from the accounts, except with the sanction of the Commissioner of the division When the amount of the loss exceeds Rs 500 or when the loss is due to any defect in the system of accounts, collection, etc, the sanction of Government is necessary

BUDGET ESTIMATE

11 On or before the 1st September each year the Joint-Committee shall, in consultation with the Inspector of Schools, prepare a budget estimate, showing the probable receipts and expenditure of the institution under its charge for the ensuing official year, and shall forward copies of the same to the Magistrate through the Municipality and the District Board concerned, and one copy to the Director of Public Instruction also The Magistrate and the Director of Public Instruction shall forward the estimates to the Commissioner of the Division with their remarks on or before the 1st October Copies of the estimates, as sanctioned by the Commissioner, shall be forwarded to the Joint-Committee, the District Board and the Municipality, through the Magistrate

12 The procedure laid down in the last preceding rule shall be observed in every case where the Joint-Committee may find it necessary to amend the budget estimate at any time after it has been sanctioned

13 In preparing the budget estimates the Joint-Committee shall show on the receipt side the contributions by the Municipality and the District Board and the receipts of the institution from fees, endowments and other sources, and on the payment side the establishment, contingent and other charges which have been sanctioned by competent authority The budget estimate shall be supplemented by a statement, giving details of the estimated receipts from school fees and other sources and of the establishments and works provided for on the expenditure side

TRANSACTIONS WITH THE TREASURY

14 The funds of the Committee shall be lodged in the Government Treasury and placed to the credit of a Personal Deposit Account to be opened in the official name of the President of the Joint-Committee

15 Remittances to the treasury should in all cases be accompanied by chalans in duplicate (Form No II) The first part shall be retained by the treasury, and the counterfoil, duly receipted by the treasury officials, should be returned to the Committee's office for record

16 All moneys remitted to the treasury to credit of the Joint-Committee and all payments made by the treasury on cheques or otherwise on account of the Joint-Committee shall be entered in a pass-book, the pass-book shall remain in the custody of the President, and it shall be sent to the treasury on the 10th and also on the last working day of every month and on any other day on which the Joint-Committee may require the posting to be done On receipt of the pass-book by the treasury officials, the receipts and payments up to date, and credits referred to in rule 21, shall be entered therein, and (when the book is received on the last working day of the month) the accounts shall be balanced and signed by the Treasury Officer, the amount being entered in words as well as figures The book shall then be returned to the office of the Joint-Committee, as soon as the entries prescribed in this rule have been made in it, i e., on the day of receipt or the next open day at the latest

17 The pass-book will be supplied by the treasury It is not a Joint-Committee Fund account-book, but is simply a copy of the account kept in the treasury of the money paid into the credit of, and disbursed on account of, the Joint-Committee, and must therefore

always be written up *only by the Government Treasury Department* by whom the original account is kept

18 No entries or marks shall, under any circumstances, be made in the pass-book by any one connected with the Joint-Committee's office

19 The President shall examine this pass-book from time to time, and shall immediately call the attention of the Treasury Officer to any discrepancy that may appear between the credits and debits shown in the pass-book and those shown in the accounts of the Joint-Committee's office

20 The form of the pass-book is as follows —

DR *The Treasury or Bank of* *in Account Current*
with the Joint-Committee's Fund CR

1	2	3	4	5			6	7	8	9	10		
				Amount							Amount		
Monthly consecutive number of item of receipt	Date	No of chalan	Initials of Treasury Officer	Rs	A	P	Monthly consecutive number of item of payment	Date	No of cheque	Initials of Treasury Officer	Rs	A	P

21 When a grant is made to the Joint-Committee's Fund from Provincial revenues, either as a general grant-in-aid, or for expenditure on any specific object, the Accountant-General shall, in the first case, at the beginning of the year, or in the second case, on receipt of orders, instruct the Treasury Officer to credit the amount of the grant to the Joint-Committee's Fund The credit shall be made by book transfer, no bill or cheque shall be drawn, and no money shall be paid out of the treasury

PAYMENT OF CLAIMS

22 For the payment of petty charges, the President shall hold a permanent advance of such amount as the Joint-Committee may fix from time to time, provided that, without the sanction of the Commissioner, the Joint-Committee shall not fix the amount of the permanent advance at more than Rs 50

23 The permanent advance shall be recouped as often as may be necessary in the manner prescribed in rules 51 and 52 below

24 Payments of not more than Rs 20 shall be made from the permanent advance, provided that no charge on account of the salary of any employe of the Joint-Committee shall be made otherwise than as prescribed in rules 25 and 30

25 All payments exceeding Rs 20 shall be made by cheque, unless there are special circumstances rendering payment in cash desirable, provided that all payments of sums above Rs 10 on account of salaries of employes of the Joint Committee shall be made by cheque

26 Cheque-books will be supplied by the Treasury Officer only, and no other form shall be used The cheque-books and the counterfoils of used cheques shall be kept in the custody of the President

27 On receipt of a cheque-book from the treasury, the officer to whom the duty of signing cheques is allotted shall count the cheques, and shall record on the back of the cheque-book that "this cheque-book contains forms"

28 Cheques for sums not exceeding Rs 100 shall be signed by the President Cheques for sums exceeding Rs 100 shall be signed by the President and the Vice-President or Secretary or, in the absence of one or other of them, by the officer present and a member of the Joint-Committee

29 No cheque shall be signed unless required for immediate delivery to the person to whom the money is to be paid, nor until the bill, which it will discharge, has been presented in a complete form, examined and passed for payment in accordance with rules 36 and 38

30 Every cheque shall be drawn in English in favour of the person to whom the money is actually due Payment shall not be made to any other person, except on production of a written authority from the creditor to receive it on his behalf The rule does not apply to cheques issued for a sum of money distributable as pay or wages among a number of Joint-Committee Fund employés, or for recouping the permanent advance Whenever money is paid to persons who are illiterate and unable to sign their names in acknowledgement, the payee shall make his mark, the fact of the payment shall be certified to by the officer who pays, and by a witness of respectability

31 The amount of every cheque shall be written in words as well as in figures, both on the cheque itself and on the counterfoil, and the counterfoil shall be initialled by the person or persons who sign the cheque The word "only" shall always be inserted after the amount written in words in the body of the cheque

32 Every cheque drawn for a sum, whether exceeding Rs 20 or not, shall bear a receipt stamp of the value of one anna, and such receipt stamp shall be affixed before the cheque is signed

33 When a signed cheque is cancelled, it shall the enfaced or stamped "cancelled" by the President, and shall be destroyed and the necessary adjustment shall be made in the cash-book

34 The fact of cancellation shall be noted in red ink under the initials of the drawer of the cheque upon the counterfoil and also across the passing order which has been enfaced upon the voucher

35 Cheques are current for three months only After the expiration of that period, payment will be refused at the treasury, and the person in whose favour the cheque was drawn will, therefore, have to bring it back to be re dated No fresh cheque should be issued, the lapsed cheque shall simply be re-dated and the alteration initialled by the President or official whose duty it would be to sign the cheque under rule A note of the fact of re dating shall be entered in the cash-book against the original transaction The alteration will in no way affect the accounts, and no further entries shall be made

36 Every bill or other claim for payment from the Joint-Committee Fund shall be presented in the first instance to the Head of the Educational Institution who shall check and examine it, and if it be found correct and in order, shall submit it for orders to the President If payment of the bill so presented is to be made, an order for the payment shall be endorsed upon it The order for payment shall run as follows —"Pay Rupees only (Rs)," the amount being written in words as well as in figures, and shall be signed by the President

37 If payment is to be made from the permanent advance, the procedure laid down in rules 49 to 53 shall be adopted

38 If payment is to be made by cheque, the President shall cause the bill to be endorsed with the words "paid by cheque No ," and shall then sign the endorsement, and cause the cheque to be drawn out, signed and issued The payee or person taking delivery of the cheque on his behalf shall give a dated acknowledgement of the receipt thereof on that bill Whenever necessary and convenient to the treasury, cheques issued from the Joint-Committee's office may be enfaced at the district treasury for payment at a sub-treasury

39 When any payment is made either by cheque or in cash from the permanent advance, it shall be immediately entered in the accounts of the Joint-Committee In the former case it shall be entered in the cash-book (Form No III) In the latter case, it shall be entered in the permanent advance account (Form No VII)

40 Every payment made, either in cash or by cheque, shall be covered by a receipt, stamped if necessary, signed by the person to whom the money is due and to whom it has actually been paid A receipt signed by another person for the creditor, or with a stamp, is invalid

41 Bills and vouchers that have been paid by cheque shall be numbered consecutively for the year in order of payment, and shall be pasted in a guard-book But sub-vouchers, which have been paid in cash out of the permanent advance, shall be separately filed, together with the recoupment voucher covering them A memorandum instead of this voucher shall be pasted into the guard-book mentioned above, viz ,—

MEMORANDUM

Voucher No , dated , for Rs in recoupment of the President's permanent advance, will be found in the separate file

CASH-BOOK

42 The cash-book shall be in Form No III and shall show on the receipt side all sums realized in cash as soon as they are received Sums credited in the pass-book direct should be similarly shown as soon as intimation is received either direct or through the pass book Expenditure shall be entered day by day as cheques are issued (*vide* rule 39 of these rules) All sums received in cash must be remitted to the treasury at once, or within three days at the latest

43 The cash-book shall be closed and balanced at the end of every month and shall be signed by the President The difference between the closing balance of the cash-book and that in the treasury arising from uncashed cheques or short credits shall be reconciled in the following manner —

	Rs
Balance as per cash-book	
Add—Uncashed cheques . . .	.
Deduct—Short credits ...	.
Balance as per pass-book	... ..

PERMANENT ADVANCE

44 On first receiving or taking charge of the permanent advance, the President shall sign and file an acknowledgement in these terms —"I acknowledge to have in my possession a permanent advance of Rupees (Rs), which sum is due from me to the Joint-Committee, and I am personally accountable for the amount"

45 A similar acknowledgment shall also be given by the President on the first working day of each year

46 The permanent advance when first drawn shall be charged in the cash-book to the head "Advances," and shall be debited to the President's account in the advance ledger

47 There will be no further operations upon the ledger account until the advance is finally repaid It need not be repaid at the end of each year If the amount originally fixed for the permanent advance is subsequently increased or decreased by the Joint-Committee, the original advance shall be repaid and a fresh advance drawn

48 The President shall make payments from his permanent advance from time to time as may be required, and for each payment he shall obtain and hold a bill receipted by the payee, or, in the case of petty office expenses, a written detailed statement of the sum spent

49 These bills or statements shall be numbered consecutively, enfaced or stamped "paid in cash," and entered in the register in Form VII, the classification of the charges being carefully entered in the columns provided for the purpose

50 The permanent advance may be recouped whenever necessary, and it must always be recouped on the last working day of the month except when the expenditure falls below Rs 10, for which no cheques can be drawn upon the treasury

51 The procedure of recoupment is as follows —The President shall compare the sub vouchers with the entries in the permanent advance account, he shall deface them by stamping them "cancelled," so that they cannot be used again He shall total and initial the column 'Amount of sub-voucher" in the permanent advance account, and also the amounts in the classification columns, the cross total of which should agree with the total of the column "Amount of sub-voucher,' and shall rule a red ink line across the page, immediately above which, in the last two columns, the number, date and amount of the voucher for recoupment shall be shown

52 The voucher for recoupment shall be drawn out in Form No VIII, and it shall be enfaced with the usual payment order The President shall draw out a cheque in his own favour for the amount, and sign the certificate in the voucher and the entries in the last two columns of the register

MONTHLY, QUARTERLY AND ANNUAL ACCOUNTS

53 As soon as possible, after the end of a month, the entries on the receipt side of the cash book (Form No III) shall be posted in the register of monthly receipts (Form No IV) against the heads concerned In cases in which there is more than one item classifiable under the same head, the total only should be posted against the head in the body of the accounts the details being posted at foot in the column for the month concerned All the payments entered in the cash-book should be posted in the monthly register of payments (Form No V) For this purpose the classification of the charges should be noted in red ink on each voucher The vouchers should then all be arranged in the order of the heads in the monthly accounts If there are more than one voucher under any head, the several items with the numbers of the vouchers should be posted at foot of the monthly account in the column for the month concerned, and the total only posted against the head in the body of the account, the two entries being connected with each other by indicative letters In such cases the numbers of the vouchers should not be posted in the body, but only against the details at foot The monthly accounts of receipts and payments should then be totalled and the balances reconciled

54 An extract from these accounts, showing the figures for the month and the progressive totals to the end of it, should be forwarded to the Accountant General, Bengal, not later than the 15th of the month following that to which the accounts relate

55 The annual account of the school should be compiled from the monthly accounts and subsidiary registers in the form prescribed by the Educational rules, and copies of this account should be forwarded to the Accountant-General, the Director of Public Instruction, and the District Board and Municipal Office

ADVANCES AND DEPOSITS

56 All sums advanced to officers or employés of the Joint-Committee or to contractors or other persons, whether as permanent advances or otherwise, shall be charged in the accounts at once to the head "Advances" and be entered at the same time in the register of advances in Form No IX, in which recoveries or adjustments of the advances should also be entered as soon as they are effected

AUDIT

57 The accounts of the Joint-Committee's Fund shall be examined and audited by the Examiner of Local Accounts in Bengal as far as possible not less often than once in twelve months

58 In auditing the accounts, the Examiner shall see that they have been kept and are presented in proper form, that the particular items of receipt and expenditure are stated in sufficient detail, and that the payments are supported by adequate vouchers and authority He shall examine whether all sums received, or which ought to have been received, are brought into account, and also whether the expenditure is in all cases such as might lawfully be made He shall also reduce such payments and charges as are exorbitant, and shall surcharge moneys not duly accounted for, or lost by negligence, upon the person who ought to account for the same, or whose negligence or improper conduct has caused the loss, and shall disallow and strike out such payments as are not authorized by law or competent authority

59 Copies of the reports of such examination shall be forwarded by the Accountant-General, Bengal, to the President of the Joint-Committee and the Commissioner of the Division The President shall be bound to remedy any defects or irregularities that may be pointed out by the Accountant-General or the Examiner, and within three months of the date of the receipt of the report, he shall submit a statement, giving particulars of the action taken thereon to the Commissioner, who shall forward the same with his remarks to the Accountant-General

RECORD OF SERVICE

60 A service-book in Form No XI, printed in English and the vernacular, shall be supplied at his own cost to every employe holding a substantive appointment on the permanent establishment of a Joint-Committee It shall be kept in custody of the President, whose signature as well as that of the employé on the first page shall be attested every five years

The service-book is a contemporary record of the employé's official life, including leave of every description, every period of suspension from employment, and every other interruption of service, with full details of its duration Every entry relating thereto shall be written across the page and attested by the President or Vice-President, or the Secretary

61 The President or Vice-President is primarily responsible that every necessary entry is made, especially in regard to leave or suspension, but it is also the duty of each employe to remind the President, Vice-President, or Secretary, when any entry is necessary, and to see that his own service-book is properly written up and attested It should be carefully explained to each employé that, unless he does so, there may be a difficulty hereafter in verifying his service when his claim to pension shall come to be investigated and considered Service books shall be introduced and kept up, whether rules for the grant of pensions and gratuities have been framed or not

At the time of preparing the pay-bill for March in each year, a detailed statement of the permanent pensionable establishment existing on the 1st April should be prepared in Form No XII and transmitted to the Accountant-General direct not later than the 15th April In preparing the statement the following instructions should be carefully observed —

(a) The name designation and pay of every officer clerk or menial servant holding a permanent appointment whether on duty or absent on leave or deputation or under suspension should be distinctly shown

(b) The date of birth of appointment to present post and of promotion to present pay of each person should be entered in the appropriate columns of the statement the date of birth by Christian era should be given, and if the exact date is not known the approximate date or year should be stated

(c) The name of any person acting in an appointment as well as the acting allowance paid to him, should be shown in the column " Name of incumbent beneath the name of the absentee for whom he is officiating

(d) If the acting incumbent holds a permanent appointment upon another establishment, the fact should be stated

(e) A detailed statement in Form XIIA should be given at foot of the original return, Form XII, showing new names of officers which are not found in the return of the previous year, and when these new names include those of persons who have entered the service of the Joint Committee for the first time, their age and health certificates should be attached to the statement Columns are also provided in Form XIIA for information required in regard to the names of officers which appeared in Form XII of the previous year, but are now omitted as also regarding officers who have been on leave other than privilege leave, or under suspension during the previous year In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension

(f) If any person on the establishment is a Government pensioner, or is not the servant of the Joint Committee solely, the fact should be noted in the statement If he be an officer transferred from the pensionable service of Government, for whose pension contribution is paid, a note should be entered against his name to the effect " contribution paid to Government for pension "

When completed in accordance with the preceding instructions, the statement should be carefully checked with the service-books, as it will be the authority by which hereafter pension claims will be tested by the Accountant-General

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23.

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 14th July, 1905

NO. 7 OF 1905

A Bill further to amend the Indian Articles of War.

WHEREAS it is expedient further to amend the Indian Articles of War, It is hereby enacted as follows V of 1869.

Short title

1. This Act may be called the Indian Articles of War (Amendment) Act, 1905

Amendment of articles 4 and 161 of Indian Articles of War

2. In article 4, sub-article *(1)*, clause *(b)*, and in article 161 of the Indian Articles of War, for the words "division or district" the words "division, district or brigade" shall be substituted. V of 1869

STATEMENT OF OBJECTS AND REASONS.

UNDER the new distribution of the Army (India Army Order No 768 of 1904), General and other Officers Commanding Brigades are to have the same powers as were formerly exercised by Officers Commanding Districts

It is therefore necessary to amend Article 4 *(1) (b)* and Article 161 of the Indian Articles of War, which confer certain powers on Officers Commanding Districts in order to enable Officers Commanding Brigades to exercise the same powers. It is to effect these amendments that the present Bill has been proposed.

The 10th July, 1905.

E. R ELLES.

Wonsan (Gensan)—Special Regulations for entry or departure

No 278 (second publication).—Notice to Mariners No 552 of 1905 issued by the British Admiralty is republished —

Information dated 18th April 1905 has been received from H B M Consul at Wonsan or Gensan that on 17th April the following regulations for vessels entering or leaving that port were put in force by the Japanese military authorities —

(1) All vessels, except those belonging to the Japanese Imperial Navy, are prohibited from entering or leaving Wonsan bay between sunset and sunrise without special permission from the Commander of the port

(2) Vessels entering or leaving must keep southward of an imaginary line joining the south-western point of Nikolskago island and the southern extremity of Sho shin to (Bretel island)

(3) The speed of vessels is not to exceed 5 knots when navigating within the area westward of imaginary lines joining Black rock (northward of Nakhimova peninsula) to the north point of Kuprianova island and the eastern extremity of Nikolskago island, and from thence to Kodrika point. Wonsan harbour limit extends in a S 70° W direction from the western extremity of Muraveva point to a point on the coast about 4½ cables N 52° W from the red light at Khosui ri

(4) Except the Commander of the port considers it necessary to enforce them, the regulations in paragraphs Nos 2 and 3 do not apply to vessels under 20 tons displacement, cargo-boats or boats belonging to the Naval or Military departments, or boats under special permission from the Commander of the port.

(5) Any vessels infringing these regulations are liable to meet with an accident and to be fired upon at night

A picket boat will be kept to guide vessels into port

Approximate position, Muraveva point, lat 39° 12¼′ N, long 127° 28¼′ E

Port Adelaide river—No 2 Light Beacon removed and Red Light exhibited

No 279 (*second publication*) —With reference to Notice to Mariners No 228, dated 24th June 1905, issued by this office, the President of the Marine Board, Port Adelaide, has given further notice (No 18 of 1905) informing Masters of Vessels, Pilots, and others that Deepening Operations in the vicinity necessitate the removal of No 2 Light Beacon, and that on and after the 1st July next a Red Light in lieu thereof will be exhibited from the Red Pile Beacon south of No 3 This Light on with No 4 will point out when to turn off No 1 lead (two Red lights) and direct the course towards No 3 Light Beacon

Sailing Directions

By night —In approaching the anchorage vessels of deep draught should not bring the White Light on the old structure to bear north of N E by E in order to avoid the four-fathom patch, which bears N W ¼ N from the Light on Wonga Shoal, then get the outer leads [which consist of Two Red Lights vertical seven (7) feet apart and Two White Lights vertical seven (7) feet apart] in line, keep these in line passing between the Occulting Light on the Red Buoy and the Outer Green Light on the north bank, also between the other Green Lights on the north bank and the White Lights on the revetment mound

Steer on the same line until the two Red Lights of No 1 lead are coming on, then steer with them on line until the Red Light south of No 3 Beacon is on with No 4, then direct the course to pass a safe distance off No 3, then steer for a like distance off No 4, and so on from beacon to beacon round the point until No 9 is reached From a safe distance off No 9 the lights of No 10 lead will be seen, keep them in line until the Red Light is about a quarter of a point open to the right of the White Light of No 11 lead, then gradually alter the course to bring the lights of No 11 lead in line, keep them in line (a sharp lookout being kept for the mooring buoys on the starboard hand) until the lights of No 12 lead are seen coming into line, proceed as before by altering the course before the lights are on with each other The same applies in the change from No 12 to No 13 leads, when the lights on the wharves are seen opening out off Luff Point, alter the course so as to round the point at a safe distance, and then up the centre of the Channel, looking out for the Mooring Buoys on the starboard hand

By day—The directions by day are the same as by night, merely substituting the Beacons for the Lights

In going outwards the directions are just the opposite to those given for coming inwards, but in such case, in changing from one lead to another, the course should be gradually altered when abreast of the Low (Red) Beacon of each lead

This affects Admiralty Charts 2389B, 1750, and 1752.

BAY OF BENGAL—Hughli river approach

General Instructions

No 257 (*third publication*) —The following "Directions" are laid down for the guidance of Pilots, Masters of vessels, and others, in supersession of the instructions on pages 215, 216 and 217 of the third edition of the Bay of Bengal Pilot, 1901 —

Pilot steamer and brigs—Cruising station

The pilot steamer is of 1,000 tons, painted white with three masts and yellow funnel The brigs are of about 300 tons, painted black, with white stripes and imitation ports and double top sail yard All pilot vessels by day will fly a large blue flag at the main, when inward bound vessels are sighted, and at night will exhibit the regulation lights and flare up

During the south-west monsoon, pilot vessels will invariably cruise about 8 miles south to south-west of the Eastern Channel light vessel During the north-east monsoon they cruise or anchor 4 to 5 miles west to north-north-west of the same light-vessel

Pilotage—Is compulsory for all merchant vessels over 100 tons

If a pilot is not taken at the cruising station one cannot be obtained in the river.

Approach—Directions —Steam vessels arriving at the Sandheads and finding the pilot steamer on the station should close with her and lie to about 300 yards distant under her stern in such a manner as to make a lee for the pilot boat, when a pilot will be supplied.

To avoid delay, approaching steam vessels should, when about half a mile off the pilot vessels, indicate their tonnage by the following steam whistle signals —

Over 3,400	tons gross	...	One short blast.
Between 2,800 and 3,400	"	..	Two " "
" 1,800 and 2,800	"	..	Three " "
Under 1,800	"		Four " "

Sailing vessels should signal net tonnage

Sailing vessels should approach within safe distance of the steam pilot vessel and then heave to on the starboard tack when a pilot will be supplied

Steam vessels on closing with the pilot brig for a pilot should lie under her stern or weather quarter, and after receiving a pilot tow the boat to windward of the brig Sailing vessels should invariably lie to on the same tack as the pilot brig, unless signalled to the contrary

During bad weather when boating is not safe or when there are no pilots in the station, pilot vessels during daylight will not show the blue flag, and at night will not exhibit the regulation lights or flare up light for pilot vessels engaged on the station Masters of inward bound vessels should pay particular attention to any signals made under those circumstances

Sailing vessels should not run for the station at night or in threatening weather Under such circumstances put the vessel under small sail while in deep water and keep to the sea until daylight The lead should be kept going constantly

Vessels arriving at the pilot* station and finding the pilot vessel at anchor must use the utmost caution in closing her on account of the strong tidal streams. When easterly winds prevail there is a strong set to the westward, it is then specially incumbent on strangers to take advice given from the pilot vessel In arriving at night do not heave-to to windward of the brig if intending to take a pilot before day light, but close as soon as possible, approaching round the brig's stern, whether at anchor or under way

* Lloyd's Agents at Calcutta have facilities for delivering orders there

In August, September, and October, when sailing vessels are signalled to keep to windward from there being no pilots, or other causes, they should be most careful to keep the light vessels or brigs in sight, for should the wind fall light they are liable to be set out to sea, and particularly in the two latter months may not be able to return for many days

Signals from the brig to prepare for bad weather should not be ignored

The tidal stream should be studied, the first of the flood setting westward, stand eastward, the first of the ebb setting eastward, stand westward and northward

A kedge anchor is useful. Strangers anchoring below or at any distance off the light-vessel, should endeavour to near the brig and not remain at anchor The practice of rounding the brig close-to, in a sea-way, is dangerous both to the brig and to the boat alongside, it almost swamps the boat, and the ship, on being brought to the wind, gets a rapid stern board on to the brig, which has often great difficulty in getting clear

Caution —Should it be necessary when approaching the Hughli river (Sandheads) in heavy weather to anchor from any cause, if possible anchor outside the line joining Eastern Channel and Mutlah light vessels in not less than 15 fathoms, mud, and do not close the pilot brigs until the weather moderates

A vessel will ride easier and bring less strain on her cable if anchored in depths of 15 to 20 fathoms, than in less depths, especially in an estuary In the greater depths, the cable is never quite taut, and therefore is not so liable to part, and also the waves have less force than when they are breaking in the shoaler water

PRELIMINARY FORECAST OF THE JUTE CROP OF BENGAL, 1905.

THE following note is published for general information.

R. W. CARLYLE,
Offg. Chief Secy. to the Govt. of Bengal.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

PRELIMINARY FORECAST FOR THE JUTE CROP OF BENGAL, 1905.

1 *Explanatory.*—The forecast relates to the 27 jute districts of Bengal. Hooghly and Howrah have now been treated separately. By arrangement between the Local

Government and the Chamber of Commerce the materials on which the forecast is based have been already placed at the disposal of the public Criticism and suggestions have been invited Only the Director's own summing-up has been kept confidential until the time of its publication. I desire to express my thanks to those who, in the public press and otherwise, have helped me to form an opinion on the local reports and estimates

2. *Trade conditions.*—The demand for jute has been keen and high prices have ruled during the cultivation season. The figures for the crop of 1904 are not yet complete, but everything points to the conclusion that the estimate of my predecessor, Mr Maddox, namely, 74 lakhs of bales, will be justified by the event The approximate figures of the previous seasons, based upon trade statistics, are noted below for easy reference—

Season	1900	=	64⅓	lakhs of bales
Do	1901	=	73⅓	ditto
Do	1902	=	65	ditto
Do	1903	=	71⅓	ditto

3. *Weather conditions.*—The season of 1905 has had clearly defined characteristics The winter was unusually cold and unusually prolonged, in spring and early summer the showers were copious and the thunder-storms were severe, the monsoon was late in coming and the heat of June was excessive There has been a fair amount of rain in July up to date, but it is too early to say whether a heavy monsoon may be expected. Taking the province as a whole the weather has been moderately favourable to the jute crop, but in some tracts (particularly in the Rajshahi Division) weeding operations were seriously impeded by the spring and summer rains A caterpillar has also, during the last few weeks, been attacking the plant in some of the South-Gangetic districts The fields in the neighbourhood of Calcutta show evident signs of this pest. So far, no reports of damage by caterpillars have come from the chief jute-producing districts, and it is not anticipated that the provincial outturn has been seriously affected. The inter-relationship between the rainfall and the jute outturn is so close that I have added a special appendix to this forecast showing from 1902 onwards the rainfall, district by district, between March and June in the jute-producing area of the province. The figures for rainfall, read in conjunction with the trade statistics quoted in paragraph 2, cannot fail to be of interest to the trade They give a solid basis upon which any one who desires can build up a calculation for the present crop. In this summary I need only draw attention to the following instructive figures, showing the rainfall in inches

for April and May (the important weeding months) in the six great jute-districts of the province —

	1902	1903	1904	1905
Mymensingh	23	11	29	24
Rangpur	17	8	27	23
Tippera	30	7	28	17
Purnea ..	8	2	8	9
Dacca ...	31	5	17	21
Pabna .. .	16	4	20	18

It should be explained that these figures relate to district head quarters. In Purnea the bulk of the jute is grown in Kissenganj subdivision, where the rainfall is heavier than at the head-quarters The figures, however, give a fair indication of the character of the present season compared with the preceding years. It only remains to add that in these six districts the rainfall of June 1905 has not been greatly dissimilar from the rainfall of June 1904. In Mymensingh and Rangpur the rainfall of June 1905 has been heavier than in the preceding year, in Dacca and Pabna it has been lighter, while in Purnea and Tippera there has been little change.

4. *District returns*—The area under jute last year, as worked out by Mr Maddox, was 2,850,000 acres. (The detailed district returns according to the figures which he accepted came to 2,850,900) In the present season the district returns show an area of 3,161,400 acres In arriving at this figure I have reproduced the area reported by the District Officers except in the case of Rangpur It will be remembered that in 1904 the Collector of Rangpur estimated the jute acreage of his district at 428,900, but Mr Maddox reduced the figure to 387,000. The earlier reports from this district for the current year pointed to a figure approximating to the Collector's figure of 1904 I have, however, received a telegram from the Collector yesterday in which he places the acreage for the current year at 366,900 I have myself visited the district early in June and have made enquiries from a number of cultivators I cannot but think that the Collector's present estimate is somewhat below the mark. On the whole it will, I think, be safe to take the figure of Mr Maddox, namely, 387,000, until further information can be obtained. Turning to the outturn per acre I find that the district figures work out to between 86 and 87 per cent The important districts of Mymensingh and Purnea report full outturns per acre, Tippera 90 per cent per acre, Dacca and Pabna 80 per cent, and Rangpur only 66·per cent. On the one hand the tendency to under-estimate must be discounted, and on the other hand the damage done by caterpillars in certain districts, after the preparation of the returns, must be taken into consideration. On the whole I think it safe to take 87 per cent. as the provincial outturn per acre. This is slightly larger than the

figure accepted by the Director last season, and the general similarity between the climatic conditions of the two seasons points to a somewhat similar outturn per acre To sum up, if the climatic conditions of July, August and September 1904 are approximately reproduced in 1905, we may expect an outturn per acre in the current year 2 per cent. greater than the outturn per acre of the preceding year, but the area under jute will be 11 per cent. greater.

5 In the detailed statements which are being printed district by district, I have omitted all mention of a "normal area" The expansive condition of the jute industry makes any abstraction of this sort entirely misleading The area worked out by Mr. Maddox for 1904 will be found in the detailed statements. This area, which has been justified by events, will be found more useful than an imaginary "normal." It only remains to add that where figures taken from cadastral surveys are available, I have embodied them in the detailed statements with a note as to the year in which the survey took place. These figures are of considerable use in testing figures for unsurveyed tracts

Presidency—concld	Murshidabad	1,371,5 0	985 000	20 600	23 310	[illegible]	94	Little				The increase in the area sown and in the estimated out turn is due to favorable rainfall	
	Jessore	1 8,2 000	1 192 000	36 800	41 800	78	91	Do				The high price fetched by jute fibre last year and rain at sowing season this year induced cultivators to sow many paddy fields with jute Hence the increase in the area sown this year A good outturn is expected if there be proper rains during the monsoon	
	Khulna	3 049 542	870 000	10 800	11 7 0	91	95	Do				This year untimely heavy rains in the months of March and April interfered with the sowing and even damaged what was sown Hence the decrease in outturn

	Bogra	869 760	622,900	132 000	184 0 0	73	87	No jute	(a) 28 283	1893 to 1894	4 197	The high price of jute last year and the seasonable rain this year account for the increase in both the area and estimated outturn (a) This represents the area of the Jaipur Government estate	
	Pabna	1 176 960	866 300	193 200	200,600	87 5	80	Very little				The increase in the area sown is due to early rainfall The low outturn may be attributed to heavy rains in the beginning	
Dacca	Dacca	1,780 460	1 214 500	195 400	210 100	100	50	Little				Untimely rainfall has retarded the growth of the crop this year hence the outturn is less than the preceding year The district not having been cadastrally surveyed columns 10 to 12 are left blank	
	Mymensingh	4 082 480	2 400 100	725 000	(b) 795 2 0	70	1 1	No jute			..	(b) The increase is due to the revision of the normal area	
	Faridpur	1 4 9 840	970 300	184 000	161 800	100	[illegible]	Very little				The figures in columns 4 and 6 have been revised after the report of the Travelling Overseer Agricultural Department I am, however in doubt about the figures in column 4 but as a cadastral survey of the district will soon be made the matter will be set right Jute has suffered much owing to untimely rain. The outturn this year has therefore been estimated at 80 per cent	
	Backergunge	2 906 650	1 415,500	10 000	18 000	50	40	Little	1 193 370	1901 to 1904	22 438	On account of the excessive rain and consequent high water at the sowing season the area and outturn this year is much below the normal	The Cadastral figures show that the jute area in this district is larger than was hitherto supposed The survey is still in progress

Division	District	Total area of the district	Estimated total area under cultivation	Approximate area sown last year (1904)	Estimated area sown this year (1905)	Taking 100 to represent the normal outturn per acre how much represented the outturn last year (1904)? The average fall of the corresponding period for 24 years, Surveyor-General's Office ..	30 11

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground Rainfall reported on any day is for 24 hours preceding 8 A M. of that day

o, overcast; g, gloomy, d, drizzling rain, p, passing temporary showers

H W. C CARNDUFF,
Offg Secy to the Govt of Bengal.

FINANCIAL DEPARTMENT

NOTIFICATIONS

No 270-O —*The 31st July 1905* —It is hereby declared that a competitive examination for three appointments in the Opium Department will be held in February 1906 At this examination only such European and Eurasian candidates as have been nominated by the Lieutenant-Governors of Bengal and the United Provinces of Agra and Oudh, each of whom is authorized to make as many nominations as he considers necessary or desirable (those made by the Lieutenant Governor of the United Provinces being subject to ultimate approval by the Lieutenant-Govenor of Bengal), will be permitted to present themselves

It must be clearly understood by competitors that the candidates who may be declared successful will not be entitled to obtain permanent appointments in the grade of Assistant Opium Agents, until permanent vacancies occur in that grade, nor until they have complied with the conditions of rule 12, but it is the intention of Government to appoint them at once to duty in the Department as Officiating Assistant Opium Agents on a salary of Rs 200 a month each If within two years of their appointment they succeed in passing the departmental examinations, and are well reported on, and there are no vacancies in the Department at the time, they will be allowed to draw Rs 250 a month each from the date of passing such examinations, and on being subsequently appointed to substantive posts, they will be allowed to count service for promotion from the date on which they commenced to draw Rs 250 a month Pending such substantive appointment they will remain on a probationary footing and will have no claim to permanent appointment unless their work continues satisfactory

The pay of officers of the Opium Department will rise, with length of service, according to the following scale and the rules governing service in that Department —

Years of approved service	Pay Rs
1, 2, 3, 4 (commencing from the date on which departmental examinations are completely passed)	250
5, 6, 7	300
8, 9, 10	350
11, 12, 13, 14 ...	400
15, 16, 17, 18	500
19, 20, 21, 22 .	600
23, 24, 25, 26 .	700
27 and upwards .	800

Promotion to the two highest grades of Sub Deputy Opium Agent on Rs 900 and Rs 1,000 will be made by selection for ability and good service

2 A certificate of health and physical fitness, signed by a covenanted medical officer in the form given in the margin, will be required from each candidate, who should also furnish a copy of his baptismal certificate, in the absence of which sufficient evidence as to age should be forwarded with the application for admission to the examination No one whose age will be below 19 years on the 1st February 1906, or above 22 years on the 1st March 1906, will be permitted to appear

> I do hereby certify that I have examined Mr a candidate for employment in the Opium Department, and that he has no disease, affection, or bodily infirmity, and is, in my opinion, possessed of a robust constitution well fitted for the performance of the duties appertaining to such an appointment His age is, according to his own statement, years and by appearance years
>
> *Signature*
>
> *Description*
>
> *7/c* *190*

3 A certificate that the candidate is able to ride and is of active habits, signed by a District Magistrate or by a Presidency Magistrate or the Commissioner of Police, in the case of applicants residing in Presidency towns, should also be submitted

4 Applications for nominations by the Lieutenant-Governor of Bengal, accompanied by the necessary certificates, must be sent to the Secretary to the Government of Bengal in the Financial Department, on or before the 1st January 1906 Such applicants as are granted nominations will receive an intimation to that effect, and be required to pay a fee of Rs 20 before they can appear at the examination The fee is payable to the Secretary aforesaid

5 The examination will be held in Calcutta, the date and place of the examination and the order in which the different subjects will be taken up will be notified hereafter to such candidates as are allowed to present themselves at the competition

6 The examination will be by written questions and answers In Hindustani there will also be a test in conversation, and in Elementary Physics and Chemistry and Botany a practical examination

The subjects of examination and the number of marks to be allotted will be as follows —

I —Preliminary—

	Marks

(11) Elementary Physics and Chemistry—practical (180) and theoretical (120)	300
or	
(12) Botany—practical (180) and theoretical (120)	300

No text-books are prescribed for the different subjects, except for the subjects included in Nos. (11) and (12)—Elementary Physics and Chemistry and Botany. The text-books for these subjects are—

(*a*) Gregory and Simmons' "Elementary Physics and Chemistry, Parts I, II and III."

(*b*) Professor J. Reynolds Green's "Text-book on Botany."

No text-book is prescribed for the practical examination, but candidates may find Professor F. O. Bower's "Practical Botany for Beginners" a useful help in preparing for the practical examination in Botany.

7. No books of any kind will be allowed at the time of examination.

8. Candidates who fail to obtain half the marks in each and all of the three subjects of the preliminary examination shall not be allowed to proceed further with the examination in the remaining subjects. The examination in the obligatory and optional subjects will not be held until the papers of the preliminary examination have been examined and marked, for which an interval of a day or two will ordinarily be allowed to the Examiners, and a list of the candidates successful in the preliminary examination will be published forthwith at the place of the examination.

9. In the obligatory subjects referred to above, each candidate must obtain at least one-third of the marks allotted to each paper to be considered to have passed in that paper, and he must also obtain half of the marks in the aggregate of the obligatory subjects. Should no candidate obtain the minimum of qualifying marks according to this standard, the appointment will be made by His Honour the Lieutenant-Governor of Bengal in such way as may be deemed proper.

10. Candidates will be allowed to take up only one of the groups of the optional subjects, and the marks obtained will count towards the aggregate total.

11. Candidates who have complied with the conditions mentioned above will be placed in order of precedence according to the aggregate number of marks obtained by them in the preliminary, obligatory and optional subjects, and the appointments will be made accordingly.

12. Candidates appointed to the Opium Department after examination will be considered as probationers for the first two years of their service. The confirmation of a candidate in the Department will depend on his passing the departmental examinations and on the periodical reports submitted by the Opium Agents, showing the industry and intelligence with which he discharges his duties and his aptitude for service in the Department as displayed during the period of probation. He will be liable to be removed if he fails to pass all examinations within this period, or if his conduct is unsatisfactory and he is reported to be unfit for confirmation.

* Questions on these subjects may also include questions relating to the geography of these countries.
